(C)1989 ADAMZONE Publishing Company

A quarterly published newsletter from the ADAMZONE Publishing Company for the ADAMzap Software Company. This newsletter is FREE to anyone who sends in a Self-Addressed-Stamped-Envelope to ADAMzap. This newsletter supports the ADAM Family Computer System and all ADAM supportive companies and groups. Send in reviews and articles for publication.

Letter From The Editor:

Well after a long disappearance from the ADAM community, ADAMzap and ADAMZONE are back. For ADAMzap there are a few new titles and many in the works. For ADAMZONE there is a complete new line of publications.

Hello, my name is Eric E. Danz and I own an ADAM software company called ADAMzap Software. I also own ADAMZONE Publishing Company. A few years ago I released several graphics volumes for PaintMASTER and a few sign volumes for SignSHOP. Since then I've released several text programs and more support software. I've decided to move on to more text and graphics games and programs. At first I Wanted to move away from ADAM software and just publish an ADAM supportive newsletter; but I love programming and so I decided to continue.

I had stated that I would give out FREE software coupons and a FREE issue of my new newsletter, and also a FREE catalog from ADAMzap; but I only fulfilled part of my promise. I had several friends who would write for me in my newsletter, but they let me down. I didn't finish my new software titles on time so my new catalog wasn't sent out. But I responded with 100 coupons and 100 copies of my catalog and sent it out to my first one hundred responses. I also gave out 50 coupons and catalogs to two southern user groups for distribution at local meetings. All this worked well. When I decided to cancel my newsletter, I sent out letters to many people stating that I would not publish a newsletter, but did promise a new catalog and other FREE gifts. Well, this back fired and I got bad respones and my entire ADAM organization came down on my head. I've had to rebuild slowly, but I'm now reorganized and better than ever.

I've kept all SASE's that people sent me. I'm sending new letters to the old responses. Together with a new mailing list and a few new cooorespondences, I can finally bring to you an entirely new and expanded catalog and a small type of newsletter with every catalog. Since the catalog will be updated every quarter of the year, so will this LETTER. And if I see fit, I will produce an extra NetworkADAM NewsINFO Letter for FREE every other month.

With the new catalog and a new publication, you can get the most out of my companies and the most out of your ADAM.

So I thank all of the people would helped put the catalog together and helped write software for me and the other companies listed in the catalog. But most of all my thanks go to the ADAM personal computer system whom which I couldn't do without anymore.

An Opinion Poll Taken:

Last year ADAMagic brought out a complex and fun adult game called Blind Date. Last year ADAMzap brought out an adult game called Foreplay, a little easy, but very fun. All these games were testing the ADAM market to see what the response would be to adult games. Many people didn't support these games and refused to sell them, but the consumer came through and bought them anyway. People were curious and wanted to see what the ADAM could do for adults. Well, now there is an adult software comany for the ADAM. Their product list is in this catalog and all titles are very interesting. Prices are good and the games are enjoyable. There might be only a couple of other places that sell adult programs, but they are all worth while.

ADAMzap sales of adult games are good. This shows that people do enjoy adult games. The St. Louis ADAM group conducted a survey and the results favor adult programs. Many people will try to boycott games like this but the consumer will still continue to purchase them. Let's see what Adultware can do for the ADAM and adult programs.

"New" ADAMzap Catalog:

At ADAMzap Software the old standard was a listing of just ADAMzap software. But the new ADAMzap software is now a new mail order catalog for the ADAM computer. It contains other companies and their software titles.

In conjuction with ADAMZONE publishing, ADAMzap also has publications for sale. These publications assist the ADAM owner in better computer operation and software purchases. Look for the NetworkADAM NewsINFO Reports listed in the catalog.

With ADAMzap software and other companies and their software, plus ADAMZONE publications, ADAMzap can also have a hardware section. This section contains used hardware bought by ADAMzap and tested by ADAMzap and also under warranty by ADAMzap to sell to the new or experienced ADAM owner. ADAMzap also has a hardware modification listed in the catalog. If you have anything to sell or trade, write to ADAMzap and let ADAMzap take care of you.

In this new expanded and improved catalog, the ADAM user and owner can make the ADAM expandable, replaceable, and worth while. With low prices and FREE publications ADAMzap is continuing its full support for the ADAM.

What's New? The ADAM community

is thriving. To consider that the ADAM is an orphan computer and the company that produced it went bankrupt is quite amazing. Support consists of a few well published newsletters and a few well organized mail order houses. Software and hardware developers are mostly private owners who love their machines and want others to enjoy their talents with them.

