HARDWARE

COMPUTER SYSTEM AND COMPONENTS

ADAM COMPUTER SYSTEM $199.95
- The Stand-Alone ADAM Computer System, latest revision with Colecovision Game built in. Includes Memory Console (CPU) with One Datadrive tape unit, Keyboard, ADAM Daisy Wheel Printer with built-in power supply, complete manual set, all connecting cables and TV adapter switch box (for channel 3 or 4 use), one Hand Controller and one Controller Holder, and software (SmartBASIC and Buck Rogers Supergame tapes, plus one Blank Storage Digital Datapack Tape). 30 day warranty, or extended Service Policies available for a modest fee. Fully tested. Normal continental Shipping and Handling by UPS Ground - $15, $20 to OR & WA. # 266 **BONUS SOFTWARE PACKAGE valued over $80 AVAILABLE FOR $30** at the time of purchase. Includes: RecipeFiler, SmartLetters & Forms, FlashCard Maker, FlashBacks Flashcard Set, and SmartLogo. #BONUS .

ADAM SYSTEM (NO PRINTER)............... $149.95
- Same system as above, except no ADAM Printer is supplied. A Power Supply is substituted since the ADAM Printer contains the power supply. Same Shipping and Handling as above. # 221

SEPARATE ADAM SYSTEM COMPONENTS

ADAM MEMORY CONSOLE..................... $119.95
- R80 CPU with one Datadrive tape unit (space for a second drive) to boot Tape Software and SyperGames, and save or load files on blank Digital Datapack tapes. Play Coleco Game Cartridges (virtually indestructible plastic plug-in software on MicroChips) using Game Controllers (two 9 pin ports available). Separate Game and Computer Reset Switches. Expandable console features three card slots under the top access cover (internal Modem or serial card, Aux Dot Matrix Printer Card, Expansion Memory Cards
from 64K to 256K, and Hard Disk Drive interface Cards), plus external card slot on the right end, and disk drive port on the left end for a single cable connection to add a floppy disk drive (320K to 1.44 Megabyte Capacity). Other connectors: RF (TV) output, Monitor (Video) output, and combination Audio/Video output to a composite input monitor or TV equipped with A/V inputs. Continental U.S.A. shipping is $10 30 day warranty. # 182

ADAM CONSOLE - NO DRIVE................. $79.95
- Same as above # 182, except a Digital Datadrive Tape unit is not supplied when customer has a unit already, or will be using a Floppy Disk or Hard Disk Drive exclusively. Same shipping as above.

ADAM PRINTER................................... $99.95
- Daisy Wheel printer with built-in System Power Supply prints bi-directionally in letter quality PICA 10 font (print wheel may be easily changed for a different font). On/Off switch on rear. Includes one Snap-in Ribbon Cartridge. Latest revision printhead for quieter, more efficient printing. Connects to the ADAM Memory Console (left end) via supplied 9 pin connector and gray cable. 30 day warranty. Continental U.S.A. shipping is $10. # 259

ADAM POWER SUPPLY............................ $49.95
- Covered Power Supply unit for replacement of ADAM Printer has On/Off Indicator Light. Unit runs cooler, and is much smaller (8 X 9 X 3.25 inch) taking up less space than a Dot Matrix Printer. 30 day warranty. Continental U.S.A. shipping is $8. # 121. Power Supply without cover and light for printer power supply replacement is $39.95. # 199. Same shipping. Power Supply Case and Light Kit is $14.95. # 180

ADAM KEYBOARD $24.95
- One of the best feeling (sensitivity) keyboards in existence features six SmartKEYS for Menu Control of many programs from the keyboard. Arrow keys and Home Key position cursor. Many special function keys that correspond with SmartWRITER Word Processor and other program functions. Allows attachment of Controller Holder to place one Hand Controller with numeric keypad at the right end of the keyboard. Operates with its own MicroProcessor chip to allow continued typing even during line-feeds, etc. 30 day warranty. Continental U.S.A. shipping is $7. # 240. Coiled Keyboard Cable is $4.95. # 176. Eight foot keyboard cable is $7.95. # 283

DIGITAL DATADRIVE UNIT $59.95
- New tape drive units for adding a second tape drive or replacement of worn out Digital Datadrive unit. High speed forward and reverse data location, two track read/write head, and fully automatic function. Easy connection - 3 screws and two plug in connectors. Tested prior to shipping. 30 day warranty. Continental U.S.A. shipping is $6. # 115

HAND CONTROLLER $19.95
- High quality new (not rebuilt) Colecovision and ADAM Game Stick Controller has Stick for eight-direction control, two side Fire Buttons, and standard telephone type numeric keypad for game and program input. Six foot coiled cable. 30 day warranty. # 207
12 Foot Extension Cable is $7.95. # 454

CONTROLLER HOLDER............................ $9.95
- Holder for Hand Control attaches to the end of the ADAM Keyboard. # 376

TV ADAPTER SWITCH BOX.................... $9.95
- TV Adapter Switch box allows ADAM use with TV on channel 3 or 4. Switches between TV or Computer. 300 ohm Antenna connector. # 227. RF Cable alone is $3.95. # 342

CABLE TYPE SWITCH BOX.................... $9.95
- For Newer TV Sets with Cable or Co-AX Connector Antenna lead. $406

RF CABLE....................................... $7.95
Ten foot shielded RF cable with RCA connectors on each end. #342

MONITOR/AV CABLE............................ $9.95
- Din Connector cable attaches to rear of stand-alone ADAM Memory Console for both Video and Audio output via RCA connectors.

SMARTBASIC or BUCK ROGERS............$7.95
- Original SmartBasic (#144) or Buck Rogers (#147) Digital Datapack tape. Specify which. 10 Buck Rogers Tapes - $19.95. # 375

DUST COVER SET $19.95
- Perfect fit Dust Covers for the ADAM Memory Console, Keyboard, and Printer. ADAM Logo on brown covers. # 517. Disk Drive cover is $7.95. # 518

ADAM SYSTEM SUPPLIES

RIBBON CARTRIDGE 3 PAK BLUE........$25.00
- Original Coleco Cartridge specifications in New BLUE multi- strike carbon film ribbon. No returns or allowances. # 162BLUE. Each Ribbon - $8.95. # 156 Blue

RIBBON CARTRIDGE 3 PAK BLACK $35.00
- Multi-strike ribbon in black. No returns. #162BLK. Each Ribbon - $11.95. #156BLK.

PICA 10 PRINT WHEEL $5.95
- Replacement daisy wheel for the ADAM Printer. Courier 72 or Emphasis available (specify). #455

10 DIGITAL DATAPACK TAPES................$29.95
- Original Ten high quality LORAN Formatted Digital Datapack Tapes with 256K storage capacity. # 264. Each for $3.50 # 263.

20 FOR $29.95 DATAPACK SPECIAL
- 10 Regular Datapacks, plus 9 Buck Rogers Datapacks, plus 1 SmartBasic Tape. You prepare these tapes for normal use with instructions provided and save $. #402

COLECOVISION GAME SYSTEM

COLECOVISION GAME SYSTEM $99.95
- The Colecovision Game System . Includes black or beige console with one hand controller, power supply, switch box and 10' RF Cable (viewed on a TV set to channel 3 or 4), and all instructions. Expansion port allows Modules listed on the next page to expand the system. 150+ Game Cartridges currently in stock (20 are educational games) plug into the console for two player games with excellent graphics and game play (SEE CARTRIDGE LISTING). As popular as ever. Shipping is $10. 30 day warranty. # 344

EXPANSION

MODULE #1 .... $79.95
- Atari 2600 Cartridge Adapter allows Colecovision or Adam Console play your favorite Atari 2600 cartridges. Plugs into expansion slot. #331 (While Available)

MODULE #2 .... $49.95
- Driving Module is a steering wheel and foot pedal that works with both Colecovision and ADAM systems by plugging into the #1 Game Controller port. Includes Game Cartridge, TURBO, with exciting road racing. Uses your Hand Controller to shift gears. #332

MODULE #3 SYSTEM $149.95
- Expands the Original Colecovision Game System with this plug in module. Includes the Memory Console (a connector on the back plugs directly into the front of the Colecovision Game expansion slot) with one Datadrive Tape unit and all the features, components and accessories of the Stand- Alone System (# 266) except it does not have the ability to connect a monitor (the Colecovison Console only displays the video/ audio on TV channel 3 or 4). See above. 30 day warranty. Continental U.S.A. shipping is $15. # 459

MODULE #3 LESS PRINTER $99.95
- Everything in the Module #3 System except a covered power supply is substituted for the ADAM Printer. Same shipping. # 487

MODULE #3 CONSOLE $89.95
- The Module #3 Memory Console replacement, with one Digital Datadrive tape unit. Continental U.S.A. shipping is $8. 90 day warranty. # 333. Console without Datadrive is $49.95.

