# STRATEGIC SOFTWARE

**SignSHOP (DP) \$19** SignSHOP will allow you to custom design and print signs, notices, fliers, posters, announcements, invitations, greeting cards, letterheads, and oversized banners. SignSHOP offers variable positioning commands, two type styles, seven different banner sizes and two print qualities. SignSHOP allows you to integrate pictures with anything that you design. Ten pre-formatted pictures are included with SignSHOP. These consist of religious, holiday and general symbols as well as others for many different occasions. Or if you would like you may design your own with the SignSHOP's powerful picture editor. Due to a complex program routine designed by Strategic Software, SignSHOP PRODUCES STUNNING NEAR DOT MATRIX RESOLUTION ON YOUR STANDARD ADAM PRINTER.

**MultiWRITE (DP) \$32** MultiWRITE is the first professional word processor that has been developed for the ADAM. MultiWRITE modeled after word processors that are available for the IBM PC, Apple II, and CP/M computers. Not only does MultiWRITE include professional word processing features, it also provides a true SIXTY-FOUR COLUMN DISPLAY SCREEN, without the need to purchase an expensive eighty column hardware board. MultiWRITE has the ability to convert existing SmartWRITER files to MultiWRITE format in just a few simple steps. MultiWRITE's standard ON-SCREEN features include line-centering, variable tab variable margin settings, paragraph reformatting, word-wrap, horizontal scrolling, underlining, move & copy, single key positioning, positioning counter, auto page numbering, right justification, super/sub scripting, type-ahead memory holding area, mid-line insertion, forced page breaks, variable line spacing, and so much more. MultiWRITE is extremely easy to operate. Single key presses are all you need to remember. MultiWRITE is primarily written in Z80 machine language for incredibly fast response and execution. Reference manual included.

**MicroWORKS (DP) \$25** A complete and fully integrated home/business productivity system. Contains five modules that work MicroWRITE; the text editor includes on screen centering, variable tab and margin settings, horizontal scrolling, forced page breaks, and replace, mail merge, chain printing and much more.

**MicroFILE**, the data base, includes customized record layouts, 24 characters per field, columnar reports, mailing labels, etc.

**MicroCALC**, the spreadsheet, includes 750 storage cells, summation & average functions, variable column width, auto formula building, etc.

**MicroEDIT**, the picture editor allows you to create designs and illustrations for use in MicroWRITE documents.

**MicroGRAPH**, the business graphics generator allows you to graph your spreadsheet and data base figures in either bar, line or pie charts. Switch charts without reloading data.

Each module loads in seconds due to our exclusive Turbocharged format.

**PaintMASTER (DP) \$19** Now with PicturePRINT which will allow you to print PaintMASTER files on your standard ADAM printer. Now you can have the ability to create complex HI-RESOLUTION GRAPHIC designs on your ADAM. PaintMASTER brings out the true potential of your ADAM. With PaintMASTER you will be able to create sophisticated drawings, colorful presentations, and high-definition designs using an elaborate set of tools that any artist would envy. PaintMASTER is primarily written in Z80 machine language for incredibly fast operation and is commanded by a series of icon driven representations. PaintMASTER's features include twenty variable brush sizes and styles, a complete sixteen palette that controls both foreground and background, automatic circle, polygon, triangle, straight line formatting and variable border and thickness. PaintMASTER has the ability to mix text of any color and your high-resolution pictures on the same screen. It also has the ability to move and copy selected areas of your drawing. And of PaintMASTER will LOAD and SAVE your creations to either data pack or disk. Includes an easy to follow reference manual.

**TurboLOAD (DP) \$25** No longer will you have to wait several minutes while your ADAM loads your favorite program into memory. TurboLOAD, your programs will load as much as ten times faster. TurboLOAD has no preferences, it will work with either data packs or disks. TurboLOAD will improve the performance of your tape drive or disk drive as much as 1000%. TurboLOAD is extremely easy to TurboLOAD simply transforms your BASIC program file into a new and highly efficient version. The TurboLOAD package also includes The File Organizer. The File Organizer will allow you to load, run, rename, lock, unlock, and catalog any program files that are contained on any data pack/disk. The file Organizer will print a detailed, alphabetized report consisting of all program files and what data pack/disks they are contained on.