You would think that software and hardware would be hard to find and would only be produced in small quantities. That is absolutely wrong! The ADAM has everything that more popluar and professional computers have. It has competitive word processors, graphics programs, data bases, and even spread sheets. Games are also available. The graphics and colors are not nearly as good as Nintendo or Sega, but the games are just as stimulating and challenging.

Some of the new developments that are now surfacing are ones like: new super games, more disk drive formats, hardware expansion modules like faster modems and mother boards, and programs that are professionally put together and still at low prices.

One such development that needs extra attention is the new operating system

called GoDos . This will allow the ADAM owner to reach into new realms of programming information and assistance.

On the hardware side there are new more expandable memory cards available. With these cards you can add as much memory as you desire. Anywhere from 64k to 1 megabyte of storage space. As software developers expand to more sophisticated programs the need for more memory is necessary. At least a 64k memory expander is required for most programs, but anything higher makes for more use.

Let's continue our support of these software and hardware developers. Even if the costs are sometimes out of reach. Save your money and buy at your convenience.

ColecoVision's Return!!!

The game that started it all is back in a third party form. In 1982 Coleco released the ColecoVision Game Unit. It was revolutionary. In 1983 Coleco released the ADAM/ColecoVision combination. It was relvolutionary, but short lived because of bad management on Coleco's part.

Since then the owners of the ColecoVision and the ADAM had to be satisfied by old and worn out cartridges. But now, Telegames USA has produced the Personal Arcade; a ColecoVision compatible game unit.

With this unit and new cartridges, you can update your broken or old ColecoVision unit with the Personal Arcade and still enjoy the Coleco standard.
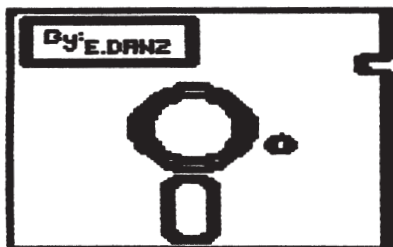

THAT'S ALL FOLKS !!!!!

This article concludes the first of, hopefully, many newsletters to come. The NetworkADAM NewsINFO Letter is part of ADAMZONE's commitment to support the ADAM Family Computer System with publications about the new and the old software and hardware developments. With listings and articles about new and current support groups across the country and across the world.

ADAMZONE will publish future newsletters and if you have anything to contribute, please send it to ADAMZONE. Reviews on any software titles or reports on the newest or older hardware units will be gladly accepted. If you have hints or tips on how to use something better — send it.

If you have any software that you've written for the ADAM and would like ADAMzap or any of the companies listed within to sell, please write to ADAMZONE or ADAMzap; we can handle anything. If you have a hardware modification of original piece, we can sell it. Any publications that you need published, contact ADAMZONE.

ADAMzap Software Catalog

(C)1989 Eric E. Danz
All Rights Reserved

PAINTINGS!!! v1.0 (Disk-$7.50, DDP-$9.50)
This version contains 14 high resolution paintings for use with Strategic Software's PaintMASTER graphics program.

PAINTINGS!!! v2.0 (Disk-$7.50, DDP-$9.50)
This version contains 12 high resolution paintings and one low resolution painting for use with Digital Express' ShowOFF I or PowerPAINT graphics program.

SIGNS!!! (Disk-$7.50, DDP-$9.50)
This program contains 28 different signs for use with Strategic Software's SignSHOP, MicroWORKS and NewsMAKER programs.

MicroTalk (Disk-$13.50, DDP-$15.50)
This software package is for use with the Eve Electronics Speech Synthesizer and Clock/Calendar expansion unit. It is self-booting, menu driven, and has SmartWRITER files. It allows your ADAM to recite poetry, sing songs, tell stories, and tell you the time and date. Also contains a dictionary for you to use in your own speech and clock programs.

WordLIST v2.0 (Disk-$13.50, DDP-$15.50)
This program contains four dictionary files with the complete alphabet and a list of more than 16,000 words to check your documents with Strategic Software's ProofREADER spell checker.

Foreplay (Disk-$13.50, DDP-$15.50)
This program contains ADULT material and should not be used by persons of any age under 21 years. This program is self-booting, number selection driven, and can be used by MALES or FEMALES. The object of this game is to get the most out of a "ONE NIGHT STAND". If you win, you will be rewarded!

Yacht (Disk and DDP $14.00)
You can play this game by yourself or with friends. The game rolls five dice and you add up scores in a poker fashion to see who wins the hand. With every roll you see the dice displayed in graphic form. Very enjoyable and a must for the gambler in all of us.

