Dear Adam User:

When Coleco dropped the ADAM, some people said; "The ADAM is dead, and gone to computer heaven". We are happy to say; "The ADAM is alive and well in '87".

Support for the ADAM has never been greater than what it is today. The following is a sample of what is comming for the ADAM: A RAM DISK is now available (this will allow the use of the 64K expander as if it was a high speed Disk Drive), A literal flood of public domain ADAM software is now available (our public domain library is growing daily), Several third party developers are working on double sided Disk Drives, A Disk Controller Card (that will allow the use of IBM Disk Drives) is under development, Strategic Software has developed an exciting new business program called MicroWORKS (details in this catalog), two programs have been developed that will allow the ADAM user to print graphic pictures to a dot matrix printer, and much much more.

We at E & T SOFTWARE are delighted by this continued support of the ADAM. We feel that the ADAM is a bargain that just can't be beat, and will continue supporting the ADAM as long as you the ADAM owner need it. With the continued support by so many software/hardware developers, ADAM will be alive and well for a long time to come.

In 1985 we begain formatting our own brand of Data Packs. We have tried very hard to keep a high standard of quality control in our production. We are very proud to say that due to our quality control standards, many ADAM companys now use our Data Packs. Some of these companys include: The Adam Users Group (AUG), Nickelodeon Graphics, Marathon Computer Press, Orphanware, Micro 2, Digital Express, and many User Groups. To show our confidence in our product, we have now extended our warranty to a full six months.

For those of you who have purchased from us in the past, we want to say thank you for your support. It has been your support that has helped us grow so fast.

We recently purchased a very large ADAM mailing list. Since it is very hard to check every address with our own list, we ask you to please let us know if you recieve more than one copy of this catalog.

We are also considering starting a E & T NEWSLETTER. We would keep you informed on developments in software and hardware, try and answer your questions concerning ADAM, and members will recieve a substancial discount on all ADAM products we carry. If you would be interested is this venture, please let us know. It is your response that will be the determining factor.

Long live ADAM,

Ed Jenkins

Ed Jenkins

We are very pleased to offer the following Software and Hardware for the COLECO ADAM.

SOFTPACK 1 (DP/DISK) $18.95

This package is fully menu driven, and contains the following FOUR Basic programs: SOFTCHECK - A complete personal checkbook manager. SOFTCHECK handles Checks, Deposits, Atm's, and Interest Earned. Up to 150 entries are allowed per file, CHECKBOOK TOTALIZER - This program uses files created with SOFTCHECK and gives you a total of any item you choose. All tax deductible entries can be totaled by just entering 'tax', CHECKBOOK RECONCILER - This program uses your CURRENT checkbook file and compares it with your Bank Statement, SOFTMAILER - With this program, you will never have to address envelopes or print maling label again. Create address files of up to 80 records. Print/display by first name, last name, or zip code. All FOUR programs are very easy to use, and contain printer output.

BUSINESS PACK 1 (DP/DISK) $19.95

This is a FOUR program package designed for a small business. To conserve memory space, SOFTFILER is used to create your address files, and SOFTMAILER II is used for printing. Up to 125 records per file can be used. Three categories can be used for special information such as phone number, ordered, shipped, etc. Records can be SORTED by first/last name, or zip code (great for bulk mailing). Besides printing/displaying your records like SOFTMAILER, with SOFTMAILER II you can start screen/printer display from any desired record number. If you have a tractor feed, records can be printed continuously. The other two programs are: SOFTSTOCK and STOCKPRINT, inventory control programs. Up to 90 records are allowed per file. Use as many files as your business requires. Keep track of stock number, description, quantity on hand, quantity on order, quantity sold, company cost, and retail cost. A total of your entire inventory is displayed for amount sold, amount on hand at wholesale, and amount on hand at retail. All inventory items will be displayed to the screen/printer, as well as only those that need reordering.

QUEST FOR QUINTANA ROO

Yucatan Sam and you explore dozens of terror-filled chambers that create the mystical Temple of the Mayan god Quintana Roo. Supplies are limited, so use with caution. Time in the temple is a matter of life and death.

MOUNTAIN KING

Welcome to the land down under, where eerie melodies provide challenging hints to test your exploration skills. Armed with a flashlight and raw courage, you must use all your senses and abilities to locate the flame spirit, enter the tomb, and escape with the crown.

