

INTRODUCING

Sub Raiders

An authentic high resolution World War II submarine combat simulator.

Here it is, the one you've been waiting for! The hottest new game for the ADAM has arrived. Sub Raiders is more than a game, it's an authentic high resolution World War II submarine combat simulator. Actual 3-D perspective. Brilliant real-time animated graphics. Five different skill levels. Enemy and allied positions continuously calculated and updated. Enemy commanders will actually analyze and react to various combat situations. Five different classes of enemy warships. Magnified and normal-view patrol area quadrant screens. Forward periscope control room view. Fully functional radar screen. Cross-section damage report screen. Includes islands, sand bars, depth charges, torpedoes, diesel or electric power, and amazing sound effects. Patrol missions can keep you busy for hours.

Auto-loading Digital Data Pack. Jam-packed with excitement. Perhaps the best game we have ever seen for the ADAM. If you loved Strategic Software's productivity programs, then you'll love their games. If you only buy one game a year this one should be it! Addicting!

1988 has been a great year for the ADAM. As you will see, there are many more new products for our orphaned computer. From high quality arcade and simulation games, to several Disk Drive types to choose from, the ADAM owner has a wealth of products to choose from. Truly, ADAM is alive and well in 88!

We wish to thank our many customers for giving us your support. It is because of you that we at E. & T. SOFTWARE have released our own brand of ADAM compatible Disk Drives, our own Disk Drive Conversion Service, publish our own ADAM NEWSLETTER called ADAM'S ALIVE (info below), and will soon be releasing an image scanner for the ADAM.

It has been because of your strong support that we have launched these new projects. We wish to thank you for helping us grow and help keep the ADAM alive.

NOW AVAILABLE:

ADAM'S ALIVE
AN ADAM NEWSLETTER

At a time when many people say that the ADAM is dead, we at E. & T. publish an up-to-date informative ADAM only Newsletter. Members can purchase most all the items listed in this retail catalog at reduced member prices. Topics covered are:

ADAM NEWS: Each issue we will keep you informed concerning all the latest news and information concerning the ADAM.

LETTERS TO THE EDITOR: Each issue we try to answer the many questions sent to us by the members. In the responses to the many questions sent to us, you may find an answer to a question that you have had for some time.

REVIEWS: Because new ADAM software is coming out almost weekly, each issue contains reviews of the latest software and hardware developments for the ADAM. By giving you an objective look at the new products, you will be helped in making that important buying decision.

THE ART GALLERY: From time to time, we will discuss the various graphics programs (such as PowerPAINT & The Print Works) and give you some important hints on using the software.

BEGINNING SmartBASIC: This column will help you beginning programmers with a better understanding of BASIC programming.

ADVANCED SmartBASIC: From time to time, we have BASIC instruction for those of you who wish to learn some advanced techniques.

SpeedyWRITE TIPS: Due to the power of this fantastic ADAM word processor, we will give the owners of this fine package helpful hints on how to get the most from the program.

PROGRAMS: Each issue contains at least one public domain program for you to type in.

Memberships to ADAM'S ALIVE (12 issues) are as follows: \$20.00 in the U.S.A., \$22.00 in CANADA, and \$28.00 in all other foreign countries.

E. & T. ADAM SOFTWARE

SOFTPACK 1 (ver. 2.0) (DP/DISK) \$18.95 This package is fully menu driven, and contains the following FOUR Basic programs: SOFTCHECK - A complete personal checkbook manager. SOFTCHECK handles Checks, Deposits, Atm's, and Interest Earned. Up to 500 entries are allowed per file. CHECKBOOK TOTALIZER - This program uses files created with SOFTCHECK and gives you a total of any item you choose. All tax deductible entries can be totaled by just entering 'tax'. CHECKBOOK RECONCILER - This program uses your CURRENT checkbook file and compares it with your Bank Statement, SOFTMAILER - With this program, you will never have to address envelopes or print mailing labels again. Create address files of up to 150 records. Print/display by first name, last name, or zip code. All FOUR programs are very easy to use, and contain printer output.

BUSINESS PACK 1 (ver. 2.0) (DP/DISK) \$18.95 This is a SIX program package designed for a small business. Two programs are for customer address lists, two programs are for inventory control, one program is used to sort your address files, and one program is used to check your tapes/disks for bad blocks. To conserve memory space, SOFTFILER is used to create your address files, and SOFTMAILER II is used for printing. Up to 248 records per file can be used. Use as many files as your business requires. Three categories can be used for special information such as phone number, ordered, shipped, etc. When using the SORT program, records can be sorted by first/last name, or zip code (great for bulk mailing). Besides printing/displaying your records like SOFTMAILER, with SOFTMAILER II you can start screen/printer display from any desired record number. If you have a tractor feed, records can be printed continuously. The other two programs are: SOFTSTOCK and STOCKPRINT, inventory control programs. Up to 400 records are allowed per file. As with the address programs, use as many files as your business requires. Keep track of stock number, description, quantity on hand, quantity on order, quantity sold, company cost, and retail cost. A total of your entire inventory is displayed for amount sold, amount on hand at wholesale, and amount on hand at retail. All inventory items will be displayed to the screen/printer, as well as only those that need re-ordering.

DIGITAL EXPRESS SOFTWARE

ShowOFF 1 (DP/DISK) \$26.95 This is a multi-featured graphics design package; fast global color changes; quick polygons; easy test entry; font and brush rotation; includes six pictures; Public Domain pictures are available. It includes two primary programs; BlockPAINT 2.3 and SmartPAINT. You can PRINT the low resolution graphics screen on the ADAM printer or a compatible dot matrix printer. When using SmartPAINT, the print routine is preset for any EPSON FX or IBM 5152 compatible printer interfaced through a Centronics parallel interface. Over two dozen print options (various widths, various lengths, mirror image, reverse image) as well as three densities are also included.

PowerPAINT (DP/DISK) \$35.95 The most EXTENSIVE graphics design package ever developed for the ADAM; quick global color changes; easy polygons; allows use of FontPOWER font sets (normal size, double width, or double length); allows use of CLIPPER clip art files; move and/or copy sections of your pictures; over two dozen print options (various lengths, various widths, mirror image, reverse image, sectional hard-copy); enlarge sections of your picture; scroll your picture up, down, left or right; actual picture is four screens allowing for large graphics designs (letter-heads, greeting cards, certificates, etc.); total machine code program; * REQUIRES AT LEAST A 64K MEMORY CARD *; for printing, a Centronics parallel interface, EPSON FX or IBM 5152 compatible dot matrix printer is required. For those of you who want the VERY BEST, then this powerful program is just what you have been looking for. In our opinion, this is simply the finest graphics program available (to-date) for the COLECO ADAM.