**NewsMAKER (DP) \$25** The first easy to use page layout system designed for the ADAM. NewsMAKER allows you to create your own newsletters, catalogs, presentations, forms, reports, proposals, articles, manuals, etc. Variable sized text and picture block formats are offered. Position text or pictures anywhere on the page. Powerful text editor included for easy text entry. User selectable, automatic or manual text flow control. Right justification of columns for newspaper effect. Automatically reformats text to fit any size block. Multiple picture files can be placed within columns of text to give your document that professional look. Create your own headlines or tag lines using special oversized character styles. Graphically preview your document before it is printed. Includes powerful picture editor, so you can design your own illustrations or convert any SignSHOP compatible picture file to NewsMAKER format. Produces stunning output on your STANDARD ADAM PRINTER. Includes an easy to follow manual and is AUTO LOADING.

**ProofREADER (DP) \$35** A high-speed, 100% machine language, auto-loading spelling checker, which has been specifically designed for the ADAM. ProofREADER comes with a dictionary file that contains approximately 4000 of the most commonly used words in the English language. By scanning this electronic dictionary, ProofREADER has the ability to locate misspelled words or typographical errors that are found within your SmartWRITER, MultiWrite, or ASCII document files. ProofREADER allows you to create your own, customized dictionary files, containing several thousand more words. When ProofREADER finds a questionable word, it will display it on the screen along with several, correctly spelled alternate suggestions. ProofREADER comes on an auto-loading data pack and includes an easy to follow reference manual.

## SOFTWARE FOR THE ADAM

**PACKCOPY** by Sage Enterprises (DP, DISK) \$29 PACKCOPY allows you to make backup copies of your ADAM software. Makes backup copies of SmartBASIC (includes autoboot), SmartFILER, ADAMCalc, SuperGames (EVEN the short SuperGames), and almost all other software for the ADAM on disk or data pack. Copies software with one or two data drives, dual disk drives, or between a data drive and a disk drive.

**CONVERT** by Saga Enterprises (DP, DISK) \$27 CONVERT is a utility program that allows you to transfer information from other CP/M single-sided double-density disk formats to the ADAM CP/M disk format. CONVERT allows you to read and write to disks that are in the following formats: Zenith 100 CP/M 85 SS/DD; TRS-80 Model IV CP/M+ SS/DD; and IBM CP/M-86 SS/DD. CONVERT reads the necessary tracks of one disk and manipulates the information in order to put it into the format ADAM needs. CONVERT requires at least one disk drive, one data drive and CP/M 2.2.

**UNREAL UTILITIES** by Sage Enterprises (DP, DISK) \$27 A Menu Driven set of utilities that will allow you to read & edit directory information for SmartWriter and SmartBasic files, delete and remove entries that will free up wasted directory space, fix corrupted directories, change file names and their characteristics and more; Format disks: edit and dump blocks on disk or data pack; compare two copies of media to insure that they are identical; move blocks from one location to another on a media; and RECOVER files and programs from a media even if it has been INITed in SmartBasic.

**COPYCART+** by MMSG (DP, DISK) \$15 This program converts standard tapes/disks to special self-booting TARGET media. Copies most Coleco compatible cartridges to the TARGET media. TARGET media can hold multiple cartridge programs. TARGET media will self-boot and display a directory of copied cartridges. Program selection is by number making the program easy to use. Menu driven.

**VIDEOTUNES** by FUTUREVISION (DP) \$26 Play music on your ADAM. Use sheet music or compose your own songs. VideoTunes displays a four octave note range and plays up to three notes at a time. The VideoTunes screen displays both the treble and bass musical staves. Four octaves of piano keys appear at the bottom of the screen. There is one piano key for each of the notes in the four octave note range. VideoTunes comes with 11 prerecorded demo songs. The notes light up on the screen as the music plays. The music scrolls across the screen as the music is played. Store your songs on tape or disk.