GUST BUSTER

Navigate through videogame's most exciting amusement park by inflating and deflating your balloons. Different alitiudes bring changes in the wind gusts and directions. Avoid animals, fountains, airplanes, fireworks, and other obstacles while attempting to land to sell your balloons.

CAMPAIGN

Combine skill and knowledge with your campaign strategy. Select issues, raise funds, avoid bad press. Come election day, just maybe you'll hear "Hail to the chief".

NUMBER BUMPER

A rollicking good time for beginning math students and young adults that want to improve their mathematic skills while utilizing their arcade reactions. You help Bumper Man move the correct numbers into their proper places. An enjoyable, educational game for the entire family.

ROLLOVERTURE

The hall is at a hush. The maestro takes the bator and readies the orchestra. BUT WAIT! All the notes have been scrambled and you must help the maestro scurry madly around the orchestra pit directing the notes back to their proper order. Climb ladders, throw levers, reverse the conveyor belt, and step on rollovers to guide the music ball to the correct notemaker slot. Proper placement rewards you with the overture, but incorrect placement results in a speed increase and greater difficulty.

Program selection is by number, making the program easy to use even by young children. Fully compatible with BACKUP+, COPYCART+ and TARGET media can easily be copied with the BACKUP+ features.

EASY COME-EASY GO (DP/DISK) $19.95

This is a comprehensive savings and loan program for the ADAM. Have you ever wanted to know:
* How much financing a car or home really costs you
* How changes in INTEREST, PRINCIPLE, or TERMS of a loan affect the monthly payment or total amount you pay
* The effective interest rate when you re-finance a loan and pay points
* The remaining principal on a loan so you can determine the payoff
* The future worth of regular deposits in a savings account
* The amount you would have to invest to make regular withdrawls in the future
* The amount you would have to have to invest today to be worth the amount you want in the future

EASY COME-EASY GO can help you answer these financial questions and much more, including: The ability to display or print an amortization schedule or a loan spreadsheet that provides you with the payments for a range of loan terms, interest rates, and principles.

DIABLO (DP/DISK) $19.00

DIABLO, the most orginal new game that has been developed in years. DIABLO, which derives its name from a European game a half century ago known as "Diablotin". The game consists of tracks, panels and a ball. Excellent graphics and sound support, a maze-like and arcade-style game in one. This game demands substantial strategy, planning and decisive control. We can't compare it to anything you have ever played. It is addictive.

ELECTRONIC GAMES PACK (DP/DISK) $19.00

This pack encludes the following great games: Backgammon, Battleship, MasterMind, 3-D-Tick-Tac-Toe, and Miners. All the games are very easy to learn, and contain all instructions needed. We have found these games to be very enjoyable.

MARATHON COMPUTER PRESS -

THE INVESTMENT ANALYST - (DISK) $17.50 (DP) $19.50

Compute P/E ratios, project future EPS and EPS growth, track portfolio growth, and maintain a transaction database.

CODEVISOR 4.1 - (DISK) $21.50 (DP) $23.50

Secure your SmartWRITER and SmartBASIC files. Write your own passwords for access to SmartBASIC. A great utility for anyone who wishes to prevent access to precious data.

THE SPANISH VOCABULARIAN - (DISK) $18.50 (DP) $20.50

If you are interested in learning Spanish, then this program is for you. The DP/DISK contains 1600 words, word types, and translations. If you like, you can add words to the database for a total of over 3300 words. You can choose a test of ENGLISH/SPANISH, or SPANISH/ENGLISH.

TRIVIA PACK or KIDS TRIVIA PACK (DP) $18.95 (DISK) $17.95

Trivia has arrived for ADAM!! This is a NEW program from a new software developer. Up to four players can play this SmartBASIC program. The pack contains 1200 questions and answers in 6 categories: Music & Stage, TV & Screen, Times & Events, People & Places, Art - Lit & Science, Sports & Games. The program randomly selects one of the six categories for you and displays the question. Very nice graphics, color, and sound are used to make this a great game for those 25 or older. Trivia lovers will love this one. It's GREAT. (NOTE: KIDS TRIVIA PACK is the same as TRIVIA PACK, except the questions are designed for young children).