PaintAIDE (with the Swift Font Kit) (DP/DISK) \$18.95 Sure PowerPAINT is a very comprehensive graphics design program. Yes, it's the single largest program ever written for the ADAM computer by a third party developer. Of course, it's compatible with "SmartPAINT", "FontPOWER", "SpritePOWER", and "CLIPPER" (all by Digital Express). And, PowerPAINT is widely acclaimed as one of the best programs ever written for the ADAM computer. So, what could make it better? PaintAIDE allows you to enable or disable the printer status check for your dot matrix. You can select your own default background color for CLEAR. And, BEST OF ALL... you can pick your own pre-defined typeface for the four sets of SPECIAL FONTS. With half width you can setup for MICRO fonts or (better) SYSTEM fonts. With full width, you can setup for COMPU, MICRO, or SYSTEM fonts. Plus, you have six double sized (headline) typefaces to choose from: BIG, BOLD, COMPU, GOTHIC, OUTLINE, or RITZ. PaintAIDE requires two drives. You insert PaintAIDE in one and PowerPAINT in the other. You then select the options that you want, and it will change the PowerPAINT medium for you... fast. There after, the changes will be in effect when you boot the disk or data pack. You can change them later if you wish. PaintAIDE also comes complete with the SWIFT FONT KIT. This includes 20 sets of FontPOWER font sets (such as: SYSTEM, BOLD, RITZ, SCRIPT, MODERN, ITALIC, OLD ENGLISH, OLD WEST, BOLD2, STOP, COMPU, ROMAN, BLOCK GOTHIC), etc. With all the SPECIAL FONT sets, you have a total of over three dozen font files to choose from. This really brings out the page layout aspect of PowerPAINT.

FontPOWER (DP/DISK) \$14.95 The first of their SECOND GENERATION of software for the ADAM - emulates and improves COLECO design techniques. This very easy-to-use font design utility even comes with 8 new font sets (script, micro, cory, roman, bold, etc.). And, it includes three hi-res font shape tables. Plus it includes a BASIC program that allows the user to insert FontPOWER characters inside the QR, HGR, or HGR2 graphics window.

SpritePOWER (DP/DISK) \$16.95 The SECOND of their SECOND GENERATION of software for the ADAM. Emulates and improves COLECO design techniques. This totally Z80 machine code program (36K file) also comes complete with an extensive instruction manual that tells you all about using the program and using sprites in your own programs. Design sprites on a grid or capture them from hi-res pictures. Includes buffer for transferring sprites from one file to another; includes an 11K ramdisk (does NOT require 64K expander). Comes with PUFF (a fast action arcade style game using sprites). Store sprite sets as binary image Z80 file, binary image BASIC 'H' files, or as a BASIC 'A' file with DATA statements. Widely acclaimed as the BEST sprite design utility ever written for the ADAM.

CLIPPER (DP/DISK) \$16.95 Another of their SECOND GENERATION of ADAM software. Emulates and improves COLECO design techniques; detailed instruction manual. Shows you how to put 'clip art' into your own hi-res pictures; allows you to design clip art pictures (64 by 64 pixels) or capture them from hi-res pictures. Foreground & background drawing. Store clip art binary image and color data on a Z80 file or as a basic 'H' file. Includes 11K of ramdisk storage space (does NOT require 64K card), totally Z80 program.

Intel-LOAD 1.0 (DP/DISK) \$13.95 How many times have you waited for seeming endless minutes for one of your favorite BASIC programs to LOAD? Intel-LOAD to the rescue! Intel-LOAD converts SmartBASIC 1.0 programs to binary format for super fast (UP TO 12 TIMES FASTER) loading. The program stays in memory (RAM) and has two BSAVE choices. It is very easy to use, even for the computer novice.

Intel-BEST 3.3 (DP/DISK) \$21.95 This machine code program makes over three dozen enhancements to SmartBASIC V1.0; includes nine very friendly music commands; you can use music from song sheets directly in your own SmartBASIC programs; corrects the DATA/REM extra space bug; use one color table for both GR and HGR modes; includes relative RESTORE command. For those of you who plan on writing your own programs in Basic, this program is a MUST.

SwiftDISK (DP/DISK) \$10.95 Okay, you've got a memory expansion card and a ram disk utility... the speed is unbelievable and your productivity is greatly increased. But you can only access the ram disk from SmartBASIC or your own Z80 programs. SwiftDISK could be just what you are looking for. It fools the Operating System into thinking the RAM DISK is a SECOND TAPE DRIVE (even if you have only one tape drive). A powerful boon to ADAMCALC, SmartWRITER, and SmartLOGO. It can be used with ANY standard EOS program (except SmartBASIC 2.0). SwiftDISK requires MegaDISK 1.0 - you'll need to transfer the 'shortdisk' program to the SwiftDISK medium. Because some (COLECO) programs use a 64K card as a work buffer, SwiftDISK is recommended for those who have the BIG expander cards (128K or larger).

MegaDISK 1.0 (DP/DISK) \$21.95 Creates a Ram Disk utility for SmartBasic V1.0 or standard EOS-programs; works with any size expansion RAM card (64K, 128K, 256K, 512K, and 1 Meg) - it automatically adjusts the size of your Ram Disk in accordance with your Ram size; stored as a machine code program which is AUTO-LOADING (can also be loaded from your own machine code programs); comes with four DIGITAL EXPRESS PUBLIC DOMAIN programs including EfileXFER (a utility for copying files from one medium to another); MegaDISK's Ram Disk is FULLY compatible with ALL binary converted BASIC programs; Intel-BEST 3.3, and Intel-LOAD V1.0; this package is a MUST for those who have ORPHANWARE's large RAM expansion boards. This program also works with only the 64K expander. ** NOTE: SmartBASIC 1.0 is included **

XRAMPak I (DP/DISK) \$17.95 XRAMPak I is the perfect companion for your BIG memory expansion card, and MegaDISK 1.0. It is a collection of three powerful ram disk utilities. "XRboot" allows you to almost instantly switch between SmartWRITER, SmartBASIC 1.0, ADAMCALC, and ADAMLINK. "PACK" and "UNPACK" are public domain programs for quickly setting up your favorite programs on the ram disk. "XRcopy", based on TurboCOPY, is a nice file utility and a sophisticated backup program. It uses the space on the ram disk ABOVE your files stored there as a copy buffer - the copy buffer can be as large as your XRAM card. With the MX-256 you have a 247K copy buffer, and with the MX-512 you can have a 495K copy buffer. "XRcopy" includes a multi-backup feature for making multiple backups of PUBLIC DOMAIN software - it can COPY a full 160K disk in just about 75 seconds. Also included is an updated version of their popular program "EfileXFER" which is much faster than the original. Requires a memory expander card, and MegaDISK 1.0. Get XRAMPak I today! You'll be amazed by the speed control you can have over your ADAM.

