# *Nice Price System*

ADAM System with keyboard, revision 80 console, data drive, revision 2 printer, parallel interface (Requires Cable), 64K memory expander (original wire-wrapped form), ADAMLink 300 Modem (Requires Cable), 320K 5 1/4" Micro Innovation disk drive, 720K 3 1/2" Micro Innovation disk drive all terrific condition, including all cables for just **\$585**.

The above system was used by The ADAM Connection, however with all of the new enhancements that have arrived for ADAM, we can now do with two systems what we did with three. Here's your chance to get most of the hardware you've always wanted and a new system all at a *super low price*. Look through our catalog and add up what your getting for the above price, you'll be suprised at the savings!

## *Parallel Printer & 64K Printer Buffer Combo!*

Once again The ADAM Connection has a great buy for first time parallel interface buyers. A Citizen 200GX and 64K Printer Buffer for the low price of \$150. Both are used, but in excellent condition except for a broken tractor-feed/friction-feed tab on the printer. *The printer is fully functional however.* Each item was previously used by The ADAM Connection and is no longer needed.

## *Added Bonus!*

*With the purchase of either the above deals, we will also include 2 brown & 1 blue ADAM Ribbons, ClipArt Viewer & Converter, and 2 bare ADAM Keyboards at no additional cost!*

## *The Final Nexus BBS*

The Final Nexus BBS offers a gathering place for ADAMites across North America. We have several different types of message bases to interest all. These bases have every kind of ADAM topic in them, to General discussion areas, to UFO topics, World News, and much more. Our data libraries are just packed with items for you to download (*EOS & CP/M Areas!*) and our graphic's library currently contains over 3 megabytes of RLE graphics. The total volume of storage space we have on our BBS is staggering; we currently have well over 1,400megs for you! On-line ordering is available to let you order items while on-line with our BBS. This enables us to give you very fast service. You can reach the BBS 24 hours a day at (518)/298-4294, 8 data bits-No Party-1 Stop Bit, 300-57600 baud. There is so much you can get out of our system, it is almost essential for any ADAM owner; or anyone with a computer system -- we have areas for all!

## *Product Warranty*

All products are guaranteed for the amount of time as stated by their respective product manufacturer. All Public Domain software is guaranteed for a period of 60 days after the date of purchase. We will gladly exchange any product that proves to be faulty in workmanship. Just return your defective item to us for replacement. Any returns of non-defective programs or hardware due to the fact it was **not** what you were looking for requires a 25% restocking fee.

## *Software Notes*

All software is available on disk **or** data pack unless otherwise noted. Please specify when ordering by filling the MEDIA question on the orderform with either Disk **or** Data Pack depending on your system. You'll notice that some items on disk are cheaper then on data pack. This combined with the speed and "toughness" of disks compared to data packs would make a disk drive a *serious* choice for any ADAM user. All software in this catalog will run with the standard ADAM (Base 64K memory, Data Drive, and Printer) unless otherwise noted in the description. Special options maybe underlined after a product description.

## *Programming/Utility Software*

**Formatter III** (WALTERS SOFTWARE): This program, now improved, will format disks in one or two drives at the same time. Formats include adding a directory (Y/N), boot (return to SmartWRITER of your own Y/N), multiple catalogs and an ADAM press any key to go to SmartWRITER boot. THE best formatting program for the ADAM. Formats 160K, 320K, 720K & 1.4meg disks. On disk only . \$9.95 #53A

**ADAMLink III** (TOM CLARY): Great new terminal program with everything that Coleco left out. Options Include: uploading and downloading standard ASCII or XMODEM files, printout to the ADAM of Dot-matrix printer, supports any baud rate, full set of options to set, auto-redial, and support of an 80 Column Display. Can be used with either an External Modem & Serial Interface or the ADAMLink Modem. \$24.95 #13A

**BACKUP+ 3.0** (MMSG): Contains all the features of BACKUP 3.0 plus: Copy individual blocks, a range of blocks or multiple range of blocks, the program allows an offset between source and destination, a block check utility reads blocks and display status, contains a full set of file utilities (copy by block, selective file copy, copy BASIC, delete, undelete), display/print a catalog from any drive, and initialize within the program. Does not support 320K of 720K disk drives. File utilities will not work if there is more then one catalog on a tape or disk. Disk only! \$19.95 #14A

**COPYCART+ 1.0** (MMSG): Same features as the 2.0 version, except does not copy more cartridges on bigger sized disk drives; this version DOES comes on DDP for Data Drive only users. \$15.00 #16A