MURDOCK GAMES -

PRO FOOTBALL (DP/DISK) $19.95

If you have ever wanted to coach a pro football team, then this is your game. PRO FOOTBALL uses stats from actual pro games, to create an actual simulation of a pro game. You call the plays from the sideline as ADAM executes the plays that you call. Program contains the following features: One or two players, demo mode, thirty-six plays, punts, field goals, kickoffs, sprites, sound, and full field view. Tape/Disk is AUTO-BOOTING. Tape/Disk versions are not compatable, so order the version that you will use most.

PRO PICKS (DP/DISK) $19.95

PRO PICKS will allow you to predict the results of pro football games based on the point spread or the over/under total. You maintain a database using the stats that you get from the sports page of the newspaper. The program uses these numbers to give you a complete rundown of the game you select. The results can be displayed on the screen or printer. PRO PICKS is NOT INTENDED for use in any illegal gambling, it is intended for entertainment only.

SPRITEMASTER (DP/DISK) $19.95

SPRITEMASTER allows you to use sprites in your own programs without having to learn complicated machine language routines. SPRITEMASTER contains programs that automatically modify and create machine language files that you can load into your own programs with just a few short commands. This saves both time and memory in your programs. This will also save you hours of calculating and typing complicated machine code. SPRITEMASTER will create your sprites, write your code, and print out their locations in memory for you, allowing you to manipulate them with ease. This program requires a basic knowledge of BASIC programing.

UNREAL SOFTWARE COMPANY -

SHOWOFF 1: THE GRAPHICS DESIGN PACKAGE (DP/DISK) $29.95

The most comprehensive graphics designing software ever written for ADAM. The most amazing aspect of ShowOFF 1 is the power you control. This is one piece of software that really taps into ADAM's potential. It includes two primary programs, BlockPAINT 2.3 and SmartPAINT. You can PRINT the low resolution graphics screen on the ADAM printer or your compatible dot matrix printer -- directly from within BlockPAINT.

The prize of this package is SmartPAINT, the high resolution graphics program. You have 41 paint brushes and 14 colors to choose from. It will automatically draw circles, triangles, quadrangles, and lines for you. It even includes an automatic pen movement option. You can put TEXT right next to your graphics. And the program will print directly to a dot matrix printer. You can convert files created with PaintMASTER to SmartPAINT format. NOTE: To print SmartPAINT screens, a parallel printer interface is required.

WIZARD'S PINBALL ARCADE (DP/DISK) $19.95 (NOTE: Pinball Construction Set IS NOT REQUIRED)

This package includes 17 GREAT PINBALL GAMES. Created by an artist using the PINBALL CONSTRUCTION SET, these games took 100's of hours to complete. The following great games are included on this package: "AVALANCHE" - This is a game that's true to it's name. There is no ball track or plunger, but don't worry about that because when the game starts, three balls come tumbling down off a snow covered mountain ledge, and if you can handle the balls long enough to get them into the hopper, then you can have up to five balls in play at once. That's AVALANCHE!! "ACES" - This game isn't five card stud, it's war and you have to be a real ace to be able to flip the ball through the bumper cushions toward the bottom. Use your wing tip flippers to hit the Red Barons plane with the ball for bonus points, but watch out the Barons plane has a habit of eating balls, so stay away from the front landing gear. "ROCK N ROLL" - Yes, that's a Wurlitzer Jukebox. Well, back to the 50's when rock n roll was born, those colorful boxes played some of the hottest tunes of the times. If your are quick enough with flippers you can get this juke box to play a tune and collect bonus points. Who knows you might become the big bopper of Pinball. "TITAN" - When you play this game, don't expect any suprises, it's just your normal run of the mill high tech pinball game. It is designed to beat you, so take your best shot, it's not real hard to beat, but it isn't very easy either. "WHAT'S UP" - In this game, "UP" is where you want to get the ball to, and keep it "UP" there because that's where the big points are, but it isn't as easy as it sounds. "SKYCASTLE" - This is no ordinary castle, but what castle that's built on a floating cloud is? Here's a tip, aim your balls at the main entrance, if you're lucky enough to be able to put three balls across the draw bridge into the main entrance, you'll have three balls in play and collect a bonus. Stay away from the evil cresent moon. "PARALYZER" - This game looks quite simple at first glance, but the very moment the ball starts to fall to the plunger you will see that there is more to this game than meets the eye. "LOST VEGAS" - In this game, you are looking for action and action is what you get. The stakes are high but you have the chance of a lifetime. You are playing for free, so go for broke on this high roller machine. "REBOND" - In this game the bonus points are hard to hit, but they can bo gotten if you're a good shot with the flippers. "THE EDGE" - This game was designed to push the players to their limits. Sometimes it's fast, sometimes so slow it's frustrating. So if you like a challenge, go for the EDGE. "BARON" - This games is similar to Aces, but it has it's differences that make it very fun to play. "SLICK" - That's just what this game is! The idea behind the games design is that you have two flipper buttons. Then why not have two flippers and balls? If you ever wondered what it would be like to play a game like that, check this one out. "GRANDSLAM" - This is what else but baseball and you're the batter. Now that sounds simple enough right? Not really, because there's only six pitches thrown per game and in order to get a good score you have to hit the score board. Maybe those little fielders don't move, but just try getting the ball passed them. "ENDURANCE" - After you play this game for a while, you will begin to understand why it is called ENDURANCE. "BUMPRICITY" - This is a game that things go bump in the night or day or when ever you play. "NOVA" - This is a fast paced game, that has some great effects, also it can be very difficult at times. "TRIAD" - This game is an example of what happens when there's three balls in the ball track at different intervals falling simultaneously.