MegaSYSTEM-XR "A" (DP/DISK) \$39.95 This powerful utility turns your big memory expansion card (256K or larger) into a dream machine. You can instantly switch between 10 great programs. And you don't even have to pull the computer reset; just tap CONTROL and the DELETE key at the same time. In an instant you're given a menu of options to select from. You can choose from three enhancement versions of SmartBASIC V1.0. Load SmartWRITER with or without dot matrix print options. A clock and perpetual calendar is available (clock requires EVE or OrphanWare real time clock). Comes with a powerful media utility for disk formatting, file copying, editing sectors, backing up media, and verifying. It even includes a utility for printing hi-res screens on the ADAM printer or a dot matrix. Included also is a charts and graphs assembler. Comes with ADAMLink II, SmartWRITER, and SmartBASIC - all can be used with a dot matrix or the ADAM printer. You can even use your own ADAMcalc too. You'll wonder how you ever got along without this productivity enhancement for the ADAM.

MegaSYSTEM-XR ".b" (DP/DISK) \$29.95 This is the same powerful package as above, except this is for those of you who already have MegaDISK 1.0. With this version, you'll need to transfer the 'shortdisk' program to the MegaSYSTEM-XR medium.

TurboDISK 1.0 (DP/DISK) \$19.95 Creates a RAMdrive utility for SmartBASIC V1.0 (a RAMdrive is like a SUPERFAST disk or tape drive); corrects some SmartBASIC bugs; stored as a machine code program which is BRUN. It includes TurboCOPY (copy utility for BASIC with 62K buffer, RUN and BRUN files, INIT and RENAME volumes, check block status). TurboDISK's ramdisk is FULLY compatible with ALL binary converted BASIC programs, Intel-BEST 3.3, Intel-LOAD V1.0, and the 'NIBBLES & BITS' PatchWORK series of BASIC enhancements. It uses 'd7' to access the 63K RAMdisk. This package is a MUST for any owner of the 64K expansion card.

ShowOFF II (Word Processing Enhancements) (DP/DISK) \$16.95 Several machine code printing enhancements for SmartBASIC and SmartWRITER (new screen colors, LOCK only the alphabet keys, quickly scroll up or down 5 screens), and adds 32 embedded commands for print control. Some of these are: Pica, Elite, Compressed and Double Width modes, BOLDFACE for emphasis, multiple margins within a document, etc. Requires at least a 64K memory expander, Panasonic KX 1080 or 1080i printer, and a Centronics parallel interface (like the one from Orphanware).

ShowOFF Ila (Word Processing Enhancements) (DP/DISK) \$16.95 Very similar to ShowOFF II (above); does NOT support internal document margin control; does NOT include the four line justification commands; adds 24 commands for print control; requires at least a 64K expander, Centronics parallel interface, and any EPSON FX compatible printer (Star line, Panasonic line, Epson line, Okimate 20, etc.).

GoDOS (DP/DISK) \$21.95 Finally ADAM enters the world of graphics oriented operating systems. This new system is the basis for all up-coming "GO" programs from Digital Express and many other ADAM software developers. Comes with more than 400 built-in routines... a Z80 programmer's dream. Create machine code programs in HALF the time with a better appearance and user interface. Allows use of pull down menus, command lines, simple windowing, dialog boxes, SmartKEY labels. Includes calculator routines, a full arsenal of graphics functions, MUSIC drivers, NMI tune driver, built-in clock, and much more. Automatically sets up RAMdrive and supports up to four disk drives (with special EPROMS). Can be used with 160K, 320K or 720K disk drives. Requires at least a 64K expander. GoDOS gets you ready for all the up-coming sophisticated "GO" programs.

GoDOS Technical Manual \$11.95 Here is all the technical information needed for writing programs in the Powerful GoDOS environment. All the routines are revealed; how to setup for them, how to use them, etc. This is your KEY to programming in the GoDOS system.

GoWRITER (DP/DISK) \$23.95 The ultimate word processor for ADAM. Includes macros, justification, SmartWRITER compatibility, printer selection, 30 or 60 column screen display, plus scores of powerful features. With a 128K expander or larger, you can actually layout graphic pages. Lets you load and print hi-res pictures and CLIPPER clip art. This is a bargain that you'll find USEFULL for many years to come. ** REQUIRES GoDOS **

SwiftLINK 1.2 (DP/DISK) \$19.95 This is a multi-featured terminal program for use with the ADAMlink modem. Written entirely in fast Z80 code. Can be used in 300 or 1200 baud. Allows use of macros, 20 record library (name, number, id, memos, parms, etc.), RAMdrive, plus lots more. Extremely user friendly. Works with 30, 40, or 80 columns (EVE or Orphanware 80 column card required for 80).

BEYOND TREK (GRAPHIC/ADVENTURE GAME) (DP/DISK) \$17.95 It's here! Pull the reset, a title screen instantly appears and the theme song starts playing. A few seconds later, the Enterprise appears as more of the program loads into memory. You'll hear a couple of more tunes and then Kirk's soliloquy is displayed ("spoken" if you have the EVE SS/JCC). Then you take command. Your goal is to protect the four starbases and annihilate those belligerent Klingons. You have a full arsenal of weapons and you can get more at a starbase that's in good condition. You have a variety of maneuver options. Plus, three charts and a graph are at your disposal. The entire game is played with the front game controller keypad. There are four skill levels and a hall of fame for high scores (for the session or permanent record). This program is an adventure/graphics game that is based on the Star Trek game that has been available on other computer systems for a few years. If you like adventure games, then this is a must have for your game library. * REQUIRES at least a 64K memory expander *

CHESS CHAMP (DP/DISK) \$16.95 The first graphic chess game for the ADAM computer. Standard board setup or you can position the pieces to your preference. Seven skill levels. Choose black or white. Change sides if you prefer. Move your pieces with a graphic hand. Store and load inchoate games. REQUIRES at least a 64K memory expander.

DIGITAL EXPRESS REFERENCE GUIDES

EZref 101 \$2.25 All 700+ Z80 instructions listed in NUMERIC sequence; nine full-length pages; decimal, hex, opcodes, & operands; great for assembling machine code routines; holes drilled for easy binder insertion.

EZref 102 \$2.25 All 700+ Z80 instructions listed in ALPHABETIC sequence; nine full-length pages; decimal, hex, opcodes, & operands; great for disassembling machine code routines; holes drilled for easy binder insertion.

EZref 103 \$3.50 Study ADAM's EOS; jump table vectors, routines, setup for CALLS, exit register meanings; plus assorted tables and general information for advanced programming on ADAM; 21 pages; holes drilled for easy binder insertion.

PICTORIAL GRAPHICS LIBRARY \$16.95 100+ page book with printouts of all the public domain graphics for use with PowerPAINT. Arranged by size for easy reference (workspace pictures, full screen, labels, clip art, sprites, paint brushes, and fonts). No more wasted hours hunting for the right graphics; it's all here in one huge, nicely bound volume.

