QUALITY SOFTWARE AT A REASONABLE PRICE

IMMEDIATE DELIVERY

BLANK, PRE-FORMATTED CASSETTES

for the

COLECOVISION ADAM

Besides adventure games, we now have **in stock**, blank, pre-formatted cassette tapes by Victory Software for **ColecoVision's ADAM** computer. The shell of the cassette is specially designed to be compatible with ADAM's unique tape drive, which doesn't accept standard cassettes.

As you know, these blanks have been difficult, if not impossible, to get. An ADAM buyer gets just one with his computer, but after it is filled, unless he can buy additional blank tapes, he just can't store anything more. Now, you can be the first dealer in your area to satisfy this pent-up demand.

The price is right, too, because they are designed to sell at **\$4.50 each** at the **retail** level, but you can buy them in quantity for as little as **\$2.48 each in lots of 96**.

And, of course, our standard 90 day guarantee applies.

Just use the enclosed order form. See other side for details.
