ADAM™
LANGUAGE & PROGRAMMING AIDS SOFTWARE

Here are programs designed to provide important knowledge for ADAM™ owners at every level. Your customers can increase their computer literacy, or take advantage of a wide range of computer applications, plus useful tools for the more ambitious programmer.

SMARTLOGO™

Logo is a versatile, highly popular computer language that's easy to learn. Pre-schoolers can use Logo as an introduction to computers and programming . . . college level students can use it to help them understand physics principles. SmartLogo is an enhanced version of Logo, created exclusively for ADAM™ by the inventors of Logo and is specially designed to encourage clear thinking through readable programs.

SMARTBASIC™
(Included with the ADAM™ Family Computer System)

At last there's a simple programming language that's easy to learn and easy to use. As an added feature, SmartBasic™ is source-code compatible with many AppleSoft® BASIC programs. Error messages are in plain, understandable English. It's programming . . . it's graphics . . . and, most of all, it's fun!

AppleSoft® is a registered trademark of Apple Computer, Inc.