DIGITAL ADVENTURES SOFTWARE

TEMPLE OF THE SNOW DRAGON (DP/DISK) \$21.95 The FIRST in a TRILOGY of superb graphic adventures -- truly randomized; store and load a game; absolutely incredible graphics; great sound effects; very challenging adventure. Without a doubt, one of the best games EVER written for the ADAM computer; rivals ANYTHING Coleco ever did. This one will keep you playing. A FUN-FILLED, fun to play experience. You'll never forget this one.

DATA DOCTOR SOFTWARE

SmartBEST V1.0 (DP/DISK) \$14.95 This program makes several changes to SmartBASIC 1.0 including a relative RESTORE command, instant screen color changes, and sound commands; not compatible with Digital Express's Intel-BEST 3.3; BEST is an acronym for Basic Enhancement for Sound and Text.

SmartTRIX (DP/DISK) \$16.95 This package is a set of 10 fantastic utilities (programming aids); two sprite programs; Tape/Disk modifier; sound effects; 60 page manual; Disk and DDP versions NOT compatible; great combined with SmartBEST V1.0.

QUICKFAX QUEST (DP/DISK) \$14.95 This package contains three academic quizzes; includes study mode (on-screen and hardcopy); US capitals, world capitals, and Chemistry elements.

STRATEGY STRAIN (DP/DISK) \$14.95 Contains intellectually challenging computer classics; good graphics and sound; includes Towers of Hanoi, Klingon Challenge, Fixxator, and Lunar Module simulation.

BRYAN'S SOFTWARE

CARD SET #1 (DP/DISK) \$14.95 Three detailed greeting cards, sprite art, and clip art. Fine graphics for use with the Digital Express program PowerPAINT. Yes, you can now print (and view) graphic greeting cards with the ADAM (and PowerPAINT).

CARD SET #2 (DP/DISK) \$14.95 Another volume of professional graphics for use with Power PAINT. Three cards, clip art, and sprites.

CARD SET #3 (DP/DISK) \$14.95 Still another volume of this high quality artwork for use with the top selling program PowerPAINT.

STRATEGIC SOFTWARE

Sub Raiders (DP) \$22.95 Here it is, the one you've been waiting for! The hottest new game for the ADAM has arrived. Sub Raiders is more than a game, it's an authentic high resolution World War II submarine combat simulator. Actual 3-D perspective. Brilliant real-time animated graphics. Five different skill levels. Enemy and allied positions continuously calculated and updated. Enemy commanders will actually analyze and react to various combat situations. Five different classes of enemy warships. Magnified and normal-view patrol area quadrant screens. Forward periscope control room view. Fully functional radar screen. Cross-section damage report screen. Includes islands, sand bars, depth charges, torpedoes, diesel or electric power, and amazing sound effects. Patrol missions can keep you busy for hours. Auto-loading Digital Data Pack. Jam-packed with excitement. Perhaps the best game we have seen for the ADAM. If you loved Strategic Software's productivity programs, then you'll love their games. If you only buy one game a year, then this one should be it! It's addicting!

SignSHOP (DP) \$20.95 Turn your ADAM into a complete printing center with SignSHOP. SignSHOP will allow you to custom design and print signs, notices, fliers, posters, announcements, invitations, greeting cards, letter-heads, and oversized banners. SignSHOP offers variable positioning commands, two type styles, seven different banner sizes, and two print qualities. SignSHOP allows you to integrate pictures with anything you design. Ten pre-formatted pictures are included with SignSHOP. These consist of religious, holiday, and general symbols, as well as others for many different occasions. Or, if you would like, you may design your own with the SignSHOP's powerful picture editor. SignSHOP produces stunning, near dot matrix resolution on your standard ADAM printer.

NewsMAKER (DP) \$26.95 NewsMAKER is the latest innovative software title from Strategic Software. NewsMAKER, the first true desktop publishing program is now available for the ADAM. As powerful as it is, NewsMAKER is incredibly easy to use. There are no commands to remember, everything is displayed in simple english right at your fingertips. NewsMAKER allows you to design very complex documents containing precisely placed text and picture elements. These elements are referred to as blocks. These blocks may be positioned anywhere on an 8 1/2 X 11 inch page. They may be re-sized and justified as well. If desired, NewsMAKER will automatically flow your text from block to block. A feature usually found in desktop publishing systems costing hundreds of dollars more. NewsMAKER's picture capability is quite extensive as well. Picture blocks are treated the same way text blocks are. They may be resized and re-positioned at any time. A powerful picture editor is included which lets you create your own pictures and headlines (in two different type styles), or it can convert any SignSHOP picture file for use in NewsMAKER. To help you get started in creating some nice looking documents, elsewhere in this catalog we have two picture volumes (SnapSHOTS 1 & 2) that each contain 35 pictures in BOTH NewsMAKER and SignSHOP formats.

MicroWORKS (DP) \$27.95 The MicroWORKS system includes five powerful programs on one digital data pack. These programs work alone or integrated together. MicroWORKS was modeled after other best selling integrated programs like Lotus 1-2-3, for the IBM PC, and AppleWORKS, for the Apple II. Now, for the first time, an integrated system is available for the ADAM. The MicroWORKS integrated system allows you to move data from any one module to another, effortlessly. By combining information from each of the five modules, MicroWORKS helps you produce more meaningful documents that contain lists, columns of numbers, graphs, and pictures right where you want them in the text. There are no complex commands to remember; each module displays its own functions on the screen. Once you have learned one, you have mastered them all. The package contains: MicroWRITE, the text editor, includes on-screen centering, variable tab positioning and margin settings, scrolling, mid-line insertion and deletion, search/replace, underlining, auto page numbering, mail merge, chain printing, and so much more. MicroFILE, the data base, includes customized record layouts, columnar reports mailing labels and statistical functions. MicroCALC, the spreadsheet. With MicroCALC, you can devise budgets, project profits instantly, keep track of expenses and investments. MicroEDIT, the picture editor allows you to create designs and illustrations for use with MicroWRITE. MicroGRAPH, the business graphics generator allows you to graph your spreadsheet and data base figures in any one of three formats.

ProofREADER (DP) * SALE * \$29.95 ProofREADER, from Strategic Software, is a high-speed, 100% machine language auto-loading spelling checker, which has been specifically designed for the ADAM Family Computer System. ProofREADER is a spell checking, typographical error detection, and correction system for SmartWRITER, MultiWRITE, and ASCII document files. ProofREADER comes with a dictionary file that contains approximately 5000 of the most commonly used words in the English language. By scanning this electronic dictionary, ProofREADER has the ability to locate misspelled words or typographical errors that are found within your SmartWRITER, MultiWRITE, or ASCII document files. If your writing vocabulary is larger than this, don't worry, because ProofREADER allows you to create your own, customized dictionary files, containing several thousand more words. ProofREADER is extremely easy to use. Simply run your document file through ProofREADER, then sit back and let the program do the rest. When ProofREADER finds a questionable word, it will display it on the screen along with several, correctly spelled alternate suggestions. You may replace the questionable word with your own entry or with any one of ProofREADER's suggestions.

