STRATEGIC SOFTWARE

SignSHOP (DP) \$22 SignSHOP will allow you to custom design and print signs, notices, fliers, posters, announcements, invitations, greeting cards, letterheads, and oversized banners. SignSHOP offers variable positioning commands, two type styles, seven different banner sizes and two print qualities. SignSHOP allows you to integrate pictures with anything that you design. Ten pre-formatted pictures are included with SignSHOP. These consist of religious, holiday and general symbols as well as others for many different occasions. Or if you would like you may design your own with the SignSHOP's powerful picture editor. Due to a complex program routine designed by Strategic Software, SignSHOP PRODUCES STUNNING NEAR DOT MATRIX RESOLUTION ON YOUR STANDARD ADAM PRINTER.

DataCALC (DP) \$22 With DataCALC, you can keep track of names, addresses, phone numbers, expenses, inventories, and investments. DataCALC gives you the ability to devise budgets, and project profits instantly. DataCALC organizes, and makes your figures easier to handle. DataCALC gives you everything that you would expect from an electronic spreadsheet. Like adding and subtracting, multiplying and dividing. It can calculate square roots, logarithms, and even trig functions. DataCALC stores your facts and figures in a series of rows and columns, just like an actual accountant's spreadsheet. Spreadsheet may contain up to 21 columns and 60 rows, giving you more than 1200 storage cells. Once entered, data can be edited, calculated, and reformatted. SmartWRITER printer will give you a hard-copy version of your spreadsheet. Includes an easy to follow reference manual.

FastFILER (DP) \$22 No longer will it take hours to look for important records. FastFILER does it in seconds. FastFILER eliminates the need to keep hundreds of cluttered documents in your home or office. FastFILER stores your records on data packs or disks. Simply design a record-layout containing up to 17 different categories and enter your information. All of your data is stored like individual records in a file folder. Records may be searched for by category, using up to four command functions. Records may be edited, deleted, alphabetized and printed in a variety of ways. FastFILER is entirely menu-driven. It can file mailing lists, keep track of inventory, store and recall recipes, enter and retrieve phone numbers, etc. FastFILER will print-out your records in either mailing label or customized report format. Includes an easy to follow reference manual.

PowerPRINT (DP) \$22 PowerPRINT is a complete printing enhancement system for SmartWRITER documents. PowerPRINT brings out the true potential of your ADAM. PowerPRINT works along with SmartWRITER, it will produce the same quality results that you would expect from a dedicated word processor costing three times as much. PowerPRINT has the ability to read different formatting commands from within the document file. PowerPRINT can also do the following: Headers, footers, single page print selection, auto page numbering, multiple copies and tpestyles, forced page breaks, variable margins, line spacing, justifications and much more. Includes an easy to follow reference manual.

PaintMASTER (DP) \$22 Now with PicturePRINT which will allow you to print PaintMASTER files on your standard ADAM printer. Now you can have the ability to create complex HI-RESOLUTION GRAPHIC designs on your ADAM. PaintMASTER brings out the true potential of your ADAM. With PaintMASTER you will be able to create sophisticated drawings, colorful presentations, and high-definition designs using an elaborate set of tools that any artist would envy. PaintMASTER is primarily written in Z80 machine language for incredibly fast operation and is commanded by a series of icon driven representations. PaintMASTER's features include twenty variable brush sizes and styles, a complete sixteen paillette that controls both foreground and background, automatic circle, polygon, triangle, straight line formatting and variable border and thickness. PaintMASTER has the ability to mix text of any color and your high-resolution pictures on the same screen. It also has the ability to move and copy selected areas of your drawing. And of course, PaintMASTER will LOAD and SAVE your creations to either data pack or disk. Includes an easy to follow reference manual.

TurboLOAD (DP) \$29 No longer will you have to wait several minutes while your ADAM loads your favorite program into memory. ^{With} TurboLOAD, your programs will load as much as ten times faster. TurboLOAD has no preferences, it will work with either data packs or disks. TurboLOAD will improve the performance of your tape drive or disk drive as much as 1000%. TurboLOAD is extremely easy to operate. TurboLOAD simply transforms your BASIC program file into a new and highly efficient version. The TurboLOAD package also includes The File Organizer. The File Organizer will allow you to load, run, rename, lock, unlock, and catalog any program files that are contained on any data pack/disk. The file Organizer will print a detailed, alphabetized report consisting of all program files and what data pack/disks they are contained on.

