

DO FEED THE BEARS!

Guide baby bear Byron to the fruit, climbing ladders and jumping over obstacles.

Use your jump wisely to score extra points! Jump objects in pairs, and jump special objects for a massive point bonus!

Kumquats are the most valuable fruit, but also the hardest to reach.

All fish are vulnerable to being eaten, even the one who shoots at you. The one exception is the Shockray Eel. You can guess why from the name.

After three stages, Byron earns a free trip to a fish ladder, where salmon and rainbow trout just beg to be eaten!

These are some of the hazards that will trip up Byron and make him lose one life.