SUPERACTION CONTROLLERS $49.95
- Two controllers with all the features of the Standard Hand controller, plus finger controlled buttons and spinner that provides many Game Cartridges additional functions and superior control. Replaces standard controllers on ADAM or Colecovision Game Systems. Includes BaseBall Game Cartridge, one of the finest baseball games ever made. # 320

ROLLER CONTROLLER $44.95
- The roller controller features a roller ball that permits very fast and precise control in many games. Includes Slither Game Cartridge. Permits standard hand controllers to plug into the Roller Controller console and switch to them for use with other games. For ADAM and Colecovision Game Systems. # 321

ATARI 2600 JR $69.95
- Includes Game Console, Hand Controller, Power cube, RF Cable and Switch Box, and instructions. New in the box. Continental U.S.A. shipping is $8. # 335

HAND CONTROLLER #207 .... $19.95
TV SWITCH BOX #227 .... $9.95
GEMINI & ATARI 2600 POWER SUPPLY ----- $9.95

INTELLIVISION I GAME SYSTEM $99.95
- The original Intellivision System in like-new condition. Complete. $10 shipping.

ADAM ONLY EXPANSION HARDWARE

FLOPPY DISK DRIVES

Floppy disk drives may be 5.25" or 3.5" Disk sizes. Connection is easy using only one keyboard type cable plugged into the left end of the ADAM Stand-alone or Module #3 Memory Console (the port is labeled ADAMNET). A power cube supplies power for the drive, and keeps heat from components located inside the drive case. The case actually houses a high quality disk drive AND the controller board -- making a disk drive cost seem higher priced than other computer drives. Our drives are New, and allow much larger capacities than the original Coleco 160K disk drive. Operation is the same as the Datadrive Tape Unit -- insert a disk and boot software, save or load files and documents. The drives operate at least 15 times faster than a Datadrive, however, and disks are much more dependable than datapack tapes which wear out after 50 to 100 uses. Disks will rarely ever give problems if they are cared for properly. A second disk drive can be plugged into the first disk drive for a two disk drive system. No additional ADAM Memory is required. Commercial programs are available on 5.25" disks (as well as datapack tapes), but may be transferred to 3.5" disk using FILE MANAGER software.
320K FLOPPY DISK DRIVE $199.95
- New design, Micro Innovation 5.25" floppy disk drive with formatting software provided so you can purchase disks anywhere and format them for use with the ADAM System. Includes Disk Drive (with controller card built-in), Power Cube, cable, and formatting software. Continental U.S.A. Shipping is $10. 30 day warranty. # 172. Our most popular seller.

720K/1.44MB DISK DRIVE $219.95
- The latest Micro Innovation floppy drive provides read/ write operations on both standard 3.5" low (720K) and high (1.44 Megabyte) density disks. New technology. High capacity disks are great for collections of programs and applications on one disk. A great addition when backing up data on the Hard Disk Drive below. Same shipping and warranty as above. # 539
Installed in ADAM Console $299.95
- Includes 3.5 & Tape Drive. No slot #1 available. 539I

FLOPPY DRIVE ACCESSORIES

POWER CUBE $39.95
- Power source for the Micro Innovation Hard or Floppy Disk Drive. Specify whether for Hard or Floppy MI Drive.

DISK DRIVE CABLE $4.95
- 8 foot flat cable to attach to the ADAM Console. # 283

DUST COVER $7.95
- Brown disk or hard drive cover with ADAM Logo. # 518

FILE MANAGER SOFTWARE $19.95
- Utilities to transfer files from datapack tape or disk to disk, make image back-up copies, clean deleted or inactive files from directory space, print directory contents, edit the directory contents, edit blocks of data, format your own disks, or renew a disk or datapack to new condition. Very necessary to prevent waste of disks and datapacks, perform everyday computer functions. # 272

FORMATTED DISKS

10 - 5.25" FLOPPY DISKS $4.95
- Preformatted floppy disks, sleeves, and labels. # 128
10 - 3.5" FLOPPY DISKS $9.95
- Preformatted 3.5" floppy disks. # 126
10 - 3.5" HD FLOPPY DISKS $9.95
- Preformatted high density floppy disks. # 561

160K DISK DRIVE CONVERSION KIT

- Conversion kit allows the original 160K Coleco Disk Drive to be converted to use our new 320K Disk Drive in the same housing, and using the same Coleco controller board. The kit includes the new modified floppy drive, EPROM microchip, wiring, and instructions to convert the 160K drive. Software is included for formatting your own disks.
This kit can be installed in your 160K Disk Drive by our ADAM'S HOUSE Service Department for a modest $25 fee, $50 in non-working drives. $10 shipping - USA.

320K 5.25" CONVERSION KIT $79.95

TRANSFORMERS

DISK DRIVE TRANSFORMER $19.95
- Coleco Disk Drive Power Supplies are available for 160K or converted drives (in original Coleco Drive Housings). #120

COLECOVISION TRANSFORMER $24.95
- Replace original Colecovison Video Game Power Supply exactly. Simi-circle four prong connector. #339

HARD DISK DRIVE

Hard Disk Drives contain a permanently installed disk that spins at very high speed to save and retrieve data and boot programs. The Adam's House Hard Drive is installed under the top cover of the Memory Console. Hard Drives are very fast using Western Digital 70 Mili-second 3.5" drives and IDE 16 Bit Controller interface boards. The Slot #1 interface card provides Hard Disk Drive interfacing. Our optional Printer Interface card provides an auto-booting PROM Chip socket to set up the Hard Drive after power is applied, or you may quickly boot the hard drive using a tape or disk provided. The Hard Disk Drive is available in a capacities of 20 Megabyte. A wide variety of programs are provided in TDOS System format, and set-up boot files for EOS System Programs like SmartWriter, SmartBASIC, AdamCalc, etc. Space is divided equally on the Hard Disk for use with TDOS (the CP/M alternative system) and EOS (the standard format of the ADAM computer. Programs can be transferred into the Hard Drive using the included utility program, FILE MANAGER V3.1. After the Hard Drive is quickly up to speed and brought on line, a Main Menu Screen appears that allows the user to move into any area of the drive to run programs, boot programs, or simply save and retrieve files and documents. Very little time is needed to become familiar with the operation and use of our new Hard Disk Drive.

INTERNAL HARD DRIVE IN NEW ADAM MEMORY CONSOLE

$249.95

BONUS   INCLUDED WITH EACH HARD DRIVE:
ADAMCALC, SPEEDYWRITE2, & POWERPAINT!