ALL THE ABOVE GAMES ARE ON ONE DATA PACK OR TWO DISKS.

FUTURE VISION SOFTWARE -

VIDEOTUNES - (DP) $29.00

Play music on your ADAM. Use sheet music or compose your own songs. VideoTunes plays up to three notes at a time and has a four octave note range, displays treble and bass clefs and four octaves of piano keys. The notes light up on the screen as the music plays. MultiWRITE - (DP) $37.00

MultiWRITE is a professional Word Processing System, providing SIXTY FOUR COLUMN DISPLAY CAPABILITY. Eighty column hardware is NOT required. MultiWRITE is the first, the only, and perhaps the last professional word processor that has been developed for the ADAM. MultiWRITE was modeled after word processors that are available for the IBM PC, APPLE II, AND CP/M computers. Not only does MultiWRITE include professional word processing features, it also provides a true SIXTY FOUR COLUMN display screen, without the need to purchase an expensive eighty column hardware board. The MultiWRITE software uses your standard ADAM hardware to produce the new display screen.

MultiWRITE's standard ON-SCREEN features include line centering, variable tab positioning, variable margin settings, paragraph reformating, word-wrap, horizontal scrolling, underling, move/copy, word search, single-key positioning, vertical positioning counter, and much more. Other MultiWRITE features include auto page numbering, right justification, super/sub scripting, type-ahead memory holding area, mid-line insertion, forced page breaks, variable line spacing, and so much more.

** NEW ** MicroWORKS (DATA PACK ONLY) $39.95

The MicroWORKS system includes five powerful programs on one digital data pack. These programs work alone or intergrated together. MicroWORKS was modeled after other best selling integrated programs like Lotus 1-2-3, for the IBM PC, and AppleWORKS, for the Apple II. Now, for the first time, an integrated system is available for the ADAM.

The MicroWORKS integrated system allows you to move data from any one module to another, effortlessly. By combining information from each of the five modules, MicroWORKS helps you produce more meaningful documents that contain lists, columns of numbers, graphs, and pictures right where you want them in the text. There are no complex commands to remember; each module displays its own functions on the screen. Once you have learned one, you have mastered them all. The package contains: MicroWRITE, the text editor, includes on-screen centering, variable tab positioning and margin settings, scrolling, mid-line insertion and deletion, search/replace, underlining, auto page numbering, mail merge, chain printing, and so much more. MicroFILE, the data base, includes customized record layouts, columnar reports mailing labels and statistical functions. MicroCALC, the spreadsheet. With MicroCALC, you can devise budgets, poject profits instantly, keep track of expenses and investments. MicroEDIT, the picture editor allows you to create designs and illustrations for use with MicroWRITE. MicroGRAPH, the business graphics generator allows you to graph your spreadsheet and data base figures in any one of three formats.