READY SOFTWARE

LAB MOUSE (DP) \$12.95 (DISK) \$10.95 Lab Mouse is a fantastic new game that puts you in the role on a laboratory mouse stuck in a maze. The only way out is to find the cheese! You see the maze from the mouse's perspective. All graphics are in beautiful hi-resolution. Select from 5 skill levels. Every maze is different and you can even see your footprints in the "halls" that you've walked through. This game will keep you glued to your computer, and at this low price, everyone can afford it!

PHRASE CRAZE (DP) \$19.95 (DISK) \$17.95 Phrase Craze is a wheel of fortune type game. Up to 3 players compete to figure out the phrase in each of three rounds. The program uses colorful high-resolution graphics, animated sprites, sound effects, and even has a Hall of Fame screen for the high scores. This game is GREAT FUN for the entire family.

PHRASE PACK ONE (DP) \$9.95 (DISK) \$7.95 This pack contains over 150 games worth of phrases. **REQUIRES PHRASE CRAZE.**

PHRASE PACK TWO (DP) \$9.95 (DISK) \$7.95 This pack contains over 150 games worth of phrases pertaining to SHOW BIZ. **REQUIRES PHRASE CRAZE.**

PHRASE PACK CONSTRUCTION SET (DP) \$9.95 (DISK) \$7.95 This program allows you to create your own Phrase Craze game packs. **REQUIRES PHRASE CRAZE.**

MAGEQUEST (DP) \$17.95 (DISK) \$15.95 MageQuest is a super graphic adventure by Brian Miguel. In this game you take the role of a mage on a quest to get back the nine Wards of Power that were stolen by the evil Enteon. Using only various spells, which you will find written on scrolls scattered throughout the dungeons, you must confront some of the vilest creatures ever created by dark magic! Scores of rooms make up each of nine challenging levels. The King is counting on you. Can you save the Realm? The graphics are in detailed hi-res and sprites are used for the superbly animated mage and monsters. This game utilizes the game controller and even includes a pause feature. Have the time of your life exploring the seemingly endless array of rooms. MAGEQUEST has a unique feature that allows you to play, what they've termed as, **SOLO ADVENTURES**. These are games much like the individual levels of MAGEQUEST. With Solo Adventures you can continue to play brand new adventures after you've conquered the main MAGEQUEST ADVENTURE. Solo Adventures include more challenging levels, traps, and creatures. As an extra bonus, three Solo Adventures are included with the MAGEQUEST package.

THE ENTERTAINMENT PACK (DP) \$15.95 (DISK) \$13.95 This package is auto-loading and all of the programs load super fast from a main directory. Each game uses arcade sound effects and colorful graphics for enhanced play. These one and two player games will provide you and your family with hours of fun. The following games are contained on this pack: **CONNECT 4** - This is a fun and challenging strategy game that can be played against another player or against ADAM. Players stack blocks on poles and try and connect four in a row vertically, horizontally, or diagonally. This is a very addictive game with colorful graphics and great sound. **BLOCKADE** - This is a breakout type game that requires fast reflexes. One or two player options are available with individual skill levels. Blockade also has a handy pause feature. **SLIDE PUZZLE** - Slide Puzzle requires you to slide the panels of a puzzle until they're in the correct order. Graphics are in hi-resolution, and sprites are used for smooth animation. Movement can be done with the joystick or the arrow keys.

STAGE FRIGHT (DP) \$15.95 (DISK) \$13.95 Stage Fright is a mammoth text-adventure that took programmer Mike McCauley over two years to complete! You play an actor (or actress) trapped in an abandoned theater. This game is very complex and you must complete all three rounds to win! Features music, text animation, function keys for easy of use, saved games, and plenty of puns! Stage Fright comes complete with an instruction booklet and a cheat sheet booklet...just in case you get stuck. This is the most sophisticated text adventure ever made for ADAM!

SmartTYPE 2.0 (DP) \$19.95 (DISK) \$17.95 SmartTYPE is a great little word processor written in SmartBASIC. Even though the work-space is limited to about a page of text, it contains all the useful features left out of SmartWRITER. The features are: Line justification, auto center, one or two column printing, on-screen underlining, 40 column text screen, prints bi-directional, dot matrix support, print rows, pull text left and right, insert-delete text, and MUCH MORE.

Grandma's Recipes (DP) \$9.95 (DISK) \$7.95 Dozens of delicious recipes! From desserts to main course meals. Peanut butter bars, Sea foam, Home-made bread, etc. **NOTE: REQUIRES Coleco's Recipe Filer program.**

SEMINOLE SOFTWARE

FILE UTILITY V1.0 (DP/DISK) \$15.95 File Utility is a utility program that will help you manage your Data Packs or Disks. Using File Utility, you can: DELETE, RECOVER, LOCK, UNLOCK, LOAD, RUN, CHANGE DRIVE, CATALOG, and RENAME files. All of these functions are all at your fingertips. The program is partially SmartKEY driven and very easy to use. Instructions (DOC file) is included in a SmartWRITER "README" file. No ADAM owner should be without a File Utility program.

WHITE SOFTWARE COMPANY

SpeedyWRITE 1.0 (DP/DISK) \$29.95 Without a doubt, this is the MOST ADVANCED word processing program yet available for the COLECO ADAM. Written in fast machine language, SpeedyWRITE offers all the functions contained in SmartWRITER, as well many features found in more expensive word processing programs for other computer systems. Containing more than 100 features, the following is but a brief list of the available features: 40 column screen display, 10 - 12 double spaced pages allowed in one file, Change screen color, Insert text, Move/Copy, Delete text, Underlining, Justification, Centering, Headers/Footers, Search/Replace, Create Macos, Split screen (view two parts of your document at the same time), Re-print page command, Skip to any page, Multiple margin settings within a document, Multiple line spacing within a document, Subscripts, Superscripts, Automatic indentation, Auto page numbering, Multiple Columns, Re-name/delete files, Init the media, Screen review (see just how your document will look like when printed), Convert existing SmartWRITER documents into SpeedyWRITE format, and so much MORE. If you either own, or plan to purchase Strategic Software's popular ProofREADER program (their spelling checker), SpeedyWRITE files are compatible. There is even a printer patch file for those of you who are using a dot matrix printer. For those of you that have been dissatisfied with SmartWRITER, your long wait for an advanced ADAM word processing program is now over. With all it's advanced features (so many that a 47 page manual is included with the software), SpeedyWRITE is the ONLY word processing program you will ever need for the ADAM. We guarantee it!