The Navigator (Disk and DDP $20.00 = To be released Febrary 26)
This game takes place in the future. You are a space archeologist and is searching for the lost Emerald Cat. This small, but very powerful, statue was stolen by a band of thieves. You must retrieve it before they sell it to the wrong person. This text adventure game contains some graphics, music and is self-booting.

ZORAN III (Disk and DDP $20.00 = To be released March 26)
You are a computer expert working for the Pentagon. A computer virus has been found in the Pentagon's computer network. It has been given the code name of ZORAN III. Your job is to find it and delete it. The virus is smart and can slip away easily. This text adventure game contains some graphics, music and is self-booting.

Child's Play (Disk and DDP $20.00
To be released April 26. This educational game brings your ADAM computer into the realm of education programs that teach your child something worthwhile. For use with or without the Eve Speech Card Unit. If your child is in first or second grade and is learning to use NOUNS, VERBS, and ADJECTIVES and you want him or her to learn computers as well, this program is for you. With word drills, sentence formation, and games your child will learn the most with this program. This program was created with help from teachers in this field and from books for reference.

NetworkADAM NewsINFO Report One (Hardware)

($17.00) This is a report published by the ADAMZONE Publishing Company. The subject matter involves ADAM Hardware. Everything from the basic ADAM system set-up to the newest is expansion modules and internal boards. This report gives you reviews on every piece of hardware for the ADAM. It gives hints and tips on older hardware units and the newest on the market. It gives you comparison shopping so that you may choose the best unit for your budget. The report gives suggestions on what you should buy first to get the most use out of your ADAM and your new piece of hardware. Listings of surveys that show what most ADAM users are using and with what software they are using the hardware with. This report is a must if your are shopping for new hardware or just want to know what is new in the ADAM hardware market. You will be notified when updates of this report are available so that the information to you is as current as possible. Price reduction available.

NetworkADAM NewsINFO Report Two (Software)

($17.00) This report is published by the ADAMZONE Publishing Company. The subject matter of this report is ADAM Software. It gives you up-to-date information on the newest in ADAM software. Everything from business applications like data bases to the newest in graphics games. Even support software for base programs like painting volumes and question packs for your favorite trivia games. Hints and tips are given. Comparison shopping for competetive programs that need to be reviewed for your decision making to see what program suits you the best for your budget. This report is updated frequently and trade-ins are allowed for a fraction of the original cost. The information that you receive is current.

NetworkADAM NewsINFO Report Three (Reference)

($17.00) This report is published by the ADAMZONE Publishing Company. It contains a very complete listing of all the ADAM user groups, hardware and software manufacturers, mail order houses. It lists where to get whatever you need. This report is updated whenever a new group, company, or mail order house is found.

Eve Electronics SS—CC Battery Modification

($15.00) This hardware modification is for the Eve Electronics Speech Synthesizer – Clock/Calendar Expansion Unit. All you have to do is send in your unit to ADAMzap Software and for the above mentioned price you receive the following: First, ADAMzap will test to see if your unit is working properly after shipping. Second, the unit is opened and the old battery and old battery holder is removed. A new battery holder and a brand new long lasting battery is installed. The unit is tested and then sent back to you with a copy of MicroTalk and a guarantee for 90 days. The shipping insurance is included. Select Disk or Data Pack when ordering. You must include the S&H cost on the order form.

ADAMzap FREE Offer ...

When ADAMzap had its old catalog it had a special offer for a limited time. It consisted of a coupon for a FREE ADAMzap title when you sent in a SASE for the ADAMZONE newsletter. Well the ADAMZONE newsletter wasn't published the way it was planned, but ADAMzap can now give you a new FREE offer.

If you order three or more titles from this catalog at one time you will receive the PUBLIC DOMAIN selection below for FREE. All you have to do is write down your three or more selections on the order form, their prices, and then write in the FREE selection after that. Be sure to specify Disk or Data Pack. If you don't, you will receive the disk version. The FREE selection changes every few months and so does the catalog. More titles are added to give you a better selection and another FREE gift with three or more titles ordered at one time.

Thank you for your business and remember, ADAMzap and ADAMZONE support the ADAM Computer System.

The FREE Selection Is... The SmartWRITER Hand Book

(FREE with 3 or More orders at one time – Select Disk or Data Pack) This software title is for use with the ADAM SmartWRITER word processing program that came with your ADAM. It contains many useful and enjoyable files that you can read or print out. Some of the files that are included are: Hints&Tips, Puzzles, Jokes, Coleco Letters and surveys. This program is to help the user get the most out of the SmartWRITER word processor.

CENSORED

The 3 Part Space Series

The following three titles are individual adventures, but are connected in story line. Each can be played seperately, but for maximum enjoyment, all three are recommended.

