CAVERN*

A true Gamer's Game, Cavern is full of adventure, fantasy and challenge. You select and name your character(s), determining its strength, intelligence, wisdom and destiny. As you run through the Cavern you'll wander into 256 rooms on each of 10 levels. You'll discover powerful monsters and rich treasures as you level through this maze. Buy weapons and armour with the treasures you collect, or trade them for magic items and books to raise your character's abilities.

A unique, special feature allows you to store the impression and state of your current adventure for a few hours, a week, a month or even a year! For one or many players.

Colocision system only — 2147CL

FLASHPOINT*

In the midst of a bustling city, you search for the vulnerable flash point. Upon reaching it, you are suddenly transported inside that particular building with invading aliens attacking you from all sides. You must destroy the dangerous aliens — quickly — before they destroy your building and the city! For one or more players.

Colocision system only — 2148CL