SOFTWARE FOR THE ADAM

PACKCOPY by Sage Enterprises (DP, DISK) \$29 PACKCOPY allows you to make backup copies of your ADAM software. Makes backup copies of SmartBASIC (includes autoboot), SmartFILER, ADAMCalc, SuperGames (EVEN the short SuperGames), and almost all other software for the ADAM on disk or data pack. Copies software with one or two data drives, dual disk drives, or between a data drive and a disk drive.

CONVERT by Sage Enterprises (DP, DISK) \$27 CONVERT is a utility program that allows you to transfer information from other CP/M single-sided double-density disk formats to the ADAM CP/M disk format. CONVERT allows you to read and write to disks that are in the following formats: Zenith 100 CP/M 85 SS/DD; TRS-80 Model IV CP/M+ SS/DD; and IBM CP/M-86 SS/DD. CONVERT reads the necessary tracks of one disk and manipulates the information in order to put it into the format ADAM needs. CONVERT requires at least one disk drive, one data drive and CP/M 2.2.

BACK-UP+ by MMSG (DP, DISK) \$37 This program will copy programs like SmartBASIC, SmartFILER, SmartLOGO, ADAMCalc, etc. from tape to disk or disk to tape and re-adjust the directory. Features a 40K copy buffer to minimize media swaps. Automatically modifies BASICs as it is copied to tape or disk to make it fully compatible. Support multiple file copies. Allows copying of several files without typing out each filename. Contains CATALOG and disk/tape INIT feature. Program is in machine language and self-booting. Menu driven and self-prompting.

COPYCART+ by MMSG (DP, DISK) \$15 This program converts standard tapes/disks to special self-booting TARGET media. Copies most Coleco compatible cartridges to the TARGET media. TARGET media can hold multiple cartridge programs. TARGET media will self-boot and display a directory of copied cartridges. Program selection is by number making the program easy to use. Menu driven.

VIDEOTUNES by FUTUREVISION (DP) \$29 Play music on your ADAM. Use sheet music or compose your own songs. VideoTunes displays a four octave note range and plays up to three notes at a time. The VideoTunes screen displays both the treble and bass musical staves. Four octaves of piano keys appear at the bottom of the screen. There is one piano key for each of the notes in the four octave note range. VideoTunes comes with 11 prerecorded demo songs. The notes light up on the screen as the music plays. The music scrolls across the screen as the music is played. Store your songs on tape or disk.

AUTOAID by FUTUREVISION (DP) \$25 Enhances SmartBASIC. Generates new line numbers as you type in Basic lines. Defines function keys to be any command or character string, i.e. press the "get" key to do a "LOAD," press the "store" key to do a "SAVE." You can even use cursor keys in the definition. New printer controls: automatic print buffering (you can continue to work while the printer is still printing). AutoAid skips over the perforations on continuous form paper, indents your printouts, and allows you to print form feeds. Included with AutoAid is a set of routines: sound output, alter text and background colors, character display in GR and HGR modes, a higher density low resolution graphics mode, direct read and write to the video display chip and the 64K expansion memory. Complete graphic sprite control and much more.

MARTIN CONSULTING

SmartBASIC BONANZA (DP) \$25 Not only useful and fun, but these 15 programs can show you some of the capabilities and routines of SmartBASIC. Programs include: Design: hi res figures; Sounder: music & sound; Othello: the board game; Mansion: adventure game; Finance: budget, metric, interest projections; Fugue: three instrument music; Magic: amaze your friends; Typer: tutor, video game; Tryme: two educational games; Mini-assembler: write machine code; Disassembler: decipher machine code; Filer: databasr; Labels: make labels from Filer files; Tennis: pong game; Breakout: video game + Surprises.