**AUTOAID** by FUTUREVISION (DP) \$22 Enhances SmartBASIC. Generates new line numbers as you type in Basic lines. Defines function keys to be any command or character string, i.e. press the "get" key to do a "LOAD," press the "store" key to do a "SAVE." You can even use cursor keys in the definition. New printer controls: automatic print buffering (you can continue to work while the printer is still printing). AutoAid skips over the perforations on continuous form paper, indents your printouts, and allows you to print form feeds. Included with AutoAid is a set of routines: sound output, alter text and background colors, character display in GR and HGR modes, a higher density low resolution graphics mode, direct read and write to the video display chip and the 64K expansion memory. Complete graphic sprite control and much more.

**SmartBASIC BONANZA** (DP) \$25 Not only useful and fun, but these 15 programs can show you some of the capabilities and routines of SmartBASIC. Programs include: Design: hi res figures; Sounder: music & sound; Othello: the board game; Mansion: adventure game; Finance: budget, metric, interest projections; Fugue: three instrument music; Magic: amaze your friends; Tyler: tutor, video game; Tryme: two educational games; MiniAssembler: write machine code; Disassembler: decipher machine code; Filer: databas; Labels: make labels from Filer files; Tennis: pong game; Breakout: video game + Surprises.

**FANTASY GAMER** (DP) \$25 Two text adventures with graphics and an Adventure Creator program. The Visitor: you befriend an alien being and help him find his mother ship. Bomb Squad: an intermediate-level adventure in which you must find and deactivate three bombs planted by terrorists in the embassy of Lunaria. Both adventures include illustrations with some animation. The Adventure Creator helps you create an adventure application of the parser, and teaches you the use of sprites to create animated graphics.

**SPRITEMASTER** (DP, DISK) \$19 Allows you to use sprites in your own programs without having to learn complicated machine language routines. Contains programs that automatically modify and create machine language files that you can load into your own programs with just a few short commands. This saves both time and memory in your programs. Spritemaster will create your sprites, write your code and print out their locations in memory for you, allowing you to manipulate them with ease.

**PRO FOOTBALL** (DP, DISK) \$19 This game provides you with a choice of 27 actual pro plays. The results of the plays that you call are compiled from scores of actual pro games played from 1983 through the present. For example, if you call a screen to the fullback and the defense calls a blitz, the computer will read both files and calculate the results. If the play was intercepted once in 20 times in the pros then it will be the same in the game. If it was incomplete against the defense 10 times out of 30 then the results will be the same.

Up to six characters may play at one time.

**GRAPHIXPIX I (DP) ..... \$19**

This program is a graphics utility package for the ADAM which allows saving and displaying of ADAM SmartBasic graphics screens both Low and High resolution. Utilities for converting SmartBasic graphics screens to a file that can be read by the PaintMASTER High resolution drawing program are also provided. This feature will greatly enhance the use of PaintMASTER.

**GRAPHIXPAINTER (DP) ..... \$24**

This program is a graphics print utility for parallel dot matrix printers which allows printing of ADAM SMARTBasic graphics screens both LOW and HIGH resolution. Included are utilities for saving and loading graphics files/pictures and for converting Run Length Encoded (RLE) digitized pictures to ADAM SMARTBasic high resolution graphics. A printer driver is also included which will allow you to generate graphics commands directly to your DOT MATRIX Printer.

