Powermate Hard Disk Systems, Kits, and Components

External hard disk systems, kits and components for the ADAM computer. External systems are stackable with Micro Innovations ADAMNET Floppy Disk Drives and include center slot interface card (with boot PROM, printer port, and memory expander interface), 3 foot interface cable and software. Kits are intended for mounting the hard drive inside the ADAM computer and contain left slot interface card, hard disk drive, 1 foot interface cable and software. When sold separately, the left slot interface card comes with 1 foot interface cable and software. Hard disk drives are available separately. Supplied software includes the EOS and TDOS hard disk operating systems and utilities. Public domain software is preloaded on external systems only.

Ordering Information

These close-out sale prices are available only from Micro Innovations via direct sales. Orders can be placed via voice or fax on the same telephone line: (703) 264-3908. We are usually in the office between 6:30 PM to 9:30 PM Monday through Thursday and often on weekends. The Fax machine is up 24 hours a day. Our BBS is no longer operating. However, our BBS files are still available on Michael Hurst's BBS or George Koczwara's BBS.

For payment, we accept company or personal checks (allow 1 week for checks to clear), money orders, and COD. A $3.50 service charge is applied to all international orders for currency processing. Although Micro Innovations does not accept credit cards, some of our dealers do. Adam's House (Terry Fowler), Route 2 Box 2756, Pearland, TX 77581, (713) 482-5040 is now the only dealer that stocks our products, although other dealers can special order them.