SpeedyWRITE 2.0 (DP/DISK) \$39.95 This is the latest version of this fantastic advanced ADAM word processor. All of the features of the first version are included, plus: On-line dot matrix support (select by a menu), continuous printing (using a dot matrix printer), Ram Disk support (will use available video ram as a Ram Disk, or (if a memory expander is installed) will use the memory expander as a Ram Disk (this will allow you to store files directly on the expander for almost instant access), file handling routines have been improved, wild cards can now be used for file access, up to 10 help screens are stored on the ram disk, insert control codes to change the type styles used in printing (dot matrix printers only), install up to four config files to be auto-loaded, and much more.

SpeedyWRITE SPELL (DP/DISK) \$24.95 Full dictionary with over 10,000 words, and a full thesaurus with over 5,000 words. Since all words are loaded into memory, this program runs very fast. At the present, this program will only work with SpeedyWRITE. REQUIRES at least a 64K memory expander, and SpeedyWRITE 2.0.

D. L. DECKER ENTERPRISES

ELEMENTARY GRAMMAR BUILDER (DP/DISK) \$17.95 This is a leading edge in learning basic elements of English grammar. The major components are discussed in easy comprehensible terms, so the students can easily grasp the concepts. Topics discussed include subjects, predicates, nouns, verbs, pronouns, adjectives, adverbs, articles, conjunctions, etc.

ELEMENTARY GRAMMAR BUILDER II (DP/DISK) \$17.95 English punctuation. All major areas covered, including Capitalization, end marks, commas, semicolons, quotation marks, apostrophes, and hyphens. Order now and receive a FREE "Spelling Rules" file with the software.

ENGLISH GRAMMAR BUILDER I (DP/DISK) \$17.95 This software is designed as an aid or supplement to the material taught in most junior/senior high school English Grammar courses. The software has been designed to review PARTS of SPEECH for the verbal sections of such exams as the Scholastic Aptitudes Test (SAT), CA Achievement Exams, and other exams which measure grammatical ability.

ENGLISH GRAMMAR BUILDER II (DP/DISK) \$17.95 Package #2 in the English Grammar series. This title presents prepositional phrases, adjective phrases, adverb phrases, predicate nominatives, and more!

VOCABULARY BUILDER I (DP/DISK) \$17.95 Designed to build vocabulary. The program will review a variety of words commonly defined incorrectly. Ranging from "easy" to "moderate" the difficulty, several of these words have appeared on the SAT's, as well as various Achievement Tests, have been answered incorrectly on these exams. The purpose of the VOCABULARY BUILDER software series is to make the user knowledgeable about

many words answered incorrectly, as well as teach words the user has not previously encountered. DIFFICULTY LEVEL will INCREASE throughout the VOCABULARY BUILDER series.

VOCABULARY BUILDER II (DP/DISK) \$17.95 Package #2 in this series. This title increases in difficulty level as the words are reviewed and presents words which are of a higher caliber than those on the VOCABULARY BUILDER I.

SPELLING TUTOR I (DP/DISK) \$17.95 This series is designed to counter a growing epidemic among secondary school students - poor spelling aptitude. Presents challenging lessons and quizzes designed to improve spelling abilities among junior high and senior students.

SPELLING TUTOR II (DP/DISK) \$17.95 Package #2 in the Spelling Tutor series. Spelling Tutor II presents an increased difficulty level. This title presents more challenging spelling lessons and quizzes. An excellent complement to any junior or senior high English/spelling course.

MATH BUILDER I (DP/DISK) \$17.95 The Math Builder series is designed to help elementary and junior high students improve basic math skills. This title contains 894 basic math problems. Ranging from simple addition to division of decimals. This software was designed for the youngster who must face math sections of such exams as the C. A. T. (CA Achievement Test), primary math achievement exams, and basic book exams.

MATH BUILDER II (DP/DISK) \$17.95 This software continues where Math Builder I left off. There are hundreds of basic math problems which have appeared on math exams from grades 4 through 7. Problem types include fractions and decimals, in addition, subtraction, multiplication, and division settings. An excellent title designed to strengthen the math skills of young and old alike.

ALGEBRA I (DP/DISK) \$17.95 This is an aid/supplement to material taught in most high school Algebra I courses. Program has also been designed to be used as a review of basic Algebraic concepts for the mathematics section contained on the SAT.

ALGEBRA II (DP/DISK) \$17.95 This software is the continuation of Algebra I. This title investigates the multiplication of SPECIAL PRODUCTS when dealing with polynomial multiplication (as dealt with by all high school Algebra I courses).

SAT ALGEBRA BOOSTER (DP/DISK) \$17.95 The SAT ALGEBRA series presents problems which "simulate" the caliber of problems often encountered on college entrance exams such as the SAT's. An excellent review tool for those preparing to take a college level entrance exam. This title is also an excellent study aid for high school Algebra students who must face cumulative Algebra finals.

AMERICAN HISTORY I (DP) \$17.95 This software series is not limited to 1 tape/disk of American History, like many computer history programs. As a result, this series gives a more in-depth presentation of the people and events that have shaped the American nation. Each media is independent of each other. The series starts with the '500's, and will conclude upon reaching 1986.

AMERICAN HISTORY II (DP) \$17.95 This title is the continuation of the American History series. See the above explanation for more details.

ADAMCALC WORKSHOP FILES (DP/DISK) \$15.95 You must have ADAMCALC to use this program. This software was designed to let you, the ADAM owner, get more acquainted with the excellent features of the ADAMCALC spreadsheet program. This program contains over 12 model spreadsheets, using different features that you can adjust for your own applications. BONUS! WALTERS SOFTWARE GO.

The Print Works (DP/DISK) \$29.95 * NEW * The Print Works is a print shop program for the ADAM computer and a dot matrix printer. Design banners, letter heads, greeting cards, signs, and more. Utilities include: transfer options to move system files, fonts, borders and clips to the ramdisk, config clips and fonts to use with the Print Works. Fonts and clips can be three sizes: regular, two times, and four times the regular size. Overlay borders and clips with text, even overlay text with other text. Use up to 77 different, regular size clips on a sign. Mix different sizes and styles of fonts, all characters are used, even in the larger fonts. Displays clips, fonts and page layout. Several custom clips, fonts and borders included. Graphic smartkey driven, requires one drive, parallel interface and a dot matrix printer, to use the ramdisk option, a memory expander is required.