EXPANSION INTERFACE CARDS

MEMORY EXPANSION INTERFACE CARDS

ADAM has a built-in RAM Memory of 64K. Many programs now require additional Expansion Memory, easily accomplished by inserting a 64K RAM Expansion Card into Slot #3 under the Top Access Cover of the ADAM Memory Console. To add larger memory up to 256K requires installation of the desired memory card in slot #3 AND a card that will address the memory above 64K in slot #2. The Slot #2 Card can be our Printer Interface Card (# 119), or the Multi-purpose interface Card - MIB3 (# 468). A connection is made between the two cards to complete the circuit for the extra memory recognition. The larger memory card is also sold with test software for your use in testing the card from time to time. In addition, two versions of the 64K Memory Expansion Card are sold so that purchasers have the options to return the Expandable version for upgrade or exchange to our larger memory versions. All cards are new, and designed with the latest technology for long life. Utility Software, like ADAM'S DESKTOP, can also utilize the larger Expansion Memory as a RAM DISK -- an electronic temporary drive that can save, load, and boot software instantly when it is installed in the RAM DISK. Programs like Adam's Desktop and others can make the ADAM a fast operating machine without addition of anything but an Expansion Memory Card.

64K MEMORY RAM CARD #117............. $29.95
64K EXPANDABLE CARD #543 .... $39.95
256K MEMORY CARD #149...................... $69.95

PRINTER INTERFACE CARD.................... $39.95
- Our Printer Expansion Card allows the use of a Parallel Dot Matrix Printer on the ADAM System. It can co-exist with the ADAM Daisy Wheel Printer, or become the exclusive printer of choice when a Covered Power Supply is substituted for the ADAM Printer. A Dot Matrix Printer can print graphic pictures of high quality, and depending on the type of dot matrix printer it can print in color or numerous letter quality fonts. The Printer Card also features a PROM Socket for the installation of auto-booting software when the system is powered. These PROM Microchips are available to provide fast ADAM set-up for use of a Dot Matrix Printer and/or RAM Disk options. The Printer Card also serves to address memory on larger Memory Cards above 64K, making it a popular addition to the ADAM System. 30 day warranty. # 119 Flat Printer Ribbon Cable is $14.95. Shielded Printer Cable is $24.95 and helps reduce interface on TV channels 3 and 4. ADAM'S DESK TOP EPROM or SMARTWRITER ELITE EPROM at $29.95 each (see descriptions under Software in this catalog).

#119 PRINTER CARD AND #149 256K MEMORY CARD BOTH FOR ONLY $99.95 #119/149

MIB3 INTERFACE CARD............... $74.95
- Our Multi-purpose expansion card allows the same functions of the Printer Interface Card above, plus it provides Two Serial Ports that can be used to attach an External Modem (300 to 9600 Baud), a Terminal (at 19,200 Baud) for display of 80 column text like found in CP/M and TDOS, or other serial devices. The card installs in slot #2 under the ADAM Memory Console top access cover. # 468 Each Serial Cable is $14.95. Specify if you will be use the cable with a modem (serial port #1) or with a terminal (serial port #2). # 469 (Subject to Availability)
DUAL SERIAL CARD $49.95
- This interface card installs in Slot #1 and provides the serial port functions as explained in the Multi-Purpose interface card description above. # 581 (Subject to Availability)
TELECOMMUNICATION

ADAMLINK INTERNAL MODEM $39.95
- 300 Baud internal modem installs in Slot #1 under the Memory Console top access cover to provide telecommunication with other computers and Bulletin Board Systems. New in the box. Includes ADAMLINK I connection software, and new version ADAMLINK II that allows file transfers. # 161
Also available, ADAMLINK III+ is $19.95 and provides error checking, XMODEM file transfers, and more advance features than ADAMLINK II. # 157
MODEM CABLE #453 .... $9.95

MEMORY CONSOLE END EXPANSION INTERFACES

ADDRESSBOOK WITH AUTODIALER ... $39.95
- Interface Card plugs into the right side expansion port of the ADAM Memory Console. Telephone line plugs into the interface so that AddressBook Software can dial numbers directly from your database. AddressBook also will print labels, etc. # 334

DOT MATRIX PRINTERS

PANASONIC KXP1150...................$159.95
- This dependable 9 pin printer has become the best selling printer of all time, and includes advanced built-in functions that ADAM Software can take full advantage of. Autojustification, Enlarged and compressed type, a variety of fonts and pitches, paper parking for quick back out of

KX-P1150

fan-fold paper for insertion of single sheet paper or envelopes, and much more. Just connect to our printer interface or printer supporting interface cards using our printer cable. While most software (SpeedyWRITE 2, PowerPAINT, etc.) contains dot matrix print routines, software patches are provided that allow SmartWRITER, AdamCALC, SmartBASIC, etc., (Programs that existed prior to the ability of a dot matrix printer to be used with the ADAM Computer) to print using a dot matrix printer. Highly recommended. Price is subject to change. Continental U.S.A. shipping is $10. # 166 3 Black ribbon cartridges for all Panasonic Printers - $16.95 # 196. Each - $5.95 # 195. ReInking of Ribbon - Black - $2.50 #475. Color Ribbon (Red, Green, Blue, Brown, Purple, Yellow) - $11.95 # 478. ReInking of Color Ribbon (all colors) - $4.95 #480.

PANASONIC KXP2023....................$209.95
- The same features as above, but allows full Letter Quality text printing with the 24 pin printhead. $10 S/H.
Ribbon, Black $8.95

PANASONIC KXP2130....................$239.95
- Color Capable version , 24 pin printer. Color standard version, KX-P2135....................$289.95
Ribbon, Black .....$9.95 Ribbon, Color $29.95

PANASONIC KXP3123....................$289.95
- 24 pin LQ printing, color capable, 360 dpi, 46K print buffer. $10 S/H. # 298. **Color standard version,** KX-P3124 ....$349.95
Ribbon, Black ..... $8.95 Ribbon, Color $11.95

CITIZEN GSX-220C.......................$224.95
- 24 pin, 7 color printing. 53-80 cps LQ, 167-240 cps draft. 8K buffer. Built in, 50-page cut-sheet feeder. #500.
Ribbon, Black ..... $9.95 Ribbon, Color $25.95

STAR NX1040 ....$149.95
- 9 pin, 7 color printing. 200 cps high speed draft, 38-75 NLQ. 2K buffer. Rear and top paper paths. S/H $10. # 560. **Color Ribbon** $9.95

DOT MATRIX PRINTER PATCHES

Each printer includes **Easy Printer Patch** Software to select SmartWriter and SmartBasic for your Dot Matrix Printer. It is available separately for only $7.95 #130

FAST PATCH is available to allow use of most EOS programs with your Dot Matrix Printer. Use with SmartFiler, SmartLetters, AdamLink, SmartWriter, Recipe Filer, and more #130A...$7.95
ADAMCALC PATCH #129 ....$7.95
- allows Adamcalc printing on your DM Printer
SMARTWRITER HELPER #537...............$12.95
- Enhances SmartWriter, resolves bugs, and patches EOS to allow Dot Matrix printing choice.