The Assassin (Part 1) (Disk or DDP $15.00)

You go undercover to save your people. You must kill the evil ruler that threatens your people. Your mission takes you across the galaxy. You must do what it takes to survive and complete your mission.

The Chase (Part 2) (Disk or DDP $15.00)

The game starts where The Assassin left off. Your mission is to avoid capture and return to your home planet if at all possible. Watch out for the ones who are chasing you.

The Interrogation (Disk or DDP (Part 3) $15.00)

Once again, this game continues where the plot left off in The Chase and The Assassin. The story line keeps going in this part. Your mission, is to get information to help save your people from certain destruction. You may have to use very harsh tactics to get the secret information that the spy has, and which you need to save your people. This is the last part in the Space Series. All questions get answered in this story.

Special Offer: Save $$$

Buy all three Space Series Adult Adventures titles for a special price of $42.00 - A savings of $3.00 ($1 ea.

NITELIFE (Disk or DDP $15.00)

You are a MALE or FEMALE out for a good time. Go to a bar and meet the right companion. See how far you can get on this night out on the town. How good is your "NITELIFE"?

The NARRATOR (Disk or DDP $15.00)

This program tells stories. Several different stories that change every time you play. Different story lines that satisfy every Adult interest.

Adult Pak #1 & #2 (Disk or DDP $10.00 Each)

This program is for use with Reedy Software's Phrase Craze Trivia Game. Instead of the normal question paks, these use adult words and statements. You'll enjoy every game.

Grab Bag Volume 1 (Disk or DDP $10.00)

This is a collection of SmartWRITER files that deal with adults only. Puzzles, games, funny jokes, and letters all for the adult. More volumes are on the way. Great party gag.
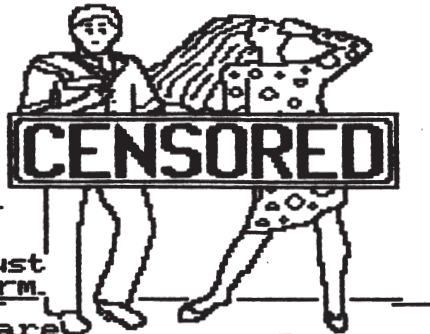

Dictionary of Sexual Terms (Disk or DDP $10.00)

The program contains SmartWRITER files for each letter of the alphabet. If your looking for something funny to put in an adult letter or say something funny at an adult party, this program is for you. Just reading thru these files will give you hours of laughs. Just imagine what sexual terms can be found under "Z"?

TRIAL Program (Disk $2.00 and DDP $5.00)

This program contains an adult version of SmartBASIC and sample sections of some of the Adultware programs in this catalog. The SmartBASIC is FREE, the samples help you decide which to buy.

ADAM USED HARDWARE SOFTWARE

The titles and units listed below have been bought by ADAMzap and have been checked for any malfunctions. They are sold "AS IS".

The Socializer (Disk and DDP $20.00)

The game's goal is to venture thru three different bars while consuming 33 different types of drinks and trying to find the SUPER PASSWORD. You will face many unusual situations on your journey and if you do not pick the correct action to take, you will be fined for your stupidity. If you do manage to make it thru three bars you will be justly rewarded, but if you puke to much it's back to preying to the porcelain god. There are six different bars included to choose from to keep things fresh.

Strip Black Jack (Disk and DDP $15.00)

This game is just what is says. This computer version of the all time favorite card game will entertain you in an ADAM style and an adult way.

How To Order The Picture Volumes?

The following titles have two different versions. When ordering please select a volume number and a version number. If you buy both volumes at the same time you get $2.00 off the price. That means two volumes for $20.00.

Erotic Pics Volume 1&2 Version A (Disk and DDP $11.00)

These two volumes contain many different pictures in Digital Express' ShowOFF ! format. All in high resolution graphics.

Erotic Pics Volume 1&2 Version B (Disk and DDP $11.00)

These two volumes contain many different pictures in Digital Express' PowerPAINT format. All in high resolution graphics.

1. ADAM Memory Console. R80 Revision. This is the Expansion Module Console that needs the Coleco-Vision unit for hook-up. It has one Tape Drive. ($40.00 – As Is)
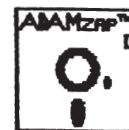

2. ColecoVision Game Unit with Controllers and Smurf Cartridge. Original Box and Manuals. ($50.00 – As Is)

3. ADAM SmartWRITER Printer. Version A. Extra Script Daisy Wheel and one ribbon. ($45.00 – As Is)

4. Fisher Price "Face-maker" and "Fraction Fever" Cartridges. ($9.00 Each – As Is)