MEDIA-AID-PLUS (DP/DISK) \$19.95 Self booting menu driven programs with error handling, bad block, media missing, device not available and more. Access drives (A) tape drive #1, (B) tape drive #2, (C) disk drive #1, (D) disk drive #2, and (M) Walters Software Co. RAMDISK: (RAM DISK). INIT - initialize your media with 12 character volume names, spaces and up to 127 catalogs. HELLOABCD changes Smartbasic (HELLO file) default to drive A,B,C, or D. MODIFIER displays files and lets you change, lock, unlock, delete and file types (A,a,H,h). Deleted files can be RECOVERED by unlocking or locking. COPY copies disk and data packs, even standard tapes to right directory tapes correctly. PURGE gets rid of deleted files and squeezes the contents. MANAGER single and multiple file copier will even transfer SmartBASIC. TOOLKIT block modifier and copier. FORMATTER format disks faster. VERIFIER checks disk and data packs for bad blocks. MENU displays files with option to load and run. HMODIFY - HRECOVER send machine code (up to 1K) over the modem.

MEDIA-AID-2-PLUS (DP/DISK) \$19.95 Same programs as MEDIA-AID-PLUS except HELLOABCD is not needed. Uses SmartBASIC 2.0 INCLUDED.

SmartDSK for SmartWRITER (DP/DISK) \$19.95 Uses any memory expander as a high speed ramdisk, with options to use the Adam printer or a dot matrix printer. All SmartWRITER printer features work with a dot matrix printer. Compatible with all SmartDSK utilities. New ramdisk also has more blocks free one per 64K, 256K expander has 187 blocks free with one bank reserved. New Operating System lets SmartWRITER work faster and smoother. Can be used without an expander just for the dot matrix printer option. A MEMORY EXPANDER IS NOT REQUIRED.

SmartDSK II for device #2 (DP/DISK) \$17.95 This is a ramdisk program for ADAMCALC, Flash Card Maker, and SmartBASIC 1 & 2. Uses drive number two (tape drive #2) as the ramdisk drive selector. Use any memory expander (ADAMcalc requires a 128K or larger expander to work correctly). Copy II utility, Matrix (dot matrix printer patches for SmartBASIC 1 & 2) and cruncher programs included. New ramdisk has more blocks free full size 256K expander has 250 blocks free, or 252 total blocks. Block 0 can also be used, it is not used as the buffer as with other ramdisk programs. CopyII can copy a complete program including the boot block (0) to the ramdisk to be copied back to a Data Pack or Disk. ** MEMORY EXPANDER REQUIRED **

SmartDSK III (for SmartBASIC 1 & 2) (DP/DISK) \$24.95 This FANTASTIC NEW PACKAGE contains a Ram Disk that will work with either SmartBASIC 1.0, or SmartBASIC 2.0. Since SmartDSK will work with ANY SIZE memory expander (up to 1MEG), this is the only utility package you may ever need. What is a Ram Disk? A Ram Disk gives you the ability to store and retrieve files directly from your memory expander. This will give you SUPER FAST access to your favorite programs. For those of you with a BIG memory expansion card (128K, 256K, 512K, etc.) you can store programs/files on the lower portion of the memory card, and then use ANY program that uses the first 64K, and your programs will still be there (as long as you don't pull reset or turn the power off). Enhanced to work with any size ram disk, as well as 160K, 320K, or 740K Disk Drives, all of the MEDIA-AID-PLUS PROGRAMS ARE ALSO INCLUDED. Each of the Media-Aid-Plus programs are in two different versions. One version works with SmartBASIC 1.0, and the other version works with SmartBASIC 2.0. This one advantage alone makes this a MUST HAVE for all serious ADAM users. If you are using a BIG memory expander, the COPY program has been enhanced with a REPEAT copy function. This feature is GREAT for ADAM Users Groups who have a public domain library, and do a lot of copying. By copying directly from the Ram Disk, copies can be made SUPER FAST. For those of you with a dot matrix printer, or if you are planning to purchase one in the future, this pack also contains a printer patch that will allow the use of your new printer, from either of the two types of SmartBASIC. You make a copy of your SmartBASIC, then use the enclosed program to permanently patch either Basic. When this has been done, your copy of Basic will access your dot matrix when you insert and pull the computer reset. * MEMORY EXPANDER IS NOT REQUIRED TO USE THE UTILITIES *

RamBOOT (DP/DISK) \$24.95 * NEW * With RamBOOT and a 256K expander, or larger, you can switch between four software programs, SmartWRITER, SmartBASIC 1 & 2, and ADAMcalc, with one key push. Select programs from the RamBOOT's menu. Hold down the control key and push the delete key to return to the menu from any program. Programs boot super fast, (about 2 seconds) and all have ramdisk capability. Printer drivers for dot matrix included for SmartWRITER and SmartBASIC 1 & 2. Smart key (V) is reserved for a utility program, currently being worked on at Walters Software Co., when patched it will provide a complete set of file utilities at the push of a key. RamBOOT can also be setup for a 64K & 128K expander to switch between 2 programs. * REQUIRES A MEMORY EXPANDER *

PrBOOT (DP/DISK) \$17.95 With PrBOOT's file transfer program, you can save up to six software programs to a Data Pack, Disk, or Ramdisk. You can then boot PrBOOT and select the one you want to use. Booting programs from the ramdisk with PrBOOT is super fast. SmartBASIC takes about two seconds. Also the convenience of six software programs on a Disk or Data Pack. Compatible with all SmartDSK and SmartDSK utility programs. * MEMORY EXPANDER & SMARTDSK II, OR III REQUIRED TO BOOT FROM RAMDISK * * MEMORY EXPANDER NOT REQUIRED TO BOOT FROM DATA PACK OR DISK *

AutoBackup for SmartDSK (DISK) \$17.95 (DP) \$19.95 Two unique programs to be used with SmartDSK II or III. Autoload copies the contents of a disk or data pack to the ramdisk. AutoSave copies the contents of the ramdisk to a disk or data pack. Use any expander, 64K or larger, 160K, 320K, and 720K disk drives. PrBOOT can also be used with Autoload to boot software from the ramdisk. ** MEMORY EXPANDER REQUIRED **

JEOPARDY QUESTION PACK (DP/DISK) \$19.95 This package contains questions for 26 great JEOPARDY games. You MUST HAVE the public domain JEOPARDY game (available in our public domain section) to use this pack.

FAMILY FEUD QUESTION PACK (DP/DISK) \$19.95 This pack contains new questions for 26 more FAMILY FEUD games. You MUST have the Family Feud game (from Coleco) to use this pack.

FAMILY FEUD WRITER (DP) \$26.95 (DISK) \$24.95 This program allows you to create your own FAMILY FEUD question packs. Just type in your own questions and answers. Easy and fun. NOTE: MEDIA-AID-PLUS, MEDIA-AID-2-PLUS, or SmartDISK (for S.B. 1 & 2) is required with Family Feud Writer.