**BACKUP+ 3.0 by MMSG (DP, DISK) \$25**

Fully supports systems with or without the 64K memory expander. (102K/40K copy buffers). Automatically tests internal and expansion RAM memory when loaded. FORMAT DISKS with and without verify. Makes image copies of any media including automatic detection and copy of "Short Tapes." Fully supports mixed tape formats. Identifies and optionally allows user to skip over defective blocks. Makes full use of "Smart Keys" and dynamically displays selected function, drive and block. Copy individual blocks, a range of blocks or multiple ranges of blocks. Contains a block status utility that will read a specified number of blocks and display or print status about each block (defective, empty, or contains data). Contains a full set of file utilities: copy by file, selective file copy, copy BASIC (with disk fixes), delete file, restore deleted files . . . these utilities support the use of "Wild-Cards" and allow all parameters to be specified initially. Display or print a catalog from any drive with file allocation and blocks left. Options allow user to display system files, user files or deleted files. Format disks and initialize tapes and disks while in the program.

**SOFTPACK I by E&T SOFTWARE (DATA PACK, DISK) \$19**

Four great home management programs, all fully menu-driven and very easy to use. Three programs are for checkbook management, reconciliation, and totaling. Keep track of checks, deposits, ATMS, and interest earned. Use ADAM to check your records against your bank statement. Total checks, deposits, tax entries, payment categories, etc. up to 120 records per file are allowed, and all three programs have screen/printer output. The fourth program creates address files for printing labels and envelopes. Prints by first/last name, zip code, etc.

**BUSINESS PACK I by E&T Software (DATA PACK, DISK) \$19**

Three program package designed for a small business. Two programs are for creating and printing address files, containing up to 200 records per file. Print by first/last name, record #, zip code, area code, etc. The third program is an inventory control program. Keep track of stock #, description, quantity on hand, quantity on order, total sold, company cost, and retail cost. Program can display to the screen/printer all inventory items as well as only those that need to be reordered.

**WIZARD'S PINBALL ARCADE (DISK, DATA PACK) ..... \$19**

Seventeen great pinball games created for the ADAM using the Pinball Construction Set. Does not need Pinball Construction Set to work.

**SCREEN CHOP bp Elliam Associates (Disk) ..... \$15**

Screen Chop (used in CP/M) takes data coming to the screen in long lines and chop them so they display as individual lines—eliminating the need for horizontal scrolling.

**A HACKERS GUIDE TO ADAM (DP) ..... \$17.95**

This includes a book and a Data Pack. The Data Pack contains many of the programs that are in the book for a faster and better understanding. The book describes the ADAM system, hardware and software. Operating system routines are identified and instructions are given to use them to control the tape, printer, video, sound and keyboard. Printout of the expansion connectors are given for your own hardware projects. Z80 language is described. Some BASIC programs listed in the book are Z80 Disassembler, Font Editor, Sprite Editor, Sound Program, Backup and Cartridge Copy. This is the book that every ADAM owner should have.

**A HACKERS GUIDE TO ADAM—VOL. TWO ..... \$12.95**

This book contains more information to help you program in BASIC. Chapters included in this book are: BASIC Overview, Zero Page, Keywords, Math Routines, BASIC Commands, PARSER, Data Table, Screen Routines, Tape Routines, Graphics, BASIC Changes, and Schematics.