FANTASY GAMER (DP) \$25 Two text adventures with graphics and an Adventure Creator program. The Visitor: you befriend an alien being and help him find his mother ship. Bomb Squad: an intermediate-level adventure in which you must find and deactivate three bombs planted by terrorists in the embassy of Lunaria. Both adventures include illustrations with some animation. The Adventure Creator helps you create an adventure from scratch. The manual guides you through the process of mapping your game, provides a listing of the Creator program, explains the operation and application of the parser, and teaches you the use of sprites to create animated graphics.

PERSONAL ACCOUNTANT by Softsync (DP) \$21 Using a system known as "double entry bookkeeping" this program allows you to make single entries which are simultaneously posted to their proper categories and added to or subtracted from the appropriate accounts. The program provides professional financial reports which will list assets and liabilities, income over expenses, and trial balances as well as complete account summaries. An integrated data base instantly accesses names, addresses, and other relevant information. A 16 page booklet provides complete instructions.

MultiWRITE (DP) \$36 MultiWRITE is the first professional word processor that has been developed for the ADAM. MultiWRITE was modeled after word processors that are available for the IBM PC, Apple II, and CP/M computers. Not only does MultiWRITE include professional word processing features, it also provides a true SIXTY-FOUR COLUMN DISPLAY SCREEN, without the need to purchase an expensive eighty column hardware board. MultiWRITE has the ability to convert existing SmartWRITER files to MultiWRITE format in just a few simple steps. MultiWRITE's standard ON-SCREEN features include line-centering, variable tab positioning, variable margin settings, paragraph reformatting, word-wrap, horizontal scrolling, underlining, move & copy, single key positioning, vertical positioning counter, auto page numbering, right justification, super/sub scripting, type-ahead memory holding area, mid-line insertion, forced page breaks, variable line spacing, and so much more. MultiWRITE is extremely easy to operate. Single key presses are all you need to remember. MultiWRITE is primarily written in 280 machine language for incredibly fast response and execution. Reference manual included.

BACKUP 3.0 by MMSG (DP, DISK) \$18 Power without the Price!! Fully supports systems with or without the 64K memory expander. (102K/40K copy buffers). Automatically tests internal and expansion RAM memory when loaded. FORMAT DISKS with and without verify. Makes image copies of any media including automatic detection and copy of "Short Tapes." Fully supports mixed tape formats. Identifies and optionally allows user to skip over defective blocks. Makes full use of "Smart Keys" and dynamically displays selected function, drive and block.

BACKUP+ 3.0 by MMSG (DP, DISK) \$33 Contains all the features of the above program plus: Copy individual blocks, a range of blocks or multiple ranges of blocks. Contains a block status utility that will read a specified number of blocks and display or print status about each block (defective, empty, or contains data). Contains a full set of file utilities: copy by file, selective file copy, copy BASIC (with disk fixes), delete file, restore deleted files . . . these utilities support the use of "Wild-Cards" and allow all parameters to be specified initially. Display or print a catalog from any drive with file allocation and blocks left. Options allow user to display system files, user files or deleted files. Format disks and initialize tapes and disks while in the program.

SOFTPACK I by E&T SOFTWARE (DATA PACK, DISK) \$19 Four great home management programs, all fully menu-driven and very easy to use. Three programs are for checkbook management, reconciliation, and totaling. Keep track of checks, deposits, ATMS', and interest earned. Use ADAM to check your records against your bank statement. Total checks, deposits, tax entries, payment categories, etc. up to 120 records per file are allowed, and all three programs have screen/printer output. The fourth program creates address files for printing labels and envelopes. Prints by first/last name, zip code, etc.

BUSINESS PACK I by E&T Software (DATA PACK, DISK) \$19 Three program package designed for a small business. Two programs are for creating and printing address files, containing up to 200 records per file. Print by first/last name, record #, zip code, area code, etc. The third program is an inventory control program. Keep track of stock #, description, quantity on hand, quantity on order, total sold, company cost, and retail cost. Program can display to the screen/printer all inventory items as well as only those that need to be reordered.

FLIPTRACK LEARNING SYSTEMS; How to operate the ADAM\$25
Includes two spoken voice cassettes and a quick reference guide. Each cassette covers one feature: one on SmartWRITER and the other on programming with SmartBASIC. You learn directly by doing. At your own pace and at your own convenience. Great for beginners and novices alike.

