THE ADAM ARCHIVE
"LOOKING FOR" - 11/13/2026

OWNER: Rich DiRocco
MAINTAINER: Jim Notini / NIAD - jnoti68@gmail.com

This is as complete a list of missing items that The ADAM Archive and colecovisionadam.com are trying to track down and archive for everyone's enjoyment, use and benefit with the exception of a couple sections (noted in the section) where a more detailed list will be added in a future revision.

The Archive is constantly being updated and this list is in a constant state of flux, but items will not be removed even if we have them until they are uploaded to The ADAM Archive.

If it's not in The ADAM Archive and not listed here, it doesn't mean that it doesn't exist! We don't know what we don't know, so please contact us if you have ANYTHING to add.

Sources for this listing: NIAD Newsletter & Catalogs, M.W. Ruth Co. Catalogs, numerous other newsletters and catalogs. IE: M.W. Ruth Co. - Catalog (April 1989)

MANUAL SCANS - ADAM SYSTEM

Any Revisions that are not on The ADAM Archive are needed!

ADAM Word Processing: Typing with ADAM (Revised Edition 1984 - White Cover)
90-Day Warranty (1983)

MANUAL SCANS - SOFTWARE

Numerous! A list will be added

DATA PACK CASE INSERT J-CARDS SCANS

Best of B.C., The	- may not exist, have custom made J-Card
Market Monitor	- need original on generic white paper, have custom made J-Card
Personal Accountant	- may not exist as I never say a DDP case with a J-Card

ADAM HARDWARE MANUALS & DRIVER SOFTWARE (3rd Party)

All 3rd Party hardware that was released with accompanying manual, software and drivers disk(s) or data pack(s) need to be archived as image files. Numerous versions or revisions of the software were made to some and therefore everything needs to be compared for differences. Check the Archive in the ADAM Software section and Manuals section to see what we have and compare to what you have so as to avoid spending time duplicating work that has been done already.

For a pretty detailed and near complete list of CV & ADAM hardware, download the "Hardware for the Coleco ADAM Computer....." list that includes hundreds of pictures in the Root directory of The ADAM Archive.