LIBRARIAN (DP/DISK) \$19.95 Tired of typing in all those file names? Why not try LIBRARIAN from Walters Software Co? LIBRARIAN reads the file names from a disk or data pack, and stores them on one that SmartFILER can read. Search for file or volume names, room for comments and over 700 files.

SpellingAID (DP/DISK) \$29.95 * NEW * This is a super spelling checker for the Adam computer. Works with a standard system or with any expander, the larger the expander the more words you may have in the dictionary. Over 12,000 words included, select from 5 different colors for the work screen, add, modify, save and load dictionaries. Check, modify and change words in your files. Checks SmartWRITER, SpeedyWRITE, MultiWRITE, and standard ASCII files. Uses smart key display at the bottom of the screen. ** MEMORY EXPANDER IS NOT REQUIRED **

MisSpeller (DP/DISK) \$19.95 * NEW * This is a complete misspellers dictionary, to be used with SpellingAID. MisSpeller contains over 15,000 of the most common misspelled words, in both SmartWRITER and SpellingAID files. You may use the files as is or create your own custom dictionaries. ** REQUIRES SpellingAID **

SUNRISE SOFTWARE VIDEO GAMES (DP/DISK) \$10.95 EACH.

QUEST FOR QUINTANA ROO Yucatan Sam and you explore dozens of terror-filled chambers that create the mystical Temple of the Mayan god Quintana Roo. Supplies are limited, so use with caution.

MOUNTAIN KING Welcome to the land down under, where eerie melodies provide challenging hints to test your exploration skills. Armed with a flashlight and raw courage, you must use all your senses and abilities to locate the flame spirit, enter the tomb, and escape with the crown.

GUST BUSTER Navigate through videogame's most exciting amusement park by inflating and deflating your balloons. Different attitudes bring changes in the wind gusts and directions. Avoid animals, fountains, airplanes, fireworks, and other obstacles while landing to sell your balloons.

CAMPAIGN '84 Combine skill and knowledge with your campaign strategy. Select issues, raise funds, avoid bad press. Come election day, just maybe you'll hear "Hail to the Chief".

NUMBER BUMPER A rollicking good time for beginning math students and young adults that want to improve their mathematic skills while utilizing their arcade reactions. You help Bumper Man move the correct numbers into their proper places. An enjoyable, educational game for the entire family.

ROLLOVERTURE The hall is at a hush. The maestro takes the baton and readies the orchestra. BUT WAIT! All the notes have been scrambled and you must help the maestro scurry madly around the orchestra pit directing the notes back to their proper order. Climb ladders, throw levers, reverse the conveyor belt, and step on rollovers to guide the music ball to the correct note-maker slot. Proper placement rewards you with the overture, but incorrect placement results in a speed increase and greater difficulty.

ACOLYTE SOFTWARE

OpenFILER3 V3.0 (DP/DISK) \$24.95 OpenFILER3 will read a SmartFILER data base and convert it into a sequential file by re-writing the records onto a new tape or disk. The new sequential file can then be read by SmartWRITER, SmartBASIC, or brought into CP/M through the CP/M ADAM.COM utility. Once in the CP/M environment, the file can be directly read by dBASE, Word Star, or other application programs. Your new sequential file can even be sent to another computer via a modem. OpenFILER3 also provides: full recovery of the TEXT field, temporary delete and un-delete of individual records, ability to convert only a range of records, replacement of "text field" commas (for use with BASIC or dBASE), and much more. Included with the program is a comprehensive documentation file that will guide you through the use of the program, as well as suggest uses for the resulting file. REQUIRES SmartBASIC V1.0 and two drives.

SUPERIOR SOFTWARE

PRO-GOLF CHAMP (DP/DISK) \$14.95 This is the most realistic golf game we have seen for the ADAM. Great graphics (even the golf ball gives a shadow in motion), sound, movement, hazards, angles and wind diagrams, clubs - pick and learn about distance, so much more. From beginner to expert, this game will sharpen your skills.

This package contains the NEW ADAMLINK II software that allows for up-loading and down-loading of programs.

PRINTER LEG STAND/REMOTE SWITCH ACTIVATOR \$19.95 This is a front mounted remote switch activator and printer stand set. This package is a must for using fan-fold paper, labels, etc. System on/off control is moved to the front of the printer. The stand will raise the printer so the paper can be fed from under the printer.

PARALLEL PRINTER INTERFACE \$49.95 (Includes printer cable & software on Tape/Disk). No longer will you have to be limited by your slow ADAM printer. With this parallel interface, you can use ANY printer with a standard centronics parallel port (i.e. Panasonic, Star line, Epson, Okidata, etc.). Orphanware's interface will print directly from SmartBASIC, CP/M, SmartFILER, ADAMCALC, ADAMLINK II, and SmartWRITER. Several new programs such as ShowOFF I, ShowOFF II, PowerPAINT, and SmartDSK (for SmartWRITER) will also work with this product.

64K MEMORY EXPANDER \$47.95 Expand your ADAM to a full 144K. Use with the various new programs that require at least a 64k memory card.

DUST COVERS \$18.95 Three piece brown set (with ADAM logo) for Keyboard, printer, and CPU.

DISK DRIVE COVER \$9.95 Keep your Disk Drive free from damaging lint and dust. Matches above three piece set.

ADAM TAPE DRIVES \$29.95 These are replacement tape drives for the ADAM. Unlike cheaper drives sold by other retailers, our drives guaranteed for 90 days.

DAISY WHEELS \$4.75 Choose from Courier 72, Emphasis, or Pica 10.

ADAM RIBBONS 1/\$5.00 3/\$13.50 These ribbons have been designed to replace your worn out COLECO ribbons.

MONITOR CABLES (3ft in length) \$9.50 If you wish to use a monitor with your ADAM, you will need these specially designed cables. They are designed to allow for both audio and video inputs into your monitor.

DISK DRIVE AND KEYBOARD CABLES \$3.00 These 6 feet straight cables will allow you to place your Keyboard or Disk Drive a greater distance from your ADAM.

5 1/4" BLANK DISKS \$4.50 This is a package of 10 high quality ADAM compatible Disks. They have a life time warranty to be free of factory defects. Each package contains: 10 Disks, 10 sleeves, and 10 write protect tabs. These Disks MUST be formatted before you can use them on your ADAM. Refer to your Disk Drive manual for instructions.

5 1/4" FORMATTED BLANK DISKS \$6.50 These are the same 10 high quality Disks as above, only these are PRE-FORMATTED and ready to use on your ADAM.

3 1/2" BLANK DISKS \$13.95 This is a package of 10 high quality ADAM compatible 720K 3 1/2" Disks. These can be used with either an E. & T. 720K drive, or an Orphanware 720K drive. They have a life time warranty to be free of factory defects. These Disks MUST be formatted before you can use them on your ADAM. Refer to your Disk Drive manual for instructions.