SCREEN CHOP bp Elliam Associates (Disk).....\$15
Screen Chop (used in CP/M) takes data coming to the screen in long lines and chop them so they display as individual lines—eliminating the need for horizontal scrolling.

HARDWARE FOR THE ADAM

- ADAMLink Direct Connect Modem** \$75
A full-duplex, 300-baud, autodial modem that connects directly to the phone line without additional interfaces or clumsy receiver cups.
- Extra Digital Data Drive** \$29
With the extra data drive, ADAM's on-line storage capacity is doubled allowing up to 500K bytes of data to be stored on two data packs. Eliminates the need to stop and change data packs in order to access, copy or transfer stored information on two separate data packs. Also can be used to replace a defective data drive on any ADAM.
- 64K Memory Expander** \$59
Increases ADAM RAM by 64K bytes for a total of 144K. Increases the workspace capacity of SmartWRITER Word Processor by 64,000 characters . . . approximately 32 pages of double-spaced text. Use with CP/M software to provide ultra-fast data storage and retrieval with compatible programs.
- Expansion Module #1** \$39
With Expansion Module #1 you can enjoy the entire Library of existing game cartridges that are compatible with the Atari Video System, as well as the SearsVideo Arcade System.
- Adjustable Tractor Feed Assembly** \$75.00
A tractor feed attachment for use on the ADAM SmartWRITER printer. Allows the use of continuous feed paper without the worry of slipping, bunching or double printing. Fully adjustable from 9½" to 2" sheets. Installs in seconds with no tools.
- Printer Stand/Front Off/On Switch** \$17.95
Legs raise printer to allow fanfold paper underneath. Activator moves control of off/on switch to front of printer. No electrical modifications required.
Front Off/On Switch Only \$10.95
- Expansion Module #2 with Turbo Cartridge** \$49
Includes a tabletop console with arcade-style steering wheel and floor operated accelerator foot pedal.
- Super Action Controllers (2) with Baseball Cartridge** \$59
- Roller Controller with Slither Cartridge** \$49
- Coleco Replacement Controller (single)** \$ 6
- WICO Command Control-Joystick/Keypad** \$12
Arcade size joystick delivers true arcade action and feel.
- Super Sketch by Personal Peripherals** \$32
Provides a totally unique and simple medium for creating super video graphics. As the stylus is moved across the Controller Pad, an image is created on your video monitor or TV. Four push buttons at the top of the pad control color selection and graphic functions of the stylus. Included along with the Controller Pad is a SKETCH MASTER plug in software cartridge that is compatible with the ADAM or ColecoVision.
- EVE SP-1 Serial/Parallel Interface Unit** Specify Serial/or Parallel (Disk, DP) \$139.95
The SP-1 includes an RS-232c Serial channel, and a (Centronics) Parallel printer channel. The SP-1 allows the use of hundreds of different printers both high speed dot matrix, and letter quality. With the SP-1 you can use standard modems, and direct connect to other computer systems. The SP-1 comes with software for use with SmartBasic and CP/M. The SmartBasic program allows the selective output to either the serial port, the parallel port, or the ADAM printer. A program is also provided to allow draft printout of a SmartWriter file to either the serial or parallel port. The CP/M programs allow the "IOBYTE" in CP/M to be set for the desired output.
- EVE SS-CC Speech Synthesizer Unit/Clock Calendar (Disk, DP)** \$109.95
Now you can give ADAM a 'VOICE.' The EVE speech unit may be used with your programs to add capabilities to your ADAM that are only limited by your imagination. Also on this interface unit is a 'real time' clock calendar circuit so you, and ADAM will now have an access to the time and date as needed. Software included includes a standard phoneme library, and a 'Clock/Alarm program. For use with SmartBasic and CP/M.
- EVE PS-1 Power Pack to Replace ADAM Printer Supply** \$69.95
The EVE PS-1 Power Pack is a replacement unit for the power supply in the standard printer. It allows the use of ADAM without the ADAM printer. It also provides power for the EVE line of interface products.