**ADAM'S DESK TOP** (WALTERS SOFTWARE): ADAM's Desk Top uses a new modified EOS to bring you a graphic's desk top program to make

your ADAM work better for you. Options include ramdisk setup, initialize, and reset; program booting with standard ADAM, standard dot-matrix, and SmartDSK operating system; SmartWRITER setup with SmartDSK operating system, ramdisk and dot matrix printer; Boot Tools which allows you to boot almost and program from the ramdisk; Copy Tools which will back up a larger drive to a smaller drive; quick ramdisk load and save options; Ability to have many software programs on one media. Disk/Data Pack \$24.95 #17A; Cartridge \$39.95 #18A

**COPX (HEXACE):** Allow you to copy all blocks on a media; Just the Used Blocks on a media; One file anywhere on the media; Several files anywhere on the media in any order; Single block copy to any other other block on another media; Supports up to four disk drives and two taps drives, and the HEXACE Ramdisk; With a RAMdisk you can copy from the RAMdisk to two different media AT THE SAME TIME; When using the copy all or copy directory options, you may also format, then copy to the new freshly formatted disk, all at once. Truly the most complete copy program available \$10.00 #217A

**FORMAX (HEXACE):** This program formats up to eight disk drives of any size combination at once. On each disk you have the options of installing a directory (any size); installing a standard of custom boot. This program will work as well with one disk drive as with eight. For disk drive 3-8 you need a new EPROM inside your disk drive (available from us in the EPROM section of the catalog) . \$10.00 #218A

**6081 Disassembler (HEXACE):** This program is used to disassemble language used in the 6801 chips (master, printer processor, keyboard processor, tape drive processor, and disk drive processor). Send output to your screen, ADAM printer, dot-matrix printer, ram disk or any disk drive. Set up areas to be left out, dumped, of listed individually. The code may come from anywhere in memory, the drives, or the RAM disk. \$10.00 #219A

**Z80 Disassembler (HEXACE):** Use this program to disassemble language used by the main processor in the ADAM computer. It is set up and functions just like the 6081 Disassembler (listed above). \$10.00 #220A

**System Documentation (HEXACE):** A collection of files totaling 148K that will make a small book when printed out. All of HEXACE's programs use this enhanced system that has a built-in RAMdisk that doesn't use any of the three usual buffers in memory. From 57344 to 57855 is the buffer for the RAM disk; 57856 to 58786 can be used for any machine code the user needed, without using the LOMEM space in your programs. The result is more room for your programs. \$15.00 #221A

**EDIX (HEXACE):** A utility editor for machine code, text, fonts, sprites (both sizes), clips, directories, boots, and programs. Print the code/text form address to address from a buffer to a printer. Fonts, sprites, and clips can be printed from your work screen to anywhere on a sheet of paper (with a dot-matrix printer). Color can be changed in your clip files, and then save them back to the same file or a different one. Super-fast search/move facility is included as well. The limit of what you can do with this program is your imagination. \$10.00 #222A

**MEMDSK FOR LOGO (HEXACE):** Creates a RAM disk for use in SmartLOGO. Once your Logo program is patched to this disk (of DDP) you will have the superfast features of a RAM disk. PLUS you will have an improved EOS that will correct some faults of the Logo file routines \$10.00 #61A

**EOS PROGRAMMING KIT (WALTERS SOFTWARE):** This new package contains already written z80 machine code and a small tutorial manual to let you start writing your own machine code programs. Very easy to understand sample program included! It is not ment to teach you z80 programming, but you will be well on your way once you start learning what's enclosed and already done for you. Support line available thru WALTERS SOFTWARE \$29.95 #62A

**DECIMAL DISASSEMBLER (WALTERS SOFTWARE):** This package lets you disassemble code from any drive and print it in a combination of different formats. Dump to a data file, or a printer. Great for taking apart z80 code and editing it to see how things are done. If used in combination with the EOS PROGRAMMING KIT, it can give some insights to z80 programming. \$19.95 #66A

**PAL (HEXACE):** Personal Appointment Lister will format a calendar and let you enter up to 95 characters per day to keep track of your important dates. Print the messages you want to the ADAM or a dot-matrix printer. Perfect for keeping track of those important dates, or for anything else that a note would be helpful! \$10.00 #142A

## *Word Processing & Enhancements*

**SmartWRITER Helper (HEXACE):** Patches SmartWRITER to let you have access to the following: Tape Drive 1&2, Disk Drive 1&2, RamDrive, ADAM Printer, Dot-matrix Printer. It also allows you to add imbedded print codes into your document to get the most out of your printer. \$10.00 #208A