SOFTWARE

FOR ADAM ONLY

ADAM MAP: U.S. ATLAS $19.95
- Now you can view or print (on a 9 or 24 pin dot matrix printer in three ways) state maps with detailed road information and close up view. Intended as educational software for students, many frequent travelers have found it very useful. # 585. **Select the State Volume (1-9) at $6.95 each:** Vol #1 - NE, MN, SD, ND, IA. Vol #2 - OR, WA, ID, UT, MD. Vol #3 - CA, NV, UT, AZ, CO. Vol #4 - TX, MO, NM, KS, OK. Vol #5 - AR, LA, TN, AL, MS. Vol #6 - GA, FL., NC, SC, VA. Vol #7 WV, OH, MD, DE, KY. Vol #7 - WV, OH, MD, DE, KY. Vol #8 - AK, VT, ME, NH, MA. Vol #9 - PA, NY, NJ, CT, RI. Vol #10 is self-booting for 5 islands of Hi - $10.00

ADAMCALC $29.95
- Popular and powerful SpreadSheet program will keep your Financial and Inventory Records, Journals, Accounts, Budgets, plus much more. Uses all Math formulas to compute rows and column totals, averages, etc. Sort columns alphabetically and numerically. SmartKEY Menu Labels (I - IV) correspond to the keyboard SmartKEYS and guide you easily in using AdamCALC. A thorough manual provides an introduction to using AdamCALC, along with sample spreadsheets for a Budget, IRA Plan, Balance Sheet, Inventory, Loan, and BreakEven Analysis. SpreadSheets can be printed with the ADAM Printer. Optional patch software allows printing a spreadsheet file, or patching AdamCALC to allow Dot Matrix printing directly from the program. # 129 - $7.95. If you have a 64K Expansion Card installed in slot #3, AdamCALC uses it as a Printer Buffer to continue printing while you continue work on the next spreadsheet you load into memory. A FAVORITE! # 159
AdamCalc Dot Matrix Printer Patch Software #129
.... $7.95

ADAM CONNECTION (IBM) $29.95
- This is an IBM program and disk that works with any IBM compatible with a 360K 5.25" Low Density Disk Drive. You must have a 5.25" Adam Compatible Disk Drive that is either 160K or 320K in size. The ADAM Connection will read the ADAM Disk files. These can be SmartWRITER, SpeedyWrite, or other ASCII EOS document or data files. The data is ready by file name on the ADAM Disk and written to another drive or hard drive on the IBM compatible system. The file can then be used in Word Processors and Desk Top Publishing programs. Files produced by Word Star and other Word Processor programs can also be read and transferred to an ADAM Disk in SmartWriter, SpeedyWrite, or other forms. With the aid of OPEN FILER below, even SmartFILER database files can be transferred to the IBM compatible for import into most DataBase Programs. HIGHLY RECOMMENDED. #314

ADAMLINK III+ $19.95
- Improved version of software for the AdamLink Modem and external Modems to 2400 baud. XMODEM file transfers assures error checking protocol. #157

ADAMLINK V $24.95
- Serial modem/terminal speeds up to 19200 baud, RLE viewer, keyboard macros, file catalog, 7 or 8 bit ASCII file transfers, ability to use any character in filenames and any filetype, ability to use RAM DISK, compatible version for MIB3 and MI Dual Serial Card (specify). #304

ADAM'S DESK TOP $24.95
- A new way to control all the devices and set ADAM up for ultra-fast use. Larger Memory Expansion Cards are initialized and made ready for use (with or without a 64K bank of undisturbed RAM needed by some programs), and then programs are transferred into the Expansion RAM where they can be executed, altered, or created as a function of running the program. Being in an Electronic State, the

speed that programs operate is many times faster. Finish running ADAMCALC, bring up the MENU Screen to change to another program already in memory. Utilities are also provided to perform initial setup. You can also boot programs using the disk or tape drives. And SmartWRITER now includes the option of a Ram Disk and Dot Matrix Printer from the SmartKEY Label Menu. #526

ADAM'S DESK TOP CART $39.95
- The Game Cartridge load version of ADAM'S DESK TOP. Just install the cartridge in the game slot and pull the Game Reset switch. Instantly you see a SmartKEY MENU that guides you in quickly setting up and loading your favorite programs. Anytime you pull the Game Reset, you'll be back to the Menu Screen without changing anything previously loaded into Expanded RAM. Just choose and load a new program or SmartWRITER. #527

ADAM'S DESK TOP EPROM $29.95
- The same program on a Microchip that plugs into our MICRO INNOVATION PRINTER CARD or MIB3 CARD. Anytime you power up or Reset ADAM you instantly get the ADAM DESK TOP Menu Screen. Once stocked with programs, pulling the RESET Switch will not alter the RAM content. #562

ADAM'S TOOLKIT $24.95
- A programmer's tool that allows a file or blocks of a file (up to 32 blocks) to be placed into memory where it can be altered. The program recognizes your memory expander, handy for temporary file placement. Move up to 3K from one location to another. Modify ASCII or Decimal views of Buffer Contents represented in its correct memory location. Print the Buffer screen contents on ADAM or Dot Matrix Printers. Search options. Erase options. Block copy portion of the contents to other media and block locations, or save the entire buffer back to the original drive. A TOOLKIT is included to initialize media and format disks. #563

ADAM'S POST-IT $14.95
- Now you can quickly save a note on Disk or Datapack Tape for later reference using SmartWriter or Post-It. The note can be a reminder, too, when you use a date as the file name. Edit and Print quick notes, and use a memory expander card as an electronic Drive where you can temporarily save and retrieve files. #305

ADAM'S SCREEN SAVER $14.95
- Screen Saver prevents damage to your TV or Monitor screen when something remains on screen for a long period of time -- possibly burning the image permanently onto the screen. It can do this in two ways: by displaying the image in different colors every 5 or 10 seconds, and blanking the screen (turning off the color). Pressing the ESCAPE Key will boot an optional program Cartridge (like Adam's Desk Top , SmartWRITER Elite, or SmartBASIC). Otherwise simply reset ADAM to boot a new program #309

ADDRESS BOOK $39.95
- Includes interface card that installs in the right end expansion slot of the ADAM Console. Connects to telephone line to dial number as entered in a database of name, address, phone, etc. , information. Print labels. #334

APPOINTMENT BOOK $24.95
- If you have a clock chip or chip, this program reads in the date and time. Otherwise, enter the information and create an appointment log, calendar, notes, invoices, and use the word processor for letters. For daily and future use. #554

AUTOBACKUP $14.95
- Copy files from a disk or datapack to the ramdisk, and save contents of your ramdisk back to disk or datapack. First use SmartDSK II or III to set up the ramdisk on your 64K or larger Memory Expansion Card (best suited for 256K cards). SmartDSK III includes utilities to set up a disk of programs. If you have PRBOOT, and a disk of programs that boot from a menu screen when you reset the PrBOOT Media, you can transfer the entire disk to your 256K RamDisk and use all the features of PrBOOT's Menu from your RamDisk. #340

BACKUP + 3.0 .... $19.95
- Primarily a Copy Program capable of using only internal ADAM Memory or a 64K Memory Expander Card, if installed. It will copy single-sided disks and datapack contents in entirety, or by selecting files or blocks to be copied. It will copy non-EOS media (like CP/M and TDOS) and right directory SuperGame Tapes. The best feature is the Status Check option to read each block on your disk or datapack, and display if it is Used, Empty, or Bad. #553

BOLD GLORY CLIPS, ETC $16.95
- Predrawn art (flags, Eagle, starts, etc.) for use with PowerPaint and other art and drawing programs. #547

BORDERSPLUS $12.95
- Additional Borders, Font sets, and small Clip-Art pictures for use with THE PRINT WORKS in making Cards, Signs, Banners, etc., printed on a Dot Matrix Printer. #261

BUSINESS PAK I $19.95
- Keep Address Information, Mailing Lists, and Inventory Records. Program keeps files on disk or datapack, and allows editing to keep records current. Prints on ADAM or Dot Matrix Printer. #110

CHROMANTICS CLIPS, ETC $16.95
- Predrawn art for use with PowerPaint and other art and drawing programs. Instructions on how to create Chrome-Look Labels. #548

CLIP ART VIEWER $29.95
- Allows you to view (in entirety or by selection) and print clip-art on your media (all or individually). Transfer IBM PrintMaster and Print Shop Clip-Art for use with ADAM. Sets up a RamDisk for temporary use where Clips can be modified. #494

CLIPPER $14.95
- Create Clip-Art Pictures yourself, save them for use. Capture clip-art from other pictures. Edit, Draw, Add Text. #108

COLECO GRAPHICS DESIGN CART $24.95
- The original program used by Coleco Programmers to create the artwork in Cartridge and Super Games. Capable of capturing full screen pictures from other games and programs. Edit, draw, and much more. #474

