ADAM™

The ColecoVision ® Family Computer System.

PRODUCTS FOR THE ADAM*

from

SAGE ENTERPRISES
Rt. 2, Box 211
Russellville, MO 65074

Thank you for requesting our catalog and/or more information about our products for the ADAM. As one of the oldest support groups for the ADAM, we plan to continue to provide new products that will make your ADAM computer more useful.

We produced the first ADAM only publication, the first copy utility that would back up SmartBASIC and other ADAM software, and the first software that would allow the ADAM to read other CP/M disk formats. We appreciate your continued support.

*Coleco, ADAM, Super Game, SmartFiler, SmartWriter, SmartLOGO, SmartBASIC, Donkey Kong, Donkey Kong Jr., Buck Rogers, Smart Letters and Forms, Dragon's Lair, Recipe Filer, ADAMCalc, and ExperType are all trademarks of Coleco Industries, Inc.
CP/M is a trademark of Digital Research, Inc.
IBM is a trademark of International Business Machines, Inc.
Zenith is a trademark of Zenith Data Systems
TRS-80 is a trademark of Tandy/Radio Shack.

Unreal Software Company and Sage Enterprises are not affiliated with Coleco in any way.

EXPANDABLE

COMPUTER NEWS
AN INDEPENDENT PUBLICATION FOR USERS OF
THE ADAM COMPUTER

EXPANDABLE COMPUTER NEWS (ECN) was the first ADAM only publica-
tion. We carry all of the news about ADAM products, provide in-
depth reviews, ready-to-run programs, articles on machine
language, ADAM's operating system, CP/M, telecommunications,
developments in the home computer market, an up-to-date list of
ADAM users groups, problems and solutions. ECN is published bi-
monthly. A one year (6 issue) subscription is available in the
U.S. and Canada for $15.00 US funds. Foreign rates are $21.00
in US funds. A sample copy of ECN may be obtained for $2.50.

PACKCOPY

PACKCOPY (Copyright Sage Enterprises) allows you to make backup
copies of your ADAM software. Make backup copies of BASIC
(includes autoboot), SmartFiler, ADAMCalc, SuperGames (Even the
Short SuperGames), and almost any other software. PACKCOPY lets
you transfer most data pack software to disk for faster loads.
Will work with only one data drive, but most copying is more
efficient with two drives.

NOTE: PACKCOPY is intended for archival use ONLY. Any other
use may be in violation of copyright law.

U.S. and Canadian price - $31.50 US Funds. Foreign price -
$35.50

CONVERT allows you to copy non-ADAM CP/M disks to ADAM CP/M format, giving you access to data and programs that may not be available in ADAM CP/M format.

CONVERT accesses: Zenith 100 CPM-85 SSDD Format Disks
                     IBM PC CPM-86 SSDD Format Disks
                     TRS80 CPM+ SSDD Format Disks

System Requirements: ADAM with at least one digital data drive and one ADAM disk drive, plus ADAM CP/M 2.2 and SmartBASIC.

CONVERT reads the three disk formats listed above and converts them to the ADAM format. In order for a CP/M program to run on the ADAM, it must be CP/M 80 version 2.2 compatible and must allow for configuration to the ADAM system. CP/M 80 version 2.2 software is available on the three disk formats listed above. To avoid confusion we generally recommend that such software be obtained or the Zenith format. Always make sure that the software you obtain to use on your ADAM is CP/M 80 version 2.2 or it will not run on your ADAM. Some examples of software that have been CONVERTed are Microsoft Basic, Turbo Pascal, ASCOM, and WordStar.

If you are considering buying CONVERT make sure you have a good understanding of the CP/M operating system. If you only have a need to CONVERT a few programs to ADAM format you may want to consider our software conversion service listed elsewhere in this catalog.

U.S. and Canadian price - $36.95 US funds.   Foreign price - $40.95 US funds.

CP/M PUBLIC DOMAIN SOFTWARE FOR THE ADAM

In addition to our other products we carry a growing portion of the CP/M Public Domain library in the ADAM CP/M format. While we have tested much of this software, we cannot guarantee that it is all bug free. However, most of this software has been around for some time and has gone through a number of revisions to eliminate any bugs that have appeared.

All prices are given in U.S. funds. Canadian orders should be in U.S. funds or equivalent. Orders to other foreign countries add $2 for each disk and $3 for each data pack to cover overseas shipping.

