Here is the "Lord of the Dungeon" Colecovision cartridge with all the documentation the end user would have received. Read the manual, then play "Lord of the Dungeon".

If the cartridge does not appear to be working, give me a call at either number and I will try to figure out what is wrong. If it is totally shot, send it back and I will send you a new one. The battery in the cartridge is not user servicable, but it is supposed to last for 10 years, or so the hardware guys tell me.

After you get familiar with the game, write me and let me know what you think of the game. You can send me a check for what you think the game is worth to a collector like yourself.

I hope you find the cartridge as exciting to play as it was for me to create.

Good Adventuring,

Rexford A. Battenberg