**The Print Works (WALTERS SOFTWARE):** This is a print shop program for the ADAM computer and a dot matrix printer. Design banners, greeting cards, letter heads and signs. Clip Art and Fonts can be in three sizes. Several Clips, Fonts & Borders included. Options include the ability to move system, clips, fonts and borders to a ramdisk. Graphic SmartKEY driven, clip and font display, page layout, save and load print works files and more. Requires parallel printer interface and a dot matrix printer, specify between 9 or 24 pin printer codes. \$24.95 #22A **Data Pack Only**

**PowerPAINT (DIGITAL EXPRESS):** 80K graphics processor for ADAM written entirely in fast machine code. Uses Coleco-like graphics & SmartKEYS. All the features of ShowOFF I PLUS: Huge variety of storage & retrieval options (directly loads SmartPAINT, PaintMASTER, GraphixPAINTER, SmartLOGO, and RLE pictures). Quick global color changes; move, copy, and erase options. MANY hard-copy options (screen, labels, letterheads, and whole picture). Screen scroll options; the whole picture is four screens with a 64K card (8 screens with a 128K of greater). Use FontPOWER typefaces, CLIPPER clip art, and SpritePOWER sprites. Requires at least a 64K expander. Printing requires a parallel printer interface and Epson FX or IBM 5152 compatible printer (like the Pansonic line, STAR printers, and the Okimate 20). Fully compatible with SmartPAINT. Packed with POWERFUL options. Easily UNDO changes. Even setup Ram disk automatically (128K of larger card). Don miss out on the graphic design program for ADAM. \$29.95 #23A

**FontPOWER (DIGITAL EXPRESS):** This very easy-to-use font design utility even comes with 8 new font sets (script, micro, cory, roman, bold, ect). It includes three hi-res font shape tables. Plus it includes a BASIC program that allows the user to insert any FontPOWER characters inside the GR, HGR, or HGR2 graphics window. \$12.95 #24A

**Clip Art Viewer & Converter (WALTERS SOFTWARE):** The perfect program to easy identify your clips and what they look like before you add them to your favorite graphic! This program will print out all the clips on a disk with their filenames under them so they are easily identified. Options for viewing clip art on screen are included and the program will allow you to convert clip art from IBM computers for use on your ADAM! Program comes with about 100 clips to start you right off! Requires Parallel Printer Interface for print options & an IBM compatible computer if you want to transfer clips; specify between 9 or 24 pin printer codes. \$24.95 #33A *NOTE: This program is VERY useful even if you do not have an IBM, it is designed more for just the standard ADAM.*

**SignSHOP:** Allows you to print signs, bannors, and greeting cards on the standard ADAM printer. \$12.95 #400A

# Games By INFOCOM

It's like waking up inside a story! Load Infocom interactive action into your computer and discover yourself at the center of a world jam-packed with surprising twists, unique characters and original, logical, often hilarious puzzles. For the first time you're more than a passive reader. You can talk to the story. Typing in full English sentences. And the story talks right back, communicating entirely in vividly descriptive prose. What's more, you can actually shape the stories course of events through your choice of actions. And you have hundreds of alternatives at every step. In fact, there's so much you can do and see, your adventure can last for weeks and even months. **CLOSE OUT! \$16.00 EACH #139A Available on disk only.**

**CUTTHROATS:** You're a backwater island top diver and foremost expert on local shipwrecks. Which makes you perfect for the job a band of the island's shadiest characters has in mind for you. Is a simple business proposition: all you have to do is locate and salvage a fortune in sunken treasure. You stand to gain millions. The only drawback is, it could cost you your neck. Because to successfully recover the treasure, you'll have to survive the perils of diving in unknown water - and the even greater danger of an untrustworthy crew. But none of that will stop you from taking the plunge. You're the type who believes that even when the stakes are high, even when your odds are this low, it's worth running the risks of dealing with Cutthroats.

**WISHBRINGER:** It's an ordinary day in your ordinary town, and you've been performing your ordinary mail duties in an altogether way. But there's something quite extraordinary in today's mail! It is a ransom note for a kidnapped cat, and it will lead you through unbelievably harrowing adventures to Wishbringer, a stone possessing undreamt-of powers. For though the note in question is addressed to someone in your ordinary little town, it's postmarked for Special Delivery to Parts Unknown. And its true destination is somewhere beyond your wildest dreams, c/o the magic of Infocom interactive fiction.