COPYCART+ 2.0 .... $19.95
- Cartridge Copy Program that will save a copy of most cartridge games on any size disk or datapack for your own personal use. You must own a Game Cartridge to legally make and save a copy of it, but having all 142 Game Cartridges on TWO 1.44 Megabyte Disks takes a lot less space. A menu allows you to choose a game using the hand controller. Only 7 or so games cannot be copied and played! #308

DBASE 2.41 .... $29.95
- Database filing system configured for ADAM CP/M 2.2 with SmartKEY Menu Labels. Requires scrolling or screen wrap unless user installs 80 column display device. #317

DECIMAL DISASSEMBLER $19.95
- In computers, programs can be disassembled -- broken down into machine code and commands, or data that can be text -- and understood. This program will reveal how a program works by reading it directly from ADAM's Memory or from a disk or datapack in one of ADAM's devices. It can be viewed on screen or printed on ADAM or Dot Matrix Printers on single or fanfold paper. #355

EASY COME, EASY GO $19.95
- Amortization, Loan Payment and Totals, Savings and Loan Calculations. The best all around Financial Calculation and Compare program in fast Machine Language. #525

EOS PROGRAMMING KIT $29.95
- Opens up a completely new outlook on the ADAM's EOS (Elementary Operating System - a collection of command routines that make ADAM operate). With this "kit" you receive a SmartKEY Menu (Labels on the bottom of the screen) to control functions like Devices, Errors, Sound, Text Entry, Screen fill and Clear, File Card Catalogs, Line and Box Plotter, and more. This makes program

development much easier with these provided routines added to the EOS System. The manual reveals how to write routines with quite a lot of information provided. While it does not teach programming, it is the best assist programmers could ever hope for. #323

FILE MANAGER V3.0.................$19.95
- Every computer needs Utility Programs that assist in using the computer and software. File Manager will make copies of Commercial and Personal Software and Files. Quickly make a copy, and put your original copy aside in a safe place. Copy individual files or block ranges. Read or Print SmartWRITER and SpeedyWrite Files on ADAM or Dot Matrix Printers (set margins, size font, type paper, etc.). Edit files and resave to media. Edit directories and filenames. Format Disks — two at a time if you have two disk drives. Tests format on Datapacks. Initialize directories with up to 8 blocks (256 file names), for 5.25" single-sided (160K), double-sided (320K), and 3.5 inch (720K) disks. If you have a Memory Expansion Card of any size, File Manager will use all or a portion for a copy buffer. Very Necessary. Fast. The Best! #272

FILE PRINTER $19.95
- File Printer uses the Escape Codes of a Dot Matrix Printer to activate and change fonts, pitch, and special features built into it. Type your document using SmartWRITER, but include simple codes that do not print, yet the File Printer Program recognizes them to send the commands to the printer. Save the document as usual, but boot File Printer to print in auto justified letter or newsletter column format. Choose printer functions and run other software to print with a specific font. A special Citizen 200GX Color version File Printer is available by choice to print color letters and address labels (each line can be a different color). #101

FLASHCARD MAKER $14.95
- An original Coleco Program that allows you to use FlashCard Sets (available below) to educate yourself or children on different subjects. Keep track of correct answers and scores. Shuffle and retry in a different way, or load a different "deck of cards." Make your own flashcard sets, simply, and save on a blank Digital Datapack Tape. Manual. #293

FLASHFACTS: HISTORY...................$ 6.95
- Twenty two Flashcard Decks that cover American History from 1490 through 1984. #294

FLASHFACTS: TRIVIA ....$ 6.95
- 23 Flashcard Decks include Kid Literature (2), Geography (2), Sports (2), Olympics (2), ShowBiz (2), Beasties (3), Bible (2), Big Ideas (2), Yesterday (3), Rock-On (2), and Music. #296

FLASHFACTS: VOCABULARY ....$ 6.95
- 25 Flash Card Decks cover places that originate words, Meanings of First Names, Foreign terms, Overseas words frequently used, Toughies, Everyday expressions, Scrambled (match mixed up word and definitions), Roots (2), Echoes (7) - Homonyms, HeadStart, Pick-It, Synonyms (4), and Opposites. Multiple-choice questions and Usage in sentences. #295

FONTPOWER...........................$14.95
- Easy to use program that lets you create your own Font Set. Includes eight sets of popular fonts, too. Use the fonts in PowerPAINT to provide variety and originality.#106

FONTASY VOL 1 OR 2 Each.................$16.95
- New Fonts for use with PowerPAINT. Each volume contains many font sets, sprites, and symbols not seen before. Vol #1 - #588 Vol #2 - #589.

FORMATTER $14.95
- Format one or two disks (if you have two disk drives) and verify both read and write characteristics (writes and reads back data at the same time). All size drives and disks (except 1.44 MB). #278

GoDOS WITH GoBASIC $24.95
- A Macintosh-looing program that runs Basic Programs you create or load from our public domain program library (Volume 36). Pull down Menus and Dialog Boxes in full color that operate with the arrow keys to position a pointer on the screen. Text and Graphics intermix onscreen to create some exciting visual effects (e.g., bouncing, rotating

soccer ball). Full featured with routines that make programming much easier. Fully documented. #168

GUY'S EOS UTILITIES...................$19.95
- Three Utilities that are absolutely necessary when you can no longer Access a Tape or Disk. Disk Doctor helps you recreate a directory and transfer all the documents and data files to a new media. File Indexer is handy for reading, sorting, and printing EOS directories. Directory Sorter is similar in respects to File Manager (above) and has the ability to Sort files alphabetically to improve visual access. It can format disks and Initialize Directories, and it can exclude deleted and backup files. HIGHLY RECOMMENDED. #575

IBM CLIP-ART FOR ADAM $14.95
- Includes Converter Program and first volume (of over 30 volumes in our ADAM PROGRAM LIBRARY) of clip-art files. View and print clip-art, alter and resave it in various forms for use in PowerPaint and other Printing programs. High Quality IBM Clip- Art is not cropped or distorted. Can be inversed or color changed. #546

INTEL-LOAD 1 OR 2......................$14.95
- Load SmartBASIC v1.0 or v2.0 first, then load Intel-Load into memory. Load programs as usual, but execute Intel-Load to transfer and resave the program in a fast-run format called Binary. The next time you want to use a program you have saved in Binary, BRUN the program and it will load up to 15 times faster. (For use in SmartBASIC v2.0 in Standard Memory Only).#324

INVOICER V3.2 ....$19.95
- A full function Invoicing and Inventory Tracking program that will also keep a Customer Database of names, address, and Telephone Number information for recall during Invoicing, etc. Up to 490 Inventory Items can be held for immediate recall of name and pricing information, and immediate alteration of the quantity in stock. Prints an inventory listing (alphabetically or by Item Number). Keeps a record of each transaction for printout at the end of the month. Allows input of Company information, tax information, shipping minimum and/or percentages, plus other optional charges, fees or discounts. The inventory data can be entered or altered during the invoicing process. Inventory is resaved to media after invoicing or alteration, addition, etc. ADAM'S HOUSE's own full function program. Requires at least a 64K Memory Card installed. #242

LIBRARIAN..............................$14.95
- Organize your many SmartBasic, Adamcalc, etc. EOS files and programs into a database that can be read by SmartFILER. Print an alphabetical list of names and location (media Volume Names) for easy locating. Simple to use. Just put the media in the drive and it reads your catalog directories and stores the information in your database medium. #111

MBASIC $29.95
- Microsoft Basic for use in running many games and programs in our CP/M 2.2 public domain program library. #325

MACADAM MANUAL.......................$19.95
- Complete details of this popular Macro Assembler, including the Assembler program and demo programs. New assembly language programmers will find Subroutines and programs for methods of using the commonly available hardware associated with the ADAM computer's EOS system and SmartBASIC. #460

MEDIA-AID-PLUS 1 OR 2.................$14.95
- Utilities for most of the tasks encountered when using the ADAM Computer. Included are programs to Initiate a disk, tape, or ram disk; a patch program for SmartBASIC; a program to allow modification of directories; a copy program; a program to modify or view data; a purge program that removes deleted files; a format and verify program; and programs to convert files for sending over a modem. #326

MEDIA-HELPER $19.95
- Utilities not available anywhere else. Includes programs to Search or Compare a media or two media; sort an EOS Directory; Clean a media of all data; list the variables

used in SmartBASIC programs and where located; copy program; and to provide copied cartridge listings and editing. #542

MEGADISK...............................$19.95
- Creates a Ram Disk in your Memory Expansion Card. Allows 64K to be reserved for programs using expansion memory. Up to one megabyte memory expanders supported. Use XRAM PAK to easily transfer programs into and out of Ram Disk and provide Menu booting of bootable programs. #103

MISSPELLER............................$12.95
- Use with SpellingAid below to provide an additional 15,000 word dictionary for the most commonly misspelled words. #206

M & M GRAPHICS for Signshop $12.95
- Grahpic pictures predrawn for use with SignShop or NewsMaker that print on the ADAM printer. #512 Two Additional Graphics Volumes are Available for $12.95 each. Specify #512A or #512B.