<b>ADAMLink Direct Connect Modem</b> .....	<b>SPECIAL CLOSEOUT PRICE</b>	<b>\$29.95</b>
A full-duplex, 300-baud, autodial modem that connects directly to the phone line without additional interfaces or clumsy receiver cups.		
<b>ADAMLink II Software</b> (Download & Uploading Program for Modem) Original Program .....		<b>\$12</b>
<b>Extra Digital Data Drive</b> .....		<b>\$24</b>
With the extra data drive, ADAM's on-line storage capacity is doubled allowing up to 500K bytes of data to be stored on two data packs. Eliminates the need to stop and change data packs in order to access, copy or transfer stored information on two separate data packs. Also can be used to replace a defective data drive on any ADAM.		
<b>64K Memory Expander</b> .....		<b>\$45</b>
Increases ADAM RAM by 64K bytes for a total of 144K. Increases the workspace capacity of SmartWRITER Word Processor by 64,000 characters... approximately 32 pages of double-spaced text. Use with CP/M software to provide ultra-fast data storage and retrieval with compatible programs.		
<b>ADAM Replacement Keyboard:</b> New keyboard complete with housing .....		<b>\$9.95</b>
<b>ADAM 5¼ DISK DRIVE</b> (limited supply) .....		<b>\$199</b>
The ADAM Disk drives uses 5¼" single-sided, double density disks which contain 160K bytes of total storage space.		
<b>Replacement POWER SUPPLY for ADAM Printer</b> .....		<b>\$19.95</b>
<b>Tape Drive Head Cleaning Pads</b> .....	Each	<b>\$ .50</b>
<b>Adjustable Tractor Feed Assembly</b> .....		<b>\$65.00</b>
A tractor feed attachment for use on the ADAM SmartWRITER printer. Allows the use of continuous feed paper without the worry of slipping, bunching or double printing. Fully adjustable from 9½" to 2" sheets. Installs in seconds with no tools.		
<b>Printer Stand/Front Off/On Switch</b> .....		<b>\$16</b>
Legs raise printer to allow fanfold paper underneath. Activator moves control of off/on switch to front of printer. No electrical modifications required.		
<b>Front Off/On Switch Only</b> .....		<b>\$10.95</b>
<b>Expansion Module #2 with Turbo Cartridge</b> .....		<b>\$39</b>
Includes a tabletop console with arcade-style steering wheel and floor operated accelerator foot pedal.		
<b>Super Action Controllers (2) with Baseball Cartridge</b> .....		<b>\$39</b>
<b>Roller Controller with Slither Cartridge</b> .....		<b>\$29</b>
<b>Coleco Replacement Controller</b> .....	2/\$	<b>6</b>
<b>ADAM Daisy Wheel Printer</b> — New Print Head Style ( <i>Please allow 6-8 weeks for delivery</i> ) .....		<b>\$90</b>
<b>ADAM Memory Console</b> —New Rev. 80—Stand Alone Unit .....		<b>\$85</b>
<b>ADAM Memory Console</b> —New Rev. 80—without tape drive .....		<b>\$65</b>
The above memory consoles are stand alone ADAM Memory Consoles. They can be used with the ADAM Expansion Unit #3 to allow the use of a monitor without any rewiring of the unit. Also allows the ColecoVision unit to be removed from the ADAM unit.		
<b>Super Sketch by Personal Peripherals</b> .....		<b>\$32</b>
Provides a totally unique and simple medium for creating super video graphics. As the stylus is moved across the Controller Pad, an image is created on your video monitor or TV. Four push buttons at the top of the pad control color selection and graphic functions of the stylus. Included along with the Controller Pad is a SKETCH MASTER plug in software cartridge that is compatible with the ADAM or ColecoVision.		
<b>ORPHANWARE PARALLEL PRINTER INTERFACE</b> \$55 .....		
Interface comes complete with the hardware and software needed to drive a parallel printer. Included in this package is FASTPATCH a selfbooting quick loading driver software package for the interface. Current software supported by FASTPATCH includes Basic, Smart Letters & Forms, SmartFILER, RecipeFILER, and SmartWRITER. Parallel Printer Interface Cable is also included in this package. Software comes in Disk or Data Pack.		
<b>EVE SS-CC Speech Synthesizer Unit/Clock Calendar</b> (Disk, DP) .....		<b>\$109.95</b>
Now you can give ADAM a 'VOICE.' The EVE speech unit may be used with your programs to add capabilities to your ADAM that are only limited by your imagination. Also on this interface unit is a 'real time' clock calendar circuit so you, and ADAM will now have an access to the time and date as needed. Software included includes a standard phoneme library, and a 'Clock/Alarm program. For use with SmartBasic and CP/M.		
<b>EVE Power Pack to Replace ADAM Printer Supply</b> .....		<b>\$79.95</b>
The EVE PS-1 Power Pack is a replacement unit for the power supply in the standard printer. It allows the use of ADAM without the ADAM printer. It also provides power for the EVE line of interface products.
