MEGACOPY Type III:

The answer to Coleco's tape formatting neglect. This interface requires the basic Adam with two tape drives. Once installed, it remains part of the Adam with no ill effect. Software written in machine code is provided to create over a dozen types of Adam formatted tapes out of ordinary pre-drilled audio cassettes. Typical formatting time takes less than 7 minutes plus copying while formatting and EOS initialisation is provided. Recognized by users all over as the ultimate answer for Adam customized tapes. Price U.S. \$50.00, Cdn \$60.00, shipping add 10% your currency. *Price SPECIAL*

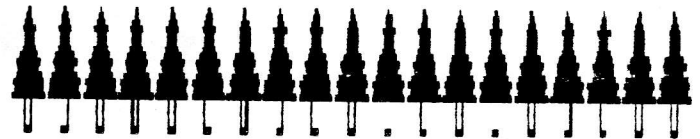

PRINTER GENDER CHANGER:

A hardware device that will lengthen your printer's life expectancy. Attaching between the power cord and memory console, this unit will eliminate the unnecessary noise and subsequent printer spooling every time you reset the Adam in favour of booting a program. No software is required, installs in 10 seconds. Price U.S. \$9.00, Cdn \$11.00, shipping add \$1.50 your currency.

PHONE MONITOR:

This device will help track your incoming phone calls. Plugging into Adam's joystick port, the phone monitor records time of day of incoming calls and provides a call summary for each day detailing number of calls per day, duration that caller waited before an answer and total calls to date. Advantages of this unit are for those who accumulate phone calls with no bearing on their time. Resultant information can help you make important decisions. Price U.S. \$19.50, Cdn \$23.00, shipping \$3.00 your currency.