NEWSMAKER.............................$29.95
- Create your own newsletter with graphic pictures that print using Character Generated graphics on the ADAM printer. #112

OPENFILER V3 ....$19.95
- Automatic conversion of SmartFILER or RecipeFILER databases to a file that can be accessed by SmartWRITER or other Word Processors, SmartBASIC, or CP/M program databases like DBASE. Can also then be transferred to an IBM Computer using the ADAM CONNECTION program above, too, for use in database programs. #280

PAINTAIDE..............................$12.95
- Additional fonts, sprite sets, and clip art pictures for use with POWERPAINT below. #187

PERSONAL CALENDAR UTIL...............$19.95
- Print professional calendars using a dot matrix printer. Stamp clip art pictures and add text. 64K Ram Card is required, but larger memory cards allow program transfer into memory for instant access and function. #481

POWER PAINT...........................$29.95
- Professional art program that allows you to create and draw artwork for printing on a dot matrix printer. Requires a 64K Memory Expansion Card. Larger Ram Cards allow a full page to be created and printed at one time, and provide a Ram Disk. Import Sprite sets, Clip Art, Font Sets. Copy or Move portions of a picture. Change colors, paint brushes, borders, etc. Powerful, but SmartKEY Menu Labels make easy use. Thousand of pictures, clips, fonts and sprites are available in our Public Domain library, plus many professional Commercial Artwork Titles. Highly recommended. #105

POWERSIGNS...........................$10.00
- High resolution Banner printing program for Dot Matrix Printers. Comes with System Set 1 fonts, a Roman type. System set 2 (Outline) and set 3 (Filled) are available as options for $6 each set. #701

POWERTOOLS CLIPS,ETC.................$16.95
- Professional artwork. 17 Sprite Sets, 55 Clip Art pictures, and more. #322

PRBOOT................................$14.95
- A program that allows you to transfer your popular bootable ADAM programs onto one medium. Once set up, insert PrBOOT in your drive and get a Menu instantly. Then choose SmartBASIC V1 or V2, AdamCALC, SmartFILER, AdamLINK, or SmartLOGO. If you have a large memory card, ADAM'S DESK TOP or SmartDSK III will allow you to transfer the PrBOOT Medium to your card and Ram Disk for instant program boots, too. #217

RAMBOOT...............................$24.95
- Creates a Ram Disk on your Memory Expansion Card where you can transfer AdamCALC, and SmartBASIC V1 and V2. Then press to keyboard keys to bring up a menu that allows instant transfer to these programs or SmartWRITER. #256

RECIPE FILER $14.95
- An enhancement to the built in word processor. Each recipe can include a list of ingredients that can be included, alter own favorite recipes, etc. Choose from other recipe collections. Recipes are grouped together for easy selection, or you can choose according to specific ingredients. #215

SECRETARY $12.95
- Word Processor that operates with CP/M 2.2 or TDOS. Simple change entry and address information and print on your ADAM printer. Add your own favorite recipes, too. Create own 80 column display device or use screen wrap to see full text screen scrolling left and right manually. #189

SHOWOFF II $14.95
- Design and print signs and pictures using your ADAM Printer. Character generated graphics are included. Many pictures are also available (see above). #151

SIGNSHOP $39.95
- The original SmartBASIC included with the ADAM Computer System on Digital Datapack. SmartBASIC is necessary to run programs included on numerous volumes in our Public Domain library (see ADAM PROGRAM LIBRARY volumes 1,3-12). Create your own programs. #144

SMARTBASIC VI $7.99
- Computer System on Digital Datapack.

SMARTBASIC MANUAL $14.95
- A comprehensive manual and reference book that was used with both 9 and 24 Pin Dot Matrix printers or the ADAM Printer. Key features explained with SmartBASIC VI.

SMARTDISK I FOR SMARTWRITER $14.95
- Install this MicroChip in the socket on our MI Printer Card and the SmartWRITER ELITE program will load automatically when power is applied to your ADAM computer. #564

SMARTBASIC CARTRIDGE $29.95
- Popular SmartBasic VI (improved) that boots instantly. When the Game Reset Switch is pulled. Two versions are available; the Disk Drive version boots a HELLO program on your Disk Drive #1, and the DataDrive version boots when ordering. #143

SMARTDISK II $29.95
- Replaces the Second Tape Drive with a Ram Disk function.

SMARTDISK III $24.95
- Provides SmartDisk with the option to reserve 64K for other program usage in an Memory Expansion Card. Includes utilities like Media-Aid Plus to copy programs.

SMARTFILER $29.95
- A full-featured Word Processor that allows printing on your Dot Matrix Printer. Select Clip Art that can be enlarged, and fonts which can be inserted or deleted. #676

SMARTLETTERS/FORMS $14.95
- Our most popular Colcco Databest program is useful for access and printing up to 1000 records that can be a home or Address database.

MANUALS

ADAM MANUAL SET $24.95
- The original New Manual Set including the SmartWriter Word Processor Tutorial/Reference Manual, SmartBasic Programming Tutorial/Reference Manual, Set-up Manual, Technical Manual, Easy Reference Guides, System Check-Out Guide and supplements, plus the Buck Rogers SuperGame instruction Manual. #238

ADAM CHECK-OUT $5.00
- Included with the ADAM MANUAL SET.

ADAM OPERATING TIPS $5.00
- Included with the ADAM MANUAL SET.

ADAM SET-UP MANUAL $5.00
- Included with the ADAM MANUAL SET.

ADAM TROUBLESHOOTING $5.00
- Instructions covering various problems for the ADAM Computer System.

ADAM PROGRAMMING GUIDE $17.95
- A complete reference guide containing program lists and media (specify disk or tape), SmartBasic information, ADAM Memory location information, Machine Language Information, conversion charts, and glossary of terms. 139 pages. #291

ADAM'S UTILITY TREASURE CHEST $12.95
- A collection of original SmartBasic and machine language program lists with detailed documentation covering specific utilities needed when using many primary EOS programs. Many programs for use with a Dot Matrix Printer. Some of the programs included: Address Filing System, AdamCALC file printing on a Dot matrix Printer, SmartWriter Document printing on a Dot Matrix printer, and programs to remove deleted files from directories, read and interpret directories, copy media, compare media, and a range of "tools" to help in using the ADAM Computer. Includes media (specify disk or tape) with programs ready to use. 45 pages#312.

ARTWORK REVIEW MANUAL $9.95
- A printed copy of artwork contained in our ADAM PROGRAM LIBRARY Volumes 33,34, and 35. 50 pages. #351

BASIC PROGRAMMING TUTORIAL $14.95
- Learn how to program using SmartBASIC step-by-step from the beginning. Contains valuable information not contained elsewhere, and a media (specify disk or tape) that contains programs ready to use. 64 pages. #350

COLECOVISION GAME $5.00
- Set-up and troubleshooting manual for the Colecovision Video Arcade Game.

