

# Spectravideo's new Quickshot™ III gives you a better handle on Coleco™ Games

With Spectravideo's new Quickshot™ III joystick, you'll really be able "to handle" those challenging Colecovision games... whether it's Coleco's own games or the exciting ones Spectravideo now makes for Colecovision.

Not only is the Quickshot III a big improvement over other Coleco-compatible joysticks, we think it's the most advanced, superbly-crafted joystick controller in the world.

The two buttons (for separate functions) on the grip make one-hand play possible, and this is a real advantage. However, if your trigger fingers tire, you can simply switch to two-hand control by employing the two fire buttons on the controller base. The grip itself is contoured and unbelievably comfortable, and the easy-read Numeric Keypad allows you to select game levels and number of players. The Quickshot III also features self-stabilizing suction cups and a convenient extra long cord.

If you're tired of coming out second best to those tough (but fun) Colecovision games, pick up the Quickshot III. And show 'em who's boss.

- Two sets of Independent fire buttons.
- Special "Easy Read" Numeric Keypad.
- More comfortably designed contoured handle.
- Extra long cord plugs into either Colecovision game machine or Spectra Video's Coleco Game Adapter.
- Built-in suction cups.
