Catalog # 3 Update

10 March 1986

EVE EXP-MOD Expansion Module #3 Conversion Kit

This KIT will allow owners of the ADAM Expansion Module to modify the Game Machine to provide audio and composite video output for use with the VD-MB, MON-80 and composite monitors.

>>>This modification must be installed by a skilled technician<<<

Kit \$29.95

Kit & Installation by E.E.S. ** \$49.95

** If desired, you can call Eve Electronic Systems to arrange for us to install & test the EXP-MOD in your Game Module.

INFOCOM GAMES

EVE Electronic Systems now carries the INFOCOM line of Games specially configured for the ADAM.

ZORK I	Disk--\$39.95 + S&H	DDP--\$44.95 + S&H
ZORK III	Disk--\$44.95 + S&H	DDP--\$49.95 + S&H
ENCHANTER	Disk--\$39.95 + S&H	DDP--\$44.95 + S&H
SORCERER	Disk--\$44.95 + S&H	DDP--\$49.95 + S&H
DEADLINE	Disk--\$49.95 + S&H	DDP--\$54.95 + S&H
PLANETFALL	Disk--\$39.95 + S&H	DDP--\$44.95 + S&H
SEASTALKER	Disk--\$39.95 + S&H	DDP--\$44.95 + S&H

ZBASIC

Eve Electronics now has available a High Precision Z80 BASIC Interpreter for use with CP/M. This is an excellent implementation of BASIC and is similar to, but not fully compatible with Microsoft Basic. ZBASIC is excellent for both the novice and expert programmer. ZBASIC comes complete with a 68 page users manual. Available on Disk or DDP.

ZBASIC	Disk version	\$49.95 + S&H
	DDP version	\$54.95 + S&H

PS-1A Heavy Duty Power Supply

The PS-1A is a heavy duty version of our standard PS-1 unit. It is intended to be used in applications where the DDP is used frequently or 2 DDPs are used. The PS-1 is adequate for most applications, but we have added the PS-1A for those who need the extra capacity.

PS-1A	\$79.95 + S&H