DISK DRIVE MANUAL $7.95
- ADAM Disk Drive Manual for set-up and instructions on using the ADAM DISK DRIVES.

E.O.S. PROGRAMMER'S GUIDE $14.95
- An advanced look at the Elementary Operating System - EOS used by ADAM's major programs like SmartWriter, SmartBasic, AdamCalc, SmartFiler, SmartLogo, Address Book, FlashCards, Expertype, and more. Explains in detail how the many program routines work together to produce the desired results. 113 pages. #352

EXPANSION MODULE #1 .... $5.00
- Instructions for the Atari 2600 Adapter Module.

EXPANSION MODULE #2 .... $5.00
- Instructions for the Driving Module.

GEMINI GAME $5.00
- Instructions for the Gemini (Atari 2600 compatible) Game System.

HACKERS'S GUIDE VOL 1 .... $12.95
- A beginning look at the ADAM Memory and EOS routines to explain how ADAM controls the many devices using machine language routines. System overview. Z80 language. Disassembler. Expansion connectors. Program lists show how to write simple programs with machine language routines. Lots of reference information, and more. 60 pages. #132

HACKER'S GUIDE VOL 2 .... $14.95
- A continuation of information providing a description of every subroutine in SmartBASIC, and an overview of how SmartBasic works. Programs to modify SmartBasic to create commands for Sound Control, Sprite Control, Macros, fixes and more. Schematics. Glossary of computer terms. 110 pages. #133

HACKER'S HELPER INTRODUCTORY . $12.95
- From Basics to Basic. what every serious computer user needs to know. Explains the elements of the basic makeup of a computer, and how they function. A precursor of the volumes listed below. 74 pages. #197

HACKER'S HELPER VOLUME1 .... $24.95
- LEARNING TO READ! A Z80 machine language instructional at a level broad enough for high school students, but also providing interest for the more educated. Study subroutines disassembled to gain insight into the instructions. A base for information presented in volume 2. 180 pages. #131

HACKER'S HELPER VOLUME 2 .... $24.95
- LEARNING TO WRITE! A Z80 machine language instructional that uses the information previously presented to write and/or combine routines that command ADAM and its devices. 115 pages. #501

HACKER'S HELPER VOLUME 3 .... $24.95
- LEARNING TO DRAW! An instructional book on the Texas Instrument Video Display Processor chip as used in the ADAM Computer. Teaches how to address the video screen via the Z80 microprocessor in all of the four standard modes of the ADAM VDP. 165 pages. #150

MACADAM ASSEMBLER MANUAL $19.95
- Complete details of this popular Macro Assembler, including the Assembler program and demo programs. New assembly language programmers will find subroutines and programs for methods of using the commonly available hardware associated with the ADAM computer's EOS system and SmartBASIC. #460

ROLLER CONTROLLER $5.00
- Instruction manual for the Roller Controller.

SMARTBASIC MANUAL $14.95
- A comprehensive tutorial and reference book that is included with the ADAM Computer System Manual Set. Teaches Basic Programming. #329

SMARTWRITER MANUAL $12.95
- Tutorial and reference manual included with the ADAM Computer Manual set. Teaches users how to use the built-in SmartWriter Word Processor. #

SOFTWARE REVIEW MANUAL $9.95
- Over 80 extensive review on software primarily, with games and hardware, too, from 1984 through 1990. Helpful in deciding which software is the more desirable for your needs. 135 pages. #461

SUPERACTION CONTROLLERS $5.00
- Instructions for the Superaction Controller set.

and Overlays

INSTRUCTION BOOKLETS $3.00
- All cartridge game instruction booklets except Football, and Wiz Math (each $5.00).

OVERLAYS $2.00
- Each set of mylar overlays for the game controller.

SOFTWARE MODIFICATION INSTRUCTION SHEETS

EACH INSTRUCTION SHEET $3.00
- allows datapack tape games to work correctly from disk when copied and modified using these instructions.

2010 TEXT ADVENTURE MODIFICATION
BUCK ROGERS MODIFICATION
DONKEY KONG MODIFICATION
DONKEY KONG JR MODIFICATION
DRAGON'S LAIR MODIFICATION
RECIPE FILER MODIFICATION
SMARTLETTERS & FORMS MODIFICATION
ZAXXON SUPERGAME MODIFICATION

GAME CARTRIDGES

ADAM'S HOUSE STOCKS EVERY GAME CARTRIDGE PRODUCED FOR THE ADAM & COLECOVISION GAME SYSTEMS AT THE BEST POSSIBLE PRICES, MATCHING ANY OTHER AVAILABLE CARTRIDGE ADVERTISED PRICES. INSTRUCTIONS INCLUDED. PRICES MAY CHANGE!

<u>150 GAME/PROGRAM CARTRIDGES:</u>

ADAM & COLECOVISION REPAIRS

ADAM'S HOUSE provides nationwide sales and service from our one location only. However, our rates are very inexpensive in comparison to other computers and game systems:

COLECOVISION GAME REPAIR - $39.95 + $10 Return Shipping

ADAM COMPONENT REPAIR - $50.00 + $10 Return Shipping

OR, ENTIRE SYSTEM REPAIR - $75.00 + $15 Return Shipping (1 box only, or add $additional $5 = $20 ; Oregon and Washington add $5.00)

HOW TO OBTAIN REPAIR

1. Package your Colecovision Game or ADAM Component(s) and include in the box a sheet of paper with your Money Order Check or Visa/MC Number and authorized by the issuing bank. Personal checks require 3-4 weeks of processing time.

Your Name and Return Address, Your Area Code and Phone Number.

A brief description of the problem.

2. Ship the package to:

ADAM'S HOUSE
1829 COUNTY ROAD #130
PEARLAND, TX 77581-9503

3. Repairs will be completed and shipped out within 24 hours or Money Order Check or Visa/MC Number is used and and authorized by the issuing bank. Personal checks require 3-4 weeks of processing time.

HOW TO DETERMINE A DEFECTIVE COMPONENT

The COLECOVISION CONSOLE (black unit) generally is the cause of most problems encountered (black screen, scrambled or illegible letters, no control movement, game beginning without any sort of skill level, Cartridges will not plug into or make good contact when inserted, intermittent operation, etc.). The Power Transformer ($24.95) may also fail, but this is a rarer condition. Customers may also replace Hand Controllers separately for only $19.95 each controller (not $39.95). When the Colecovision Console is received, a new circuit board will be installed (available separately to the customer for $49.95. A 30 day warranty is provided to cover parts only.

TROUBLESHOOTING THE ADAM SYSTEM

Since it costs less to ship individual components than an entire ADAM SYSTEM for repair, it is usually possible to determine the problem component. (The ADAM MEMORY CONSOLE, ADAM PRINTER, OR ADAM KEYBOARD). Below are some symptoms that generally help you determine whether to ship the Console or the Printer (the Keyboard is completely replaced for $19.95, plus $6 shipping):

ADAM PRINTER

The ADAM Printer performs a self-test and sends a signal to the CPU saying it is ready. This self-test consists of the following:

The Print Head Assembly slides to the left (margin setting zero) and stops, the print wheel spins (locating the starting position), the line feed advances the paper a space (turns is ON when you turn the Power Switch ON at the rear of the Printer). The platen one notch), and the print head positions to margin setting 10.

THE POWER SUPPLY

The ADAM Printer has not had Periodic Maintenance in several years and lubrication and adjustment should be performed.

The Print Head moves to the right when power is applied.

The Print Head moves to the right when power is applied.

The Print Head does not move freely or the strings that move the print head have broken or otherwise come free from the print head assembly.

Other common problems requiring shipment for repair:

The paper multi-line feeds when the printer is turned on.

#1. If the Printer types, but words and letters are scrambled, the printer must be shipped for repair.

