Manufactured exclusively in the United States by E. & T. Software, these new Data Packs come with a limited ONE (1) YEAR WARRANTY. Except for user damage, if a failure should occur during the warranty period, simply return for replacement.

These new *Extended 320K Data Packs* are the latest innovation by Trisyd Video Games. With 320K of storage space, these new Data Packs give the ADAM user 65K more storage space and are 20% faster than the original Coleco brand. You can use these new *Extended 320K Data Packs* with SmartWRITER, SmartBASIC (some utilities will require slight modification), ADAM CALC, etc. (NOTE: Due to the increased storage capacity, some third party programs will not work correctly without modification.)