Order #	Description	Disk	DDP
CPM 1	ADVENTURE- the original public domain game. Disk recommended.	$5	$7
CPM 2	TINIDISK- a version of Tiny Basic. includes STARTREK.	$5	$7
CPM 3	PILOT- implementation of the PILOT language	$5	$7
CPM 4	POW2-text formatter.	$5	$7
CPM 5	EBASIC- package (5 disks or ddp's) Includes HELP files, EBASIC compilers, source code and OTHELLO game.	$25	$35
CPM 6	EBASIC GAMES- requires CPM5 above	$5	$7
CPM 7	EBASIC GAMES- requires CPM5 above	$5	$7
CPM 8	EBASIC GAMES- requires CPM5 above (2 disks or ddp's)	$10	$14
CPM 9	EBASIC GAMES- requires CPM5 above	$5	$7

| CPM 10 | MADAM7- Modem7 for the ADAM and other utilities. | | $5 | $7 |
| CPM 11 | ASSEMBLERS & DISASSEMBLERS (2 disks or ddp's) | | $10 | $14 |

****

ADAM BASIC PROGRAM LIBRARY

PL 1   Checkbook balancer, mailing list (prints labels), graphics and sound demos, picture drawing, grade calculations, envelope addresser.

PL 2   Screen and text color changer, note player, sprite demo, filing system, games, statistics, grade point average, timer, and graphics demos.

PL 3   Serpent, battleship, joinfour, checkers games; sprite editor, graphics, educational programs, tic tac toe, menu program, and an event scheduler.

PL 4   Dungeons and Dragons game (elaborate), EVIL3 game, football game forcaster and 8 Ball fortune teller. A disk drive is required for D & D game.

PL 1, PL 2, and PL 3 are available on either disk or data pack for $9.95 each to U.S. and Canadian customers. Foreign customers add $2 per disk or $3 per data pack. PL 4 is available for $5.00 on disk and $7.00 on data pack to U.S. and Canadian customers. Foreign customers add $2 per disk or $3 per data pack. Send U.S. funds or Canadian equivalent only.

UNREAL UTILITIES
Copyright 1986 Sage Enterprises
All Rights Reserved

UNREAL UTILITIES is a menu driven set of utilities that will allow you to read and edit directory information for SmartWriter and SmartBasic files, delete and remove entries that will free up wasted directory space, fix corrupted directories, change file names and their characteristics and more; format disks; edit and dump blocks on disk or data pack; compare two copies of media to insure that they are identical; move blocks from one location to another on a disk or data pack; and RECOVER files and programs from a disk or data pack even if it has been INITed in SmartBASIC.

These utilities are especially useful to anyone involved in the development of software for the ADAM.

U.S. and Canadian price - $36.95 US funds. Foreign price - $40.95.

MEDIA CONVERSION SERVICE

Sage Enterprises has the capability to transfer CP/M 80 version 2.2 data and software from almost any 5 1/4" double density disk format to the ADAM and other formats. Although the ADAM can only read certain formats, our other computers can read and transfer a wide range of double density disk formats (except Apple and Commodore 1541 formats). Some of the formats we can read include KayPro, Osborne, IBM, Heath, Zenith, TRS-80, Actrix, Cromemco, Columbia, DEC, Epson, Morrow, NEC, Sanyo, Otrona and more.
The charge for this service is $5.00 for each destination disk. Since the ADAM is single sided a double sided disk for another system may require two single sided disks in order to transfer all programs and/or files. This would result in the production of two single sided ADAM disks and a charge of $10.00. If you have any questions about this service please feel free to call us during business hours.

PUBLIC DOMAIN

FORTH

for

ADAM

The Public Domain version of the FORTH 83 language is now available for the ADAM. This version has been made available to ECN subscibers by Thomas Gilmore who will also be contributing a series of articles on the language. A start-up set is available now and an advanced set, organized to complement the start-up set will be available later.

The start-up set is available on two disks for $7 or two data packs for $10. These may be ordered directly from ECN and are designated CPM public domain volume 12. This set requires that you have ADAM's CP/M 2.2.

Send your order along with a check or money order for the appropriate amount to ECN, Sage Enterprises, Rt. 2, Box 211, Russellville, MO 65074. Be sure to indicate whether you want disk or data pack.