#2. If the Printer prints, but the type fades out (even with a new Ribbon Cartridge), the Ribbon Advance may not be working to move the multi-strike ribbon, therefore making it fade after a few strikes. You can note the advance of the ribbon by watching to make sure the multi-strike ribbon cartridge. You may also remove the Cartridge and watch the spine gear for rotation during printing. If it can be opened, has not jammed (it can be opened). The Cartridge does not work, the ribbon advance does not work, the ribbon must be shipped for repair.

#3. If the Print Head moves, but the solenoid does not strike the advancing ribbon, the printer must be shipped for repair.

#4. If the Printer types, but words and letters are scrambled, the printer must be shipped for repair.

The ADAM FAMILY COMPUTER SYSTEM

The ADAM FAMILY COMPUTER SYSTEM was originally sold as an expansion of the Colecovision Game - The MODULE #3 SYSTEM (Module #3 plugs into the front of the Colecovision Console, and Module #3 is written on the beige console. The Module #3 System consists of the Module #3 console, ADAM Printer, and ADAM keyboard. When the Module #3 is used, the power is furnished by the Colecovision Game Console.

The STAND-ALONE ADAM FAMILY COMPUTER SYSTEM integrated the Colecovision Game and Module #3 Console into one MEMORY CONSOLE where game cartridges as well as Electronic Typewriter is printed. At this time you should be able to press a key on the keyboard and get a corresponding response from the screen and on the paper inserted in the printer.

#1. IF THE SELF-TEST does NOT complete and a ready signal to the CPU on the front of the Memory Console, the Printer has a problem in the circuitry and must be shipped to ADAM'S HOUSE for repair.

#2. If the Printer prints, but the type fades out...

THE ADAM MEMORY CONSOLE

The Memory Console contains the heart of the ADAM System. It provides the Video output to a TV or Composite Input Monitor. (Stand-alone models only) and Audio/Video Inputs on newer TV Sets. It contains the CPU which controls the devices (Keyboard, Printer, Tape Drive(s) and optional Disk or Hard Disk Drives, Memory Card and other interface card expansion via the many slots and ports available. It also has ROM Memory chips which instantly load the SmartWRITER Word Processor when power is applied. The internal memory of ADAM is 64K, with an additional 16K Video Buffer. Programs load from special high-speed DATAPACK using the built in tape drive. Files may be save and loaded from the BLANK DIGITAL DATAPACK sold by ADAM'S HOUSE using the SmartWRITER Word Processor or other programs (like SmartBASIC, AdamCALC, SmartFILER, etc.

THE DIGITAL DATADRIVE

IF A PROGRAM TAPE (like SmartBASIC) will NOT load when placed in the tape drive and the RESET Switch pulled, the tape may be bad. If ALL Blank or program tapes will not work properly (see your manuals for proper operation), the TAPE DRIVE itself may be defective and can be purchased directly from ADAM'S HOUSE. Some conditions found in bad tape drives:

#1. The drive runs at very high speed back and forth, usually back-lashing the tape inside the cartridge.

#2. The drive hunts back and forth looking for special coding on the tape, but is too weak to read the tape (assuming some of your tapes are good - they DO wear out and become weaker with age and use).

DISK DRIVE REPAIRS

ADAM'S HOUSE repairs original Coleco 160K Disk Drives, and converted Coleco Drives containing 320K or 720K drive mechanisms. Other than the normal problems with read/write of a new formatted disk, the drive can also develop the following problems:

#1. A short circuit which will make you lose power on a disk drive, do not substitute another power transformer or it, too, may be rendered useless.

#2. The Disk is not recognized when inserted. A sensor malfunction or cir-

---

COLECO SERVICE HELP

the power section may be defective and the printer should be shipped to ADAM'S HOUSE for repair.

If the screen provides a picture, but the keyboard power light does not glow, the keyboard, or keyboard cable, or plug on the front of the ADAM MEMORY CONSOLE may be defective. You may plug the cable into the port, "ADAMNET", on the left end of the Memory Console next to where the Printer cable is plugged to see if the power light glows.

Any irregularity in this set-up is reason for shipment to be repaired.

At this time the CPU receives the ready signal and completes the loading of the ROM SmartWRITER Word Processor Program (you see the reset of the black platen bar on the screen glow, or plug on the front of the ADAM MEMORY CONSOLE may be defective. At this time you should be able to press a key on the keyboard and get a corresponding response from the screen and on the paper inserted in the printer.

#3. The rubber capstan roller that contacts the tape (pulling it in the proper direction) has become gummy.

#4. The drive runs to one end of the tape and stops.

#5. The drive has difficulty reading the Memory Console that controls the Tape Drive(s) may become defective and require the Shipment of the Console (only the first Disk Drive is recognized at all, or the drive will forget and turn the Disk Drive ON after powering up ADAM, pull the RESET Switch to let the System know you have a Disk Drive available.

On rarer occasion, the circuitry inside the Memory Console, the Tape Drive(s) may become defective and require the Shipment of the Console (only the first Disk Drive is recognized at all, or the drive will not be recognized for repair. The drive may not be recognized at all, or the drive will forget and turn the Disk Drive ON and move the tape.

The Power Supply supplies the power for the DataDrive Tape Unit and can be at fault on even rarer occasions. The Memory Console may have two tape drives and a second drive help determine problems of isolating bad tapes. Sometimes a tape will be accessible in one drive, but not the other (indicating a weaker tape, or need of replacement).

VIDEO PROBLEMS

The most classic Video Problem is called "Scrambled Video", where the picture is mixed into the lettering in words is garbled, etc. The Top Video/Game Board is most often the problem and the Memory Console must be shipped to ADAM'S HOUSE for replacement of the board with a new one.

SHORT CIRCUIT

Another common problem is called a "Short Circuit" where the screen becomes black and the audio contains a harmonic musical tone. The Top Video/Game Logic Board is most often the cause and the Memory Console must be shipped to ADAM'S HOUSE for replacement of the board with a new one.

REPLACEMENT PARTS

ADAM'S HOUSE purchased Coleco's stock of new replacement parts that previously were stocked in Honeywell Service Centers nationwide. We are the only source for these replacement parts.

FROM ADAM'S HOUSE

cuit board problem inside the drive case can cause this condition.

#3. The unformatted disk cannot be formatted.

The normal procedure for using a disk drive is to turn on the power (the power light and drive light will both come ON), and then turn on the ADAM System Power at the back of the System when the Word Processor is used to GET or STORE a file by the System. When the Word Processor is used to GET or STORE a file, Coleco not creating the software to recognize a second disk drive). If you have a Disk Drive available.

LAST WORD

Troubleshooting any game system or computer is very nearly impossible with 100% accuracy over the phone or using a help sheet like this. We DO hope that this helps you, however, in recognizing a problem and sending it in the correct component for repair. Sometimes it is easier and better for just send the entire System for proper troubleshooting and repair, while we have it at ADAM'S HOUSE, other components will be attended to even if they do not have actual defects. The Printer will receive a PM (Periodic Maintenance) - adjustment and lubrication. The Datadrive will be tested for proper speed and adjusted and cleaned (we do not overhaul Datadrives or include them in our flat repair fee charge that covers circuitry repair and replacement of components discolored with age or do not provide cosmetic correction of components discolored with age or direct known software and hardware "bugs" or irregularities common to the ADAM System (such as paper slipping on the platen - a rubber band or two can pull the paper back tighter against the platen and hold the paper in place, or two pieces of paper will grip the platen better). Our ADAM INFORMATION KIT contains many helpful tips in using ADAM Software and Hardware that correct many deficiencies known to us over the years of enjoyment it provides to its owners when proper maintenance and use are given. We at ADAM'S HOUSE are glad to be of help!

Both high quality systems that will provide years of enjoyment to its owners when proper maintenance and use is given. The COLECOVISION GAME and the ADAM COMPUTER SYSTEMS are HOUSE are glad to be of help!
